like asthma that I could shardly get my breath. Every breath was an effort, and made me feel like I was going to smother. I couldn't sleep at all well and many a night I have not closed my eyes for sleep until four o'clock in the morning. I just felt bad and worn-out all the time, had no strength or energy and would get up in the mornings feeling more dead than alive.

"I had been going downhill so long and had tried so many different preparations that did not help me that I had about lost all hope of ever improving at all, and if Tanlac had failed use I don't know what I would have done. I had been reading about it and although I had about fallen out with all medicines, I decided to try a bottle and see what the results would be. Well, I must say I was surprised, but it was a very glad surprise, to find that I began feeling better almost with my first dose. I have "Apprentice allowance claimed."

The Navy's Brand of Efficiency

covers everything afloat, from manoeuvring battle-cruisers, training great guns, and spotting "subs" to keeping brass-work "bright", decks spotless and faces clean-shaven. The naval life, with its training and traditions, develops men who are never satisfied with equipment that "will do", but only with that which will do best.

In this atmosphere the Gillette Safety Razor most emphatically "makes good". Always keen-always ready for instant actionswift and workmanlike-the Gillette commands the respect of the most exacting naval man, and the affection which every real man feels for a good tool.

The man ashore who shares the clean-cut efficiency of the Navy is equally enthusiastic over the Gillette Safety Razor-or will be the morning he tries it first. He will realize then what comfort and genuine satisfaction a man can get out of a three-minute Gillette shave!

These are days when no man should waste unnecessary time or money over shaving, particularly when so quick, so clean and so smooth a shave waits at home for every owner of a Gillette. If you are not already one of them, join their ranks to-day!
