WHEAT FELL DOWN ON WILD RUMORS

Chicago Market Closed Unsettled After Early Advance.

BUYERS GOT NERVOUS

Prospects of Opening of Navigation Also Upset Routine.

CHICAGO, April 14.—Baseless rumors in regard to the German ambassador and to a supposed calling out of troops by President Wilson broke down the price of wheat today after an early advance. The market closed unsettled, varying from a shade lower to 5-8c net gain, with May at $1.16 3-8 and July at $1.15. Corn finished 1-8c to 3-8c up, oats unchanged to 3-8c higher and provisions at a rise of 2 1-2c to 10c.

Adjournment of today's cabinet meeting in Washington seemed to be the signal for a spreading of wild reports, which before denials could be obtained more than wiped out substantial gains that had been scored by wheat bulls. Previously, the only depression was right at the start, but the initial tendency to weakness had soon disappeared owing to what seemed to be a general disposition to minimize the seriousness of German and Mexican difficulties and to give attention to crop prospects and to ordinary factors of supply and demand. The scantiness of the rainfall in Nebraska acted especially as a help to the bulls, and so also did assertions that the Holland-America steamship strike had been settled and that foreigners were buying future deliveries here.

Predictions that lake navigation would begin next Thursday and that Canadian wheat would largely displace domestic shipments in the export trade counted to some extent as a handicap on the bulls in the last hour. Just at the close, however, the principal influence was an official statement from J. P. Griffen, president of the Chicago Board of Trade, puncturing compietely the bearish reports which had reference to the German ambassador and to a call from the White House for troops.

Improvement in seaboard demand gave strength to corn. In this connection significance was attached to higher prices at Liverpool and to adverse crop reports from Argentina. Oats, like corn, responded to a good shipping call from the east. Scarcity of oats, however, restricted business.

Active trading in lard was the main feature in the provision trade. A rise to $10 a hundred in the value of hogs furnished incentive to buyers.
