

Two Old Favorite English Toiletries

Yardley's

For two hundred years Yardley's on Bond St. has been a pausing place for the Beauties of London. For Yardley's are the makers of the Sweet Lavender group of Toilet delicacies.

Men go there, too—not altogether for the lilt of their cadors, but the soothing comfort of the Talcums, the Shaving, things and Dentifrices.

A few of Yardley's favorites at Ross' are—

Columbine

New to St. John, but known to Kings and Queens as well as Yardley's, are the Columbine Toiletries of Atkinson. A haunting bouquet and an ever-fresh fragrance, peculiar to English perfumes.

The Perfume is sold in sizes down to \$1.75.

Face Powder—\$1.75.
Face Cream—\$1.25.

MAPLE LEAF PAINT

It Makes Good Because It's Made Good.

—the millionaire can't buy better paint anywhere. —and the man who owns the humble cottage can't save money any surer way than with MAPLE LEAF. MAPLE LEAF PAINT is the sum total motor-driven adding machine of paint progress when it comes to comparison with the old pot and paddle days I had to go through.

For the "old man" with his shirt sleeves up and nothing to do on a Saturday afternoon—but a little job of painting—there's nothing to it but MAPLE LEAF and follow the directions on the can. Perhaps he won't need my services, but here's my advice to him—go to it strong with MAPLE LEAF and the eternal smile will become a permanent feature on his face—for every time he'll look at the job he'll say MAPLE LEAF for mine every time. The man with the MAPLE LEAF around his store is the man to buy paint from, look him up in your town.

INTENSE EFFORT ON TO GET BIG HOTEL

Sixty-six Men Begin Drive of Grave Importance to City.

Sixty-six of the business and professional men of St. John are out today on what many of them consider the most difficult task in their careers—the securing of \$120,000 in subscriptions which, if they materialize, will mean the realization of the city's dream of a big, modern hotel. Each realizes that the time during which the objective must be reached is short and every effort is being made to impress this fact on the prospective investor.

The canvassers, while not communicative on the matter of the response which their drive has accomplished so far, indicate that they are meeting with varying receptions, many of them indicating that the true realization of the significance of this movement has not yet got home to many of the city's people.

It is said that some who would like to subscribe, are not willing to do so because they feel that any purchase made by them would seem so small. To this the answer is made that no small, and as the amounts subscribed are completely confidential, they have no need to worry on that score.

It is figured by the committee in charge that every \$100 available will be needed to round out the sum required, and therefore there should be no hesitation on the part of serious-minded citizens in doing their part—no matter how small—in bringing the project to realization.

A fine example of the response desired by the strength of the appeal is shown in a letter received from a St. John lady, now on a holiday. Realizing that the failure of the hotel plans would be a serious blow to St. John, she hastened to forward a subscription and to wish the citizens' committee every success in its undertaking.

BOTH WILL REMAIN ON ST. JOHN ROUTE

Dingley and Arthur Service Not Disturbed by Accident to Boston.

Word of the accident which befell the S. S. Boston of the Eastern S. S. Lines caused a stir here. It was thought by some that the company would have to withdraw the S. S. Prince Arthur and replace her on the Boston-Yarmouth route in a readjustment of their service. A. C. Currie, local manager, wired to headquarters in Boston this morning asking for details and to ascertain if any change would be necessary in the local service. It was informed that the S. S. Calvin Austin would be withdrawn from the Boston-Portland route and placed on the New York run. This was taken to indicate that the S. S. Fuller, which had been assigned to the Portland run in place of the Calvin Austin and that no change will be made in the local service.

COURT HOUSE TO BE READY BY APRIL

Plans of Architect Wilson Described—Tenders Close Aug. 7.

The plans for the restoration of the court house, prepared by Garnet W. Wilson, architect, have been approved by Warden Wignome and the building committee of the Municipal Council, and tenders have been called for, to close Aug. 7.

The present freestone walls will be used, but the main entrance doorway will be enlarged and re-designed to suit a pair of doors and new vestibule. The window sashes will be of metal, with plain glass for the street front. The roof will be of copper. The interior construction is to be of steel beams and columns with flat arch terra cotta floors and terra cotta fireproofing around all steel columns, etc., throughout. Finished floors are to be of cement, covered with battleship tile, except in the entrance lobby, where the floor and wainscoting will be of marble, with marble steps leading from the vestibule. The wainscoting in general is to be of Keene's cement, with tiling in the toilet rooms. Plaster work is to be carried into the window jambs, making a sanitary and fireproof finish. The windows and doors of the council chamber and court room are to be enriched with heavy moulded trim and cap.

The decorative scheme will follow white and light buff for the ceilings, light buff for the upper part of the walls and darker buff for the wainscoting, with white enamel trim. It is the intention to furnish the large court room in mahogany, making a pleasing contrast against the white finish.

The heating will be by a single pipe low pressure steam basement system, with gravity returns, and the electric wiring will be in iron conduit with appropriate fixtures.

Floor Plans Changed.

The floor plans differ slightly from the former layout, being better arranged and also so that in the event of a future addition to the building the present layout would become part of the whole scheme as has been suggested for judges' chambers, law courts, law library and sheriff's office.

The ground floor will contain the council room, five judges' chambers, a judge's study, a law library and toilet room, in the basement heating apparatus and fuel room.

It is expected to have the building closed in before the cold weather comes and the whole work completed by April.

The buildings committee of the Municipal Council met yesterday afternoon at the office of J. King Kelley, K. C. county secretary, approved of the plans and specifications and decided to call for tenders to close on Thursday, Aug. 7, at noon. The tenders will be opened at a meeting of the buildings committee at 2:30 p. m. that day.

Those present at the meeting were Warden R. W. Wignome, chairman of the committee; Councillors Harding, Prink, O'Brien, Bowland and Corcoran.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornbeam, "I met a man yesterday who said he was satisfied with his moderate wealth. He said he would rather share with somebody else than be bothered cutting off coupons all the time and scheming to get more—when he already had more than one ordinary human ought to have."

"Now that fellow," said Hiram, "would be set down by lots of folks as a fool. So he is by the rules of the game as they play it. Well, sir, he's right. But it depends on how a man's built as to how he'll act. I heard yesterday of a fellow that'll cheat playing a game of golf so he'll be a score to brag about. I wouldn't put it past that fellow to grab everything in sight—as long as he could get away with it. But that ain't livin'. No, sir—that ain't livin'. That's cheatin' the undertaker—fer a fellow like that ort to hev weevil growin' over him. When folks hev about the sacredness of human life they ort to ask whether it is human—or human an' no good to man or beast—yes, sir."
