MINES AND MINING STOCKS

Floatation of Le Roi the Talk of the Town Yesterday.

It Should Open Up British Market for Canadian Investments — Standard Oil People in Michipicoton—Trade in Kootenay Good—Nugget From Cariboo Hydraulic —Klondike Mining Stocks.

The World's exclusive report of the British America Corporation's flotation of Le Roi in London for a million pounds sterling was the talk of the town yesterday. Everybody recognizes that this deal starts the ball rolling for the ascendancy of Canadian mining investments in the eyes of the British public.

About a year ago the War Eagle was placed on the market on a basis of $1,600,000, and now its sister mine is launched at $5,000,000, the stock valuation of the former having meantime advanced to about $6,000,000.

Mr. Sawyer in Town.

Mr. E. J. Sawyer of E. J. Sawyer & Co. yesterday returned from New York, whither he went to close up the deal with the Standard Oil people for the Michipicoton Island copper mines. About 50 men are now at work on the property, and it is reported that they have opened up some fine showings of the metal in the old workings.

As a result of Le Roi deal, which will help to open up the British market for Canadian investments, Mr. Sawyer will likely shortly leave for England to put through some deals.

Cariboo Hydraulic Nugget.

The clean-up of the Cariboo-Hydraulic mine this season is placed at $110,000. A single nugget picked up is worth $115.

KOOTENAY LEAD

Treated in the United States and Shipped to the Orient.

From Rossland Miner.

The Miner has long contended that the Orient is the best market for Kootenay lead. Conditions are rapidly shaping themselves to prove the correctness of this assertion. Last week the Puget Sound Reduction Company of Everett, Washington, made a shipment of 200,000 pounds of lead bullion to Shanghai, China. It was billed by rail over the Seattle & International Railway to Vancouver to be carried across the Pacific by the C.P.R. Empress line of steamers.

This bullion is the product of the galena ores of the Slocan, was sent to the Everett smelter for reduction and from there shipped back to the province for transportation to China.

This is the commencement of a vast trans-Pacific commerce in British Columbia lead, but it will never be on a satisfactory basis from a Canadian point of view until the need for treating the ores of this province in a foreign country ceases to exist.

Brant-Yukon Co.

The report of Mr. Canavan, which was announced in these columns yesterday, is attracting considerable attention. Mr. Donald McKinnon's offer to thoroughly develop the first fifty feet on one claim, he to receive all the gold found in 50 feet of the claim during ten months from the date of the agreement for said development, shows what faith that gentleman has in the property. Mr. McKinnon is an old miner and owns the adjoining property. Prominent Toronto business and professional men are large holders of this stock. Mr. Canavan says that the country is not nearly prospected. The company's agents have had over a year's experience and knowledge of the district, which places them in a much better position to invest money profitably than those only lately commencing active operations. Call on or write to S. J. Sharp, 80 Yonge-street, Toronto, or G. H. Carrol of Paris, Ont., for full particulars.

REORGANIZATION OF SILVER BELL.

Ninety Per Cent. of the Old Stockholders Are Going Into the New Company.

Yesterday was the last day for paying the assessment on the old Silver Bell stock and getting the shares transferred into those of the new Silver Bell Consolidated Mining Company.

Mr. J. A. Currie, who is acting for the new company, was seen last night, and said: "I cannot tell you exactly how many have paid up their assessment and become shareholders of the new company, but judging from the way letters have poured in all day yesterday and to-day it would seem as if fully ninety per cent. of the old stockholders will become shareholders in the new company. This would give the company about $9000 of hard cash to work the mine with this winter, and there should be a good showing with that.

"We find that quite a few people hold stock in the old company who do not know anything about the change and the reorganization. I have received no less than twenty letters of this kind today, and I might say for the benefit of those who are shareholders of the old stock and do not know that there is an assessment, that if their stock is in and day towards the latter end of the week, I feel satisfied the new company will not squeeze them out, as there is no desire to squeeze out any shareholders. Of course this is a matter that must be attended to at once.

"The old certificates in some cases have been sent in without proper endorsation. They should simply be endorsed in blank on the back. Quite a few have neglected to do this.

"I have just heard from Rossland and the contract has been let for sinking the shaft 25 feet, with the option of going another 50 feet. We are getting our work done very cheaply. The total cost will not be $25 per foot for sinking, which is equal to the record prices of the big mines here. The company have decided to do the mining work by contract, instead of running a big gang themselves with an expensive permanent staff. Every foot of work that will be done on the property now will be paid for only at the closest figures.

"As some of the shareholders do not know what becomes of their assessment we might say that this money goes directly into the treasury of the company to work the mine, without commission or charge whatsoever. With a good property, all the necessary machinery in place and considerable work done, the stock of the Silver Bell Consolidated Mining Company should now be worth more than it ever was, and at one time it sold as high as 17 cents. The company never had as much treasury stock all together in its treasury as it will have when all assessments are in and paid."

SIR WILFRID ROASTED, YET LIVES.

Rev. S. S. Craig Has His Own Ideas About the Doings of the Premier.

Rev. S. S. Craig, the sociological preacher, continued his strictures on the Liberal Premier at the Guild Hall last evening. This John the Baptist of Canada, as one might fittingly style him, from his unsparing denunciations of all crookedness, had the thumb-screws on his victim at the previous lecture and last night he gave the screw another vicious turn. It was indeed a come down for the man who but a year ago had sat down at Imperial feasts in London. One could imagine that he heard the most horrible crunchings and the cruel exclamation of the tall, gaunt executioner, that there was yet time for recantation. Will it come?

Taking the applauding spectators into his confidence, Rev. Mr. Craig read out the charges:

1. Sir Wilfrid Laurier, in denouncing the German and Belgium treaties, had committed an immoral act against the unity of nations. By appealing to sentiment he had robbed Great Britain of a trade of £119,000,000 sterling for Canada's £20,000,000. He had killed Canada's wheat trade with Germany.

2. He failed to grasp the idea that the internal trade of Canada was of greater importance than the outside, and, although equal on supplying those business interests with the nations, refused to break down the barriers.

3. Was inconsistent in advocating cheap transportation when he did not interfere to prevent the C.P.R. and G.T.R. from charging exorbitant rates for passengers and freight. He (Mr. Craig) did not believe that cheaper transportation would benefit the masses. Three years ago when the apple crop was small the steamboat companies shipped apples to England for 80 cents a barrel, but the next year when plentiful, charged $1.25 a barrel.

4. That, although Sir Wilfrid Laurier was always talking of the great interest he took in the laboring classes, he was doing practically nothing to upset the terrible seething sweating system in Canada.

5. That the Canadian cities were full of honest young emigrants of Europe, who had been lured to this country by the lying circulars of the Laurier Government and were now starving on the streets for want of work.

Sir Wilfrid was now released in a very battered condition.

Rev. Mr. Craig then announced that next week he would speak on "Hon. A. S. Hardy, friend of the people, with an interrozation mark after the word friend," remarked Mr. Craig.

NEWS OF THE COLLEGES.

The Century Class at Varsity will hold a reception Saturday afternoon from 4 to 7, in the east and west halls of the main building.

Prof. VanderSmissen of Varsity was unable to lecture Wednesday and yesterday, on account of illness.

The opening debate of the Intercollegiate Debating Union's series will be held to-night, at Trinity University. Varsity and Trinity are the contesting parties. Representatives of the former will meet at the gymnasium and march out.

The big University dinner is beginning to loom up in the near future. Dec. 16 is the date, and it will be held, like its historic predecessors, in the gymnasium and students' union.

The Toronto Medicos will dine in state on the 8th inst., in the University gymnasium. The School of Science has chosen Dec. 9, and Webb's as the date and scene for a similar function.

The Royal Dental Society held a well-attended meeting yesterday.

The Dental College's annual at home is to be a brilliant affair this year, if hard committee work can make it so. A concert and dance will be given in combination.

The Jameson-avenue Old Boys' Association will hold their annual dance to-night in St. George's Hall.

A week from to-night the first business meeting of the new senate of Toronto University will be held. Very little business will be transacted, however, as the new committees are not yet in complete working order.

Trinity conversazione, held last night, had representatives from McGill, Bishop's College and Queen's. Messrs. C. Bruce Friks, F. L. Sutherland and A. R. Williamson were the delegates.

The students of Victoria are holding their annual conversazione this evening. The committee in charge have spared no pains to make this the most enjoyable function ever held in the University. Miss Jessie Alexander, Miss Lola Ronan, Mr. Harold Jarvis, besides the Glee and Mandolin Clubs, have been engaged to participate in the program. Carriages may be ordered for 1 a.m., but the college telephone will be available during the entire evening for those wishing to send for carriages. Entrance will be by St. Mary-street, and exit by Queen's Park.

Is Gillett Under Arrest?

Kansas City, Mo., Dec. 1.—It is stated here to-night that Grant C. Gillett, the Kansas City cattleman, whose financial collapse last week revealed the fact that in les schan three years he has piled up an indebtedness of more than $1,500,000, is under arrest somewhere in the southwest.

At 1.30 o'clock this morning fire was discovered in the Academy of Music, for many years leased and managed by H. R. Jacobs, and the oldest theatre in Rochester. The loss, including the theatre and damage to adjoining property, will reach $100,000.

PECULIAR POISONS

Generated in the Human Body.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptomaines), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion is to take, after each meal, one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first.

A little book on stomach diseases mailed free. Address F. A. Stuart Co., Marshall, Mich.

NOW IT'S THE GRAIN ROUTE

The Toronto-Georgian Bay Railway Portage to Be Discussed

IN PUBLIC ON THURSDAY

The kaleidoscope has changed the scene at City Hall again and now it is the Toronto-Georgian Bay grain route which is paramount in the minds of the city's rulers. The watchful J. H. Boyle has been pressing the matter and had succeeded in getting Council to authorize the Mayor to call a public meeting of citizens to waken public opinion to Toronto's newly-opened-up opportunities geographically to become the transhipping port for western grain on its way from the west to the ocean. Yesterday he again encountered His Worship, and as a result the meeting will be proclaimed for Thursday evening next in the Council Chamber of the City Hall. Mr. Boyle has been communicating with western shippers and is confident that with Toronto co-operating they can flood the corridors of the Parliament Buildings at Ottawa with a deputation which will demand of the Government a direct line railway portage between Georgian Bay and this city. Grand Trunk co-operation has been solicited, he says, but the company seems negligent of an opportunity to compete with the C.P.R. and the Ottawa, Arnprior and Parry Sound line.

They Jollied Dunn.

The Property Committee yesterday afternoon had little to do and filled out the inevitable two hours by warming things up, jollying Chairman Dunn and the Board of Control. They fired question after question into the former about markets and new City Hall. The committee seem to have got it into their heads that the Board of Control is not only dilatory about its own affairs, but striving to take away business from other committees and be slow about it too.

Are They Burking Again?

Notably has this reference to the market improvement bylaw. The board, it will be remembered, handed over to Architect Sheard Ald. Denison's report on this matter for a revision. They are still awaiting the revisor's report and have been waiting for it for over two weeks. Ald. Denison at the time was satisfied to have his estimates revised, but now he smells a scheme to delay the bylaw past submission in January. He says, and so did Ald. Bowman, that Mr. Sheard should not take more than 48 hours to prepare his report.

Ald. Denison further took Ald. Burns to task for loading up reporters with a statement that market improvement as planned would cost $300,000, instead of $150,000. Ald. Burns had estimated, for instance, the roofing to cost 20 cents a square yard, while it could be done for 7 cents. In fact he had bona fide tenders in his possession from local contractors, who offered to do the work for $140,000, on his specifications. He blamed the board for trying to burk a project, which the majority alike of Council and citizens favored.

Ald. Leslie and Burns, however, for the Board of Control, quoted Mr. Sheard's promise to have the report ready in ample time for the preparation and advertising of a bylaw and all had to be content.

Must Tender Within Five Days.

Ald. Lamb led off another protest about the plans and specifications for the $12,000 partition contract for the new City Hall, still secreted. He, along with Ald. Denison, thought they should be left for the inspection of contractors longer than the five days between now and Thursday next. But the expert advice of Ald. Bryce was taken, and, since he said there were only five or six firms in town capable of tendering, the thing petered out.

$3000 Extra Grants Wanted.

The list of exhausted appropriations are those for roadways and culvert cleaning. The Engineer recommends to the Works Committee to-day an extra grant of $2500 for the former and $500 for the latter. Mr. Rust also declines to recommend in favor of two large stone or brick culverts to span the Don at King-street, on the ground that the pier in the centre would block the channel, and cause floods.

He also asks reconsideration of the Exhibition grounds dump, and incidentally that $5000 be given him to construct crib-bing on the west and part of the south sides.

MRS. ANNA HAM DIES.

She Was Injured on a Train While Coming to Toronto.

Mrs. Anna Ham died yesterday afternoon in the General Hospital from heart failure and the effects of a broken hip-bone. Mrs. Ham was a resident of London, Ont., and on Thanksgiving eve she boarded a train at the London station, with the intention of coming to the city to spend the holiday. On the route the cars jolted and Mrs. Ham was thrown out of her seat, and in falling fractured her thigh-bone. She was brought to Toronto, and on the arrival of the train was removed to the Hospital. Her condition was never considered serious, as her injury was getting better, and her death came unexpected. The deceased was a widow, and was in her 68th year, and has no children. Mrs. Cleland of 5 Cameron-street is a sister, and Mr. Flynn, excise officer at Gooderham & Worts, is a brother of the deceased. The remains were removed to F. W. Matthews & Co.'s undertaking establishment at 453 Queen-street west, where Coroner Johnson will hold an inquest to-morrow morning. The funeral will take place to-morrow afternoon to St. James' Cemetery.

SEARCHERS FOR ANDREE.

The Expedition Was Wrecked, But Has Reached Eastern Siberia.

London, Dec. 2.—A special despatch from less than three years he has piled up an Siberia, announces the arrival at the mouth of the Yenisei of an expedition that had gone in search of Herr Andree, the aeronaut, who ascended in his balloon in July last year, from Spitzbergen, with the intention of crossing the Polar regions in search of the North Pole. The expedition was wrecked while crossing from the Delta of the River Lena to the River Olenek, which flows into the Arctic ocean, southwest of Bennett and Delong Islands, but managed to reach an uninhabited island about 120 miles from the mouth of the Olenek. There the party was icebound for 17 days before it was succored.

West York Farmers.

Woodbridge, Dec. 1.—(Special.)—The West York Farmers' Institute held a very well-attended meting in the Orange Hall here this afternoon, Mr. A. T. Orth, president, in the chair. Mr. R. McCulloch of Sheldrove gave an interesting lecture on "How to Icrease the Fertility of the Soil," which was followed by a discussion, in which Mr. Robinson of Emery and Dr. Longhouse of Woodbridge took part. "The Breeding of Hogs for Market" was Duncan Anderson's subject, and he dealt with it in a masterly manner. In the evening Mr. T. F. Wallace took the chair, and in addition to an address on "The Elements of Success in Farming," by Mr. R. McCulloch, songs and recitations were given by Miss McClure and Miss Spencer.

TELEGRAPHIC BRIEFS.

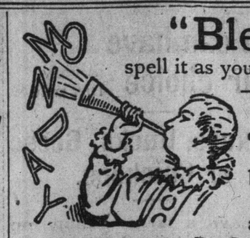
The Canadian-Australian steamer Miowera, just arrived at Vancouver, brings word that the U.S. volunteers at Honolulu are overjoyed at the prospect of returning home. There is much sickness among them.

The late John W. Keeley's will leaves about $10,000 to his wife. The document does not mention the mysterious motor on which he worked so many years.

The gold production of Colorado this year totals $28,000,000.

John D. Rockfeller is trying to get hold of the entire copper mining industry of the U.S.

At the New York Chapter of the Colonial Order banquet at Sherry's, New York, the guests toasted the Queen.



"Blew Monday"

spell it as you will, that's the soap-users' washday—uses them up completely. Never a "blue Monday" with the right sort of Pearline washing. No rubbing to speak of, no wear, just soaking, boiling, rinsing. Things washed are cleaner and woman who washes is able to enjoy the time saved. 565

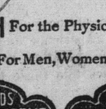
TENDERS.



Tenders for Fittings
New City Buildings

Separate tenders will be received, by registered post only, addressed to the Chairman of the Board of Control, City Hall, Toronto, up to noon on

Thursday, Dec. 8th, 1898,

for the office fittings, including counters, partitions, etc., required for the City Engineer's, Street Commissioner's, Medical Health, Park Commissioner's, City Treasurer's, Waterworks, City Commissioner's, City Clerk's and City Solicitor's Departments in the new City Buildings, as follows:

1. For Carpenter's and Joiner's work.
2. For Oil Finishing, Varnishing and Glazing Work.

Plans and specifications and forms of city contract may be seen and forms of tender and all necessary information may be obtained upon application at the office of Mr. E. J. Lennox, architect, corner of King and Yonge-streets, Toronto.

Plans and specifications may also be seen and forms of tender obtained at the City Clerk's office, City Hall.

Tenders must be on forms supplied by the architect, and be accompanied by a marked cheque or cash deposit equal to 2½ per cent. on the amount thereof. Tenders must also bear the bona fide signatures of the party tendering and his sureties, and must comply in every particular with the terms of the advertisement.

Should any person or persons whose tender is accepted fail to give security satisfactory to the City Treasurer for the due fulfilment thereof, his or their deposit will be forfeited to the city.

The deposits of unsuccessful tenderers will be returned. The lowest or any tender not necessarily accepted.

JOHN SHAW (Mayor),
Chairman Board of Control.

City Hall, Toronto, Dec. 1, 1898.

WANTED—TENDERS FOR PLUMBing. Specifications at office of Reinhardt & Co., lager brewers, Mark-street, Toronto.

Wreckage and Dead Bodies.

Barnstable, Mass., Dec. 1.—Great masses of wreckage have been coming ashore off the inside of Cape Cod since Sunday. A piece of a vessel marked "Emma ——, Philadelphia," with a tonnage of 1600, came ashore at Sandy Neck, near Barnstable Light, and last night three bodies were found near there on the beach.

What is Alger's Mission?

D. WARD'S BLOOD & NERVE PILLS D. WARD'S BLOOD & NERVE PILLS

READ THE PROOF!

GENTLEMEN,—I have for a long time needed something to make blood and build up my system. My blood was watery and thin, lacking strength and vitality. Last January a friend said:—"Why not try Dr. Ward's Blood and Nerve Pills? They will supply the oxygen your blood needs and give you health and strength." I told him I was very skeptical as to any benefit that could be derived from any proprietary medicine and had no faith in them. There the matter rested until four months ago, when reading so much about what Dr. Ward's Blood and Nerve Pills have done for so many people with impoverished blood, I concluded to give them a trial. I have taken four boxes and my unbelief so far as Dr. Ward's Blood and Nerve Pills are concerned has been entirely removed. They are a splendid blood builder and strength restorer, and an invaluable medicine for weak, enervated people. This has been my experience, they having given me strength of body and strong healthy blood.

(Signed), PETER LAWRENCE WHYTE,

Solicitors.

Toronto, 16th Nov., 1898. 535

JUDICIAL Notice to Creditors of Isabella Esson, deceased.

Pursuant to a judgment of the High Court of Justice, made in the action of Worth v. Esson, the creditors (including those having any specific or general lien upon the estate or any undivided share thereof) of Isabella Esson, late of the City of Toronto, in the County of York, who died on or before the month of May, 1885, are, on or before the 13th day of December, 1898, to send by post prepaid to Messrs. W. Mortimer Clark & Gray, solicitors, 90 Freehold Building, Victoria-street, Toronto, their Christian and surnames, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said judgment. Every creditor holding any security is to produce the same before the Master-in-Ordinary at his chambers in Osgoode Hall, in the City of Toronto on the 20th day of December, 1898, at 11 o'clock forenoon, being the time appointed for adjudication on the claims.

Dated the 23rd day of November, 1898.

NEIL McLEAN,
Chief Clerk.

Monarch G. M. Co.

In addition to Dundee, Fairmont, Tenarack, etc., I now have pleasure in directing the attention of the investor to the purchase of Monarch shares. This company own five full claims at Hall Siding in the Nelson Division of West Kootenay, B.C. Work is being done on the Monarch claim and the latest news is that they are down 65 feet in the shaft and that the showing is "encouraging." The group of claims has been reported and passed upon by the following mining engineers: J. L. Parker, Frank Robbins and Rienzi Macfarlane. The latter gentleman has lately taken up his residence at the mine in order to superintend operations. The proposition is a gold prospect, the mine in order to superintend operations. The proposition is a gold prospect, the ore being contained from 5 per cent. to 10 per cent. in copper, copper ore, and assays have been obtained from 3 per cent. to 10 per cent. in copper, and from a trace in gold to $10. The claims adjoin the Empress of India group, on which a vein has just been uncovered assaying 25 per cent. in copper. The price of the shares is 7c. and at this figure it is an excellent purchase. Full particulars on application.

Notice is hereby given that the annual meeting of the above company will be held at the offices of the company, No. 1 Toronto-street, on Monday, the 5th day of December, at the hour of 3 o'clock in the afternoon, for the election of directors for the ensuing year, and to submit the annual report and transact such other business as may be brought before the meeting.

D. O. CAMERON, President.
F. McPHILLIPS, Secretary.
Toronto, Nov. 21, 1898.

Novelty....
at present price is a splendid purchase. Vein just opened on the property assays $21.60 from the grass-roots. The company is now organized under the laws of British Columbia.

E. L. SAWYER & CO.,
42 King St. W., Toronto.

DECCA.

This is a mine that will make a record. Good management, ample working capital, steady work, good assays, large ore body, no stock-jobbing, fair dealing. A mine with a future—a stock with a value attaching. Ask your brokers for information, or write
