### PERIOD FOR RETURN OF SERVICE CARDS **EXPIRES MARCH 31**

Government Extends Time and Emphasizes Needs.

MAY FORESHADOW ACTION

Taken To Mean That Something Definite Is To Follow This.

it is posible that the govyet an announcement received today at the local post office, to the effect that the time for the return of the national service cards has been extended until March 31, in taken to indicate that some decisive action will soon be taken by the government.

The former notice issued in January stated that the cards should be filled in and returned within ten days after their receipt, and while a good percentage of the cards were returned, no definite date was set limiting the time fallowed. Consequently, any man who has not yet returned his card, still has she opportunity of claiming that he had not as yet received one, or that he fatched erturning his card soon.

According to the new notice, the responsibility of obtaining the card rests with the person concerned and not the government, for it specifically states that a card may be obtained from the nearest postmaster. The fact that a definite date has been set for the responsibility and not according to the new notice, the responsibility of obtaining the card rests with the person concerned and not the semi-official overseas News Agency as follows:

Postmaster Dr. MacDonald, speaking with regard to the new announcement, and "If anyone has been overlooked to card it is real." eaid, "If anyone has been overlooked who should send in a card, it is well for him to know that the time has been extended to March 31, and that he can obtain cards,"

He was of the opinion that with this additional opportunity, those who do not send in their cards indicates that they do not want to do so. Over 14,000 cards were distributed in this city, and about 12,500, or 90 per cent were reabout 12,500, or 90 per cent were re-turned. This was considered a very turned. This was considered a very good return. Although 331 extra assistants were employed last month in the work of distributing and collecting, it will not be necessary to have any extra help to attend to the few who remain, according to Postmaster MacDonald.

The carriers will simply take a few cards with them and leave them for those who have not returned their cards.

He stated that no special plans have been formulated for the remaining work as yet, but that it is likely that after a consultation with the carriers formulated for the remaining as yet, but that it is likely that a consultation with the carriers plan will be decided upon, by which the greatest number can best be reached.

The funeral of Albert George Cole, who died on Wednesday, was held from the funeral parlors of N. J. Griffith on Saturday. Theh services were conducted by Rev. J. G. Whether it is the natural exuberance, which heraids the coming of spring, that is giving rise to the gambolling spirit in the blood of the horses, or whether green jealousy selzed the horses when they saw their hated rivals, the automobiles being screened by the movieman last week, remains to be seen. It is possible that some of "our four-footed friends" have got "the screen bug" and thought that by starting something exciting the camera-man might notice them.

exciting the camera-man might notice them.

Preceding the spectacular Richmond street incident on Saturday night a runaway occurred on Dundas street, about 5 o'clock in the afternoon.

A colt attached to a cutter containing two soldiers was standing on Dundas street west, when suddenly it reared up and boilted away in an easterly direction. When it had gone a short distance the cutter upset, and the two soldier lads landed on "mother earth," but were apparently unhurt.

When opposite Darch & Hunter's store the animal ran on to the sidewalk, and continued there until it reached Market Lane, where the cutter, coming in contact with a hydro pole, was broken away from the horse. The fact that it caught on the pole probably prevented it from crashing through the plate glass window of a store.

An order has been issued to the effect that in the future all troops must be fitted out with clothes sufficiently large to allow additional underclothes to be put on under the serge in very cold weather.

It seems that in the past there has been a tendency to fit the boys in nicclese-fitting uniforms to make them look as smart as possible.

This idea has seemingly caused considerable inconvenience and expense to the country, because when the boys have gone to the chilly climate of Drigland and Northern France, it has been increased and Northern France, it has been incorporated informs for larger ones on account of them needing a few more clothes there than here.

do know that if The Advertiser starts a movement to give potatoes at two dollars a bag and to keep the necessitles of life within reason for people who can't make ends meet at present prices, it will be doing a work which deserves support in every possible way. The idea is a splendid one." DOES NOT FAVOR DUPLICATIONS.

W. R. Yendall, Richards-Wilcox Canada Company: "The spirit manifested in the campaign last week was excellent, the finest thing ever seen in a movement in London as far as my experience is concerned. It is what we have been waiting for. I appreciate The Advertiser's idea in regard to perpetuating the spirit but, at the same time, I am not in favor of duplicating organizations and multiplying meetings. It is a question of how far organizations already in existence can cover the ground. The board of trade is splendidly organized and is continually becoming more effective. The Rotary Club every week is carrying on the work of drawing together and promoting the co-operation of men of widely differing interests and views. As far as the women's organizations are concerned, the manner in which it was possible to place efficient forces in the field for the canvass on such short notice, was convincing proof that they are well organized. I believe with our present machinery any campaign could now be successfully launched at any time in the city, for backing up a backyard and vacant lots garden campaign or for any other purpose."

FINE IDEA. A. E. Silverwood: "I think the idea suggested by The Advertiser on Saturday in regard to perpetuating the spirit of last week's campaign is a fine one. With co-operation and pulling together on the part of the rank and file of the people, practically anything could be accomplished that was set as an objective. Leadership and co-operation can make a success of the back yards and vacant lots' gardening plan, and nothing else will do it. I for one am in favor of any movement which will promote the welfare of the city.

"I am always ready to get on the band wagon and boost." CIVIC SPIRIT NEEDED.

John G. Bridge, manager of the Neal London Bread Company: "London will ever take the place it should until it develops a fine civic spirit such as was manifested during the patriotic fund canvass of last week. Any means or any organization towards that end has my hearty approval. For this reason I am highly in favor of The Advertiser's suggestion. What we need to do in London is to forget politics and personal affairs when it comes to public welfare, and

Charles Abbott, of London Motor Sales Co: "I think The Advertiser's idea first class, and I believe the majority who took part in the canvass would be of the same opinion. Several, indeed, spoke along this line the night of the last banquet. The consensus of opinion seemed to be we could do practically anything we started out to do in the line of civic welfare if we only would stick
