HISTORY OF THE RIVER ST. JOHN

Rev. W. O. Raymond Publishes Valuable Historical Work in Book Form.

(The Daily Telegraph)
A little before the centenary of the discovery of the River St. John on the 24th June, 1904, Rev. Dr. Raymond began his well-known series of historical articles in the Saturday edition of the Daily Telegraph. The series is now completed, the period covered extending from the discovery of the St. John in 1604 to the arrival of the Loyalists in 1783. The interest taken in these historical articles has been widespread and general. Natives of the province living in various parts of Canada and in the United States have written expressing the hope that the articles might be published in book form. This has now been done and the result is a volume of 200 pages with more than thirty illustrations.

In his preface Dr. Raymond speaks of his love for the noble river on whose banks he was born and reared, and adds that he has found a peculiar fascination in the study of everything that pertains to the history of those who have dwelt beside its waters. The result of his investigations, pursued at intervals during the last ten years, is a more elaborate and trustworthy history of the St. John river region than has yet appeared. Dr. Raymond disclaims any pretension to literary excellence and quotes, for the benefit of his readers, Montaigne's well-known saying: "I bring you a newsy of cold flowers and have brought little of my own, but the string that ties them."

The opening chapter tells of the Maritime Indians, the original occupants of the soil. The author quotes the impressions of early explorers regarding these savages and deals to some extent with their origin, customs and manner of life. The book tells next of the coming of the White Man, and the story of the rival feudal chiefs, Charles de Tour and d'Aulnay Charlevoix and of the heroism of Lady Isabella. Then the English appear on the scene, and we hear of Sir Thomas Temple and his trading post at the mouth of the Jonnes river. But Acadia again passes into the hands of the French, and the Chevaliers Grandmontagne, Boulaes, and the sons of Charles O. Morne figure as commanders on the St. John. Villeneuve is one of the most picturesque scenes in the history of Acadia. He died at St. John in the summer of the year 1700, and his ashes rest near the "Old Port" site in Charlottetown.

The siege of Fort Nashua was one of the stirring incidents of King William's war. It resulted in the capture of the New England invader. The horrors of Indian warfare at this time almost exceed belief, and the Malisees of the St. John took their share in the forays against the New England habitues. More pleasing is the story of the brothers d'Amours, who were the first cultivators of the soil on the St. John river. A particularly pleasing is the account of Madame Marguerite d'Amours and her kindness to the little English captive, John Gyles.

The old Indian town of Medouctie is described in a very interesting way. The place was for many years the principal stronghold of the savages and the headquarters of the French missionaries of the Huron and Jesuit orders. It was here that the first church on the river was built in 1717 by the Rev. Father Regulate Leveque. The bell of the church was the personal gift of the King of France. It was carried to the river by the Indian church at Kingsclear in March last.

After an interval of peace, King George's war followed and the Indians again took the war path. Captain Poirer's unfortunate capture at the hands of the Algonquians and Medouctie proves that they retained their old-time ferocity. At this time the Bellisle family settled on the River St. John and left their name to one of its tributaries, in token of their affection.

ciently numerous to require some settled form of government and in 1783 a county was erected on the St. John called Sunbury, in honor of the Earl of Halifax, Viscount Sunbury.

A very interesting chapter is devoted to the origin of the old river townships of Sunbury, Burton, Gage, New-town and Conway. The moving spirit in this enterprise was Captain Beaumont P. Chabert, agent for a company of influential gentlemen, army officers and others, who formed what was known as the St. John's River Society. The documents that elucidate the history of the old townships were accidentally discovered by the late Major Stephen Macdonald in the archives of the Massachusetts Historical Society.

The townships were making fair progress, and the settlements on either side of the harbor at the river's mouth were rapidly growing in importance, when the Revolutionary war broke out. The American rebels then made various attempts to gain control of the river, in which they failed. The settlers, however, were harassed by privateers, and those of the Indians with violence. Matters for a year and a half were lively enough. In the end a British post was established at the mouth of the river in November, 1777, and named Fort Howe. Of this old fortification two views are given in the book. Major Stephen Macdonald commanded the garrison until the arrival of the Loyalists in 1783.

The beginning of the staple industry of the province may be said to date back to the year 1770, when militia for the royal navy were cut in considerable numbers on the river. The development of the masting business by William Davidson and Moses Hazen, White and Peabody fills another interesting chapter.
To a large number of readers, however, the most interesting part of the book will be that on "the pioneers of the St. John." This contains brief sketches of the founders of the families, Beckwith, Quinlan, Jones, Burpee, Palmer, Nerve, Peabody, Peabody, Barker, Albertson, Garrison, Coy, Estey, Desbarres, Darling, Kemble, Sterling, Glaizer and others. These names, and many others mentioned in other chapters, are represented on the St. John river today by numerous descendants.

Dr. Raymond gives a chapter on the early religious teachers who labored on the St. John, commencing with the French missionaries, treating also of those in connection with the Church of England, Congregational, Methodist, Baptist and Presbyterian bodies.
The closing chapter on the coming of the Loyalists fills nearly thirty pages and gives with more fulness of detail and accuracy, than has yet been attempted, the story of the Loyalist emigration. The voyage of the spring fleet, the June fleet and the autumn fleet are described in detail, and the hardships endured by the founders of St. John and Fredericton told in a realistic way.
In this review we have given but the barest outline of Dr. Raymond's valuable history, which was first presented to the reading public in the columns of the Telegraph. In book form it will be capable of better preservation and a good index enhances its value as a book of reference. The book may be obtained at a very moderate price of Barnes & Co., and as also at the principal book stores. Special arrangements will be made with teachers and those engaged in educational work.

THE LATE JOHN P. DIBBLE
The Boston Transcript contains the following reference to the death of the late John Perry Dibble:—
"The friends of the late John Perry Dibble will be shocked to hear of his death, due to fever, which occurred in Boston, Sept. 27, 1905."
"Mr. Dibble was born in King's County, N. B., on April 29, 1870. He came to Boston the age of sixteen and entered the employ of the American Express Company, where he remained two years. He left the express business to enter the wholesale house of Wheeler, Budgett & Co., now Budgett, Ordway & Webber, where he remained all the rest of his life, making occasional returns to his native land, which had ever since occupied his attention. He was married three years ago, and from then he went to Miami, where he saw great possibilities. Returning to Boston he spent a year manufacturing his plans and interesting Boston capital, and in 1903 he left for Miami. All his letters, the latest dated August 29, contained assurances of good health and the brightening of prospects. He was a member of the Warren Avenue Baptist church, and previous to his prolonged absence was an active church worker in Boston. He leaves a mother, one sister and six brothers."
