Grain Trimmers Join Teamsters and 'Longshoremen-Latter Reject Compromise.

Montreal, May 17.—The great dock strike is still on here, although the shippers and the men for five hours tonight discussed their differences in on effort to reach an agreement. The upshot of it was that the 'longshoremen rejected the shippers' offer. This was that the men should have a 2½-cent increase at once, the balance of the 5cent increase asked, to be settled by arbitration. Subsequently Mr. G. W. Stephens,

chairman of the harbor commissioners, suggested that they appoint a committee of three to draw up terms and submit them to the shippers was accepted. Mr. Stephens will act on the committee, the members of which will have no power to arbitrate, but must report the result of the conference

with the shippers. These 800 Acres Were the First Claims Staked in the Rich Larder Lake Field

Last summer, before any staking had been done in the Larder Lake region, our experts located TWENTY gold-bearing claims, amounting to eight hundred acres, two miles north of Wilson's Bay of Larder Lake. (You can have a map of the property for the asking). On some of the claims there are wide reefs that assay from \$7 50 to \$18 a ton. We have assays on file that show as much as \$1,800 a ton. There is no richer property in the country—and Larder Lake is as RICH AS THE FAMOUS RAND of South Africa. All our holdings are in ONE BLOCK, which means economy in working the claims. The ore on these properties is FREE-MILLING—we have our own waterpower on the property. We have an abundance of wood and water—every item that counts in the economical operation of gold mines. Our expenses will be far lower, and our assays are higher than those of mines which have paid seventy million in dividends—and our ore will grade far higher. We have nothing to hide, nothing to lie about. We ask

you to learn the simple facts, and we are ready to put them before you and to prove to you that
