SAYS HUSBAND WAS RESPONSIBLE FOR HIS OWN DEATH

New York, April 8.—An inquest into the death of Walter J. Snyder, editor of Sports of the Times who died yesterday from stab wounds inflicted by scissors on the hands of his wife, was planned by the coroner's jury today. Mrs. Snyder, who is held on a homicide charge, declares that her husband inflicted the wounds himself, by seizing her hands while she was manicuring her nails, and drawing her violently to him. They were quarrelling at the time, she declared.

MORINE NOT TO GO YET IF AT ALL

Ottawa, Ont., April 8.—(Special).—The announcement in the government press that Hon. A. B. Morine would be dropped by the government has created great interest in departmental circles here. A good many well informed persons are inclined to doubt the accuracy of the announcement. It is pointed out that Mr. Morine is not of the resigning type and that both times he was dropped from the Newfoundland government a British governor general had to depend on his resignation.

There is no time to send for a doctor, no time to go to the drug store, even; regret must be obtained at once. If you are fully equipped with "Vaseline" Dr. Chase's Syrup of Linseed and Turpentine in the house, cause the child to vomit with a spoonful of warm water or by tickling the throat with the finger.

Then get Dr. Chase's Syrup of Linseed and Turpentine so as to prevent the more serious attack which usually comes the second night. This treatment is wonderful. Fully effective for croup, bronchitis and colds in the throat or chest. Mothers who make it a rule of always keeping it in the house find that they can depend on it in case of emergency.

IN DREAD OF CROUP

The inexperienced mother is always in dread of croup. There is seldom any time until the child awakens at midnight with the hard, metallic cough and gasps frantically for breath.

FASHION IN THE THEATRE

Obstruction of People's View by Women's Head-dresses Again Causing Trouble

Paris, April 8.—The head-dresses of the women of the audience are again causing trouble in the Paris theatres. No hats are worn by women in the stalls or the dress circle, but the craze for aigrettes and the abundance of added hair worn by fashionable women in the evening are making it as difficult for the audience to see the stage as it was when hats were worn.

At the dress rehearsal of a new play, "Oh, Guilty!" at the Renaissance, numbers of protest against women's head-dresses were heard. One prominent dramatic critic caused much amusement by rising in the stalls after the first act and calling on the masculine members of the audience to "wasp the feathered heads which obstructed their view."

There was nothing in the nature of a riot. Everybody knows everybody else at these dress rehearsals, and the matter was treated as a joke. But the aigrette and high head-dress question is becoming serious in Paris.

THE MARITIME NAVAL COY.
C. W. Watson, broker and financial agent of the City of Quebec, who has been in St. John for the last four or five days in connection with the purchase of \$150,000 6 per cent first mortgage ten year sinking fund gold bonds of the Maritime Naval Co. of St. John, reports having been very successful in disposing of a considerable number of the bonds, and that the issue was well received by the St. John public. The bonds are being issued at 95 and interest, which yields the investor 6 1/2 per cent, and are redeemable at 105 and interest at any interest period after May 1, 1913.

The Maritime Naval Co. is now purely a St. John industry, owned and operated here, and is one of the most progressive companies doing business in the city, employs some 200 hands and pays out weekly in wages over \$2,000, is consequently deserving of the strong support and co-operation of the public. Besides their extensive plant in the city, the company also owns a large warehouse and land in Montreal and Quebec.

HON. MR. LABELLOIS
The Campbellton Graphic says:—"Two interesting events which to the town of Dalhousie and the county of Restigouche will require more than passing interest. On June 15th, the Hon. Chas. H. Labellois will celebrate his silver wedding, and on June 16th he will have attained his thirtieth year of service in the local parliament. Hon. Chas. H. Labellois, it is not generally known, is the "father of the house," and his many friends will see that such a record as his will not pass unrecorded. Already there are schemes afoot to make fitting recognition of these two events."

TRE RIVER ICE
Reports to Indians today were that the river ice was still fairly solid above Carter's Point although there were several weak spots, and but little ice was being seen except at quite a distance above there. There was little floating ice in the river at Indian town today.

MAN AND TWO CHILDREN BROWNED

Compton, Que., April 8.—One of the worst drowning fatalities ever reported here was that last evening when E. Poulin, his wife and two children named Velleux, aged eleven and seven were drowned. Mr. Poulin, his daughter, Mrs. Velleux, her husband and seven children were returning home after visiting friends, when next

they were recovered.

Meadow where water from the Coaticouche river had broken on to the road, the vehicle driven by Poulin and that occupied by the Velleux family were upset and the occupants thrown into the water.

The father and three children were rescued, but the mother and four children were carried some distance out and she clung to a stump of a tree and the children hung onto her. She and the children were in the water more than four hours and were rescued by a boat. Rescuers found the two children dead and two unconscious, while the mother was in a state of collapse. Poulin's body has not yet been recovered.
