Banking Service for All

AS the majority of the first directors of the Bank of Montreal, formed in 1817, were Scotchmen or bore Scotch names it was but natural that they should seek in Canada "to extend and to perpetuate for the farmer and the merchant the benefits and stimulus of a system the worth of which Scotland's prosperity could abundantly prove." One of the outstanding features of the system was the maintenance of numerous branches by banks of large capital.

The foundations of a service by which branches have been established throughout the entire Dominion.

At each of these branches the full service of the complete organization is available.

Through this service the Bank of Montreal offers to all classes of the community, from the smallest savings depositor to the largest commercial organization, good and adequate banking facilities. Each customer whether his account be large or small is welcome as a client of the institution.
