CHILLIWACK.

Chilliwack Progress.
Mr. Duncan McRae, who has taken charge of Mr. Vance's mine, feels confident it will turn out very rich. Mr. James Wardell, of Hope, rumor says, has discovered some very rich gold his side of Hope, the assay ving \$300 to the ton.

The welcome rain set in early Tuesday yeeks in the mountains. A quantity of fine timber has been destroyed, besides damage done to the fences of some of the outlying settlers.

NEW WESTMINSTER.

An extensive bush fire is raging in Surrey municipality, with the result that the Kirkland road is blocked by fallen trees, and the great difficulty is experienced by the farmers in that loality in getting in or out.

Large numbers of Willow grouse are being killed in the vicinity of this city by Indians, who have no trouble in selling them at a good price in town. There is good reason to believe the grouse are being killed off fast, and but poor sport will remain at the beginning of the grouse season for those sportsmen who have observed the conditions of the game laws strictly. Nothing is being done arywhere in the district to prevent uplawful hur ting.

VANCOUVER.

Advices received from Everett Inst night were to the effect that a recent shipment of ore from the Channe Mining Company's Bobby Burns mineral claim at Shoal Bay, near the entrance Bute Inlet, has returned \$31.20 in gold to the ton. This result is anable ore in some of the coast mines, several of which are being vigorously worked in the vicinity of Shoal Bay, and

Phillips Arm. The Shoo Fly claim in the Shoal Bay listrict, has been bonded by an English syndicate, a representative of which recently paid the locality a visit of inspection. The syndicate propose getting o work without delay, and for this puroose men and supplies will be sent by the next steamer going up to the Shoal

Bay camp. Amongst the arrivals on yesterday's Pacific express was Sergeant-Major Cornish, the representative of the Mainland companies of the Fifth Regiment, C. A., on the Canadian Shoeburyness eam. It had been proposed by the members of the local companies to give their representative a suitable welcome at the station, but the day of his arrival eing unknown, this could not be done.

NANAIMO. The Free Press has been informed on reliable authority that the Union Steamship Company has decided to withdraw the proposals now before the Nanaimo municipal council asking for a bonus of \$25,000 to continue running the steamer Cutch on the Nanaimo-Vancouver route for five years, at a passenger and freight rate not exceeding those charged when the Cutch was with it can scarcely be distinguished from drawn. This question had received a Nest Egg ore. Work is being done on son Telephone Company and startled the good deal of attention from the municip- most of the Burnt Pass claims. council, several conferences having taken place between the aldermen and Great Falls, Montana, bought from J. the directors of the steamship company. The first proposition was a bald subsidy of \$30,000. Then it was reduced to one mile west of the O.K. The price Western Union and the Spokane Falls Creek, go on board the steamer and \$25,000; then an agreement was arrived paid was \$2,000, the purchaser also & Northern in extending their wires to confortable rooms and beds will be at at by which the city might obtain an in- agreeing to do 100 feet of work. terest (five-twelfths) in the steamer. This latter agreement, which has aleady been published in full in the Free Press, was discussed at a recent meet-

ing of the council, and laid over for further consideration and amendment. It was arranged that a meeting of the committee and directors should take place this evening. In this connection is stated, but the report is not confirmed, that the steamer City of Nanaimo has obtained the contract for the conveyance of the mails on the Nana-

imo-Vancouver route. BOUNDARY FALLS.

Boundary Creek Times. A promising find was made last week 'Jim' Dale on the west fork of lettle river. The claim, which is calid the Carmie, has a quartz ledge runing through it over four feet wide and ineralized with iron pyrites, galena nd zinc blende.

On the Rambler claim, about a mile outh of Pass creek, recently stocked the Everett & Spokane Mining Co., erable work is to be done this rank and E. J. Davis, who ran a numer of cuts on the ledge, the estimated width of which is 30 feet on the surface. The Lexington and Silver Bowl, situabout a mile west of the Golden Giant, in Pass Creek, have the same big surface showing of arsenical iron. They ere located this summer by Mr. D. H. arrington, a well-known prospector

The latest strike was made on Satarday and Sunday last, when a number of claims were staked up the west side Boundary creek, on Lost creek. The ered by three claims, is reported to be 40 feet wide. This discovery verifies the statement that the country is hardly valked over, much less thoroughly rospected. It is very probable that the est finds in Boundary Creek district

yet to be made. om the Combination assays were: ead, 30 3-10 per cent., value, \$18.12; cold, 3.20 özs., valued at \$66.15; total alue per ton, \$432.97.

VERNON

Vernon News. The Morning Glory mine on the est side of the Okanagan lake, near ernon, is promising good returns. An of rock taken out at a depth of s feet showed the cre to carry: Gold 32, silver, 42 and zinc \$2 per ton. The haft is now down about forty feet on a rge and well defined ledge.

Hop picking commenced last week on

ome of it this much-needed business institution was given a start. It was uranimously decided to launch the new institution under the title of the Okanmorning and will extinguish the fires that have been raging the last few 30 charter members to secure 30 charter members, a committee was appointed to secure the requisite numper of names.

Another fire occurred on Sunday evening at White Valley, at the house of Mr. Ewen Campbell. Nothing could be done to check the spread of the flames, and it was with difficulty that the fire was prevented from spreading to the outbuildings. The house, which cost about \$1,000, was partially insured.

> ROSSLAND. The Rosslander.

Yesterday the Walters Company, now in charge of the Union, despatched men and supplies to that property, to resume

active development. At an early hour this morning W. W. Wyard, a young man of 30, formerly cashier of the First National Bank at Spokane, and brother-in-law of F. Lewis Clark and A. A. Newbery of that place, died in his rooms at the International hotel, this city, of appendicitis.

For want of a better place to stow the hose and reel, those very important articles have been allowed to stand on the street in front of the Bank of Montreal building. One night this week some evil disposed person, with a sharp knife, cut the rubber of one of the nozmuch impairing its usefulness.

It was stated on the streets yesterday other evidence of the existence of paythat the plan of the railway reserve shingles, one car of ties and one car of
north of the townsite recently sent to payement blocks. Fireman Hume had Victoria for registration had been reland claimed by the Paris Belle Mining Company. Mr. H. B. Smith, C.E., who made the survey, states that this is not the case. The plan has not been returned to him, as it would be if it were refused registration. There is, however, a possibility that the Paris Belle people have taken steps to prevent its registra-

On the Nest Egg yesterday afternoon chalcopyrites appeared amongst the ore, which so far has not run very high in copper, but has been chiefly iron pyrites. This adds considerably to the value of the ore, and shows as depth is reached the ore of South Belt is found to be of the same nature as that found in the older mines on Red Mountain.

On the Phoenix, on which two shifts are working, the ore is changing from white arsenical iron to pyrrhotite and shows more copper than at any time since the mine has been worked. This pyrrhotite was found at a depth of 18 feet and about 200 feet to the westward

of No. 1 shaft. Ed. Maloney, who is interested in the Keystone group in the Burnt Pass section, returned last Thursday night from doing work there. The shaft is down 50 feet and in solid ore, some of which Mr. Maloney brought down. In appearance

The unfortunate man was brought to Golden and conveyed to the hospital, where he is being attended by Drs. Taylor and Brett. The latest re port states that the patient is improving gradually. It is reported that when Li Hung Chang heard of the accident he enquired the fireman's name and sent him a message of sympathy accompan-

ASHCROFT. B. C. Mining Journal.

Mr. Clemes, the well known English expert, is now in Lillooet investigating quartz properties for his company. Messrs. McDonald and Cameron, Seattle, spent a couple of days in Ashcroft last week and left on Monday by stage for the Cariboo country. They report a strong mining sentiment among the Se attle people and have good reports from

Fruit is a splendid crop in this vicinity this year. Apples, plums, some grapes and peaches, currants, and berries of all kinds. No country in the world can equal the Thompson river valley for the classes of fruit mentioned. No better climate for all the year around is known, taking health and comfort into consideration, than the climate of this

part of British Columbia. Philip Parke, one of the old timers, and for many years a prosperous farmer and stock raiser on the Bonaparte, was in town this week. Mr. Parke, when he finishes his having, will have stacked about 500 tons of hay and expects to winter his cattle, numbering 1,000 head. in good shape. Mr. Parke says experience has shown him that as a rule m this country a dry summer is exceeded by a light snow fall. The late rains will help the late feed, and the present outlook for stock to winter well is bet-

ter than it was a few weeks ago. With the starting of the Charlotte on the Fraser, which will soon begin to make regular trips from Quesnelle to Soda Creek, the journey by stage to Quesnelle will be shortened to two days. Passengers leaving Ashcroft will be at the dock at Quesnelle. If they wish, the same night will see them at Barkerville after a ride of 60 miles It will be an agreeable break in the journey to spend a night on the steamer and thereby escape 54 miles of staging. The steamer will employ a crew of about seven men, and will serve meals on board. It is expected that next sea son the river will be navigated for a hundred miles or more above Quesnelle, which will shorten the long journey to Omineca mines. Captain Frank Odin will be in commard of the steamer.

THE BIG THREE. El Dorado, Southern Belle and Snow Shoe Mines-All Three in the Koot-

enay District. Rossland, B. C., Aug. 8.-J. Reavis, editor of the Rossland Miner, speaking of Snow Shoe, Southern Belle and El Ambasador Uhl gave a dinner in his Dorado mining locations, combined un-honor on Tuesday. Captain and Mrs. der the title of "The Big Three," says: "El Dorado is a full claim, fifteen hundred feet square, belonging to Kootenay and Columbia group, on Columbia Hill. Only one claim, the Mascot, lies between it and Kootenay, for which forty thousand dollars cash was paid last fall, and in which there are now abundant signs

of fine ore. "A strong ledge runs clear thorugh El Dorado, from southwest to northeast. forty or fifty feet long, from which several tons of ore have been taken. Ore is

very similar to that of Kootenay. "I believe El Dorado to be one of the best prospects of the district. Southern View on east, and north of St. Elmo, A vein of fine copper ore has been found on View within forty feet of Southern Belle, west end line, same vein running into that claim. This alone makes ground, but with these I am not so well

acquainted. "Snow Shoe adjoins Northern Belle "Snow Shoe and Southern Belle occupy about eight acres of east slope of Red Mountain, and are in vein centre of great mining district. I regard them as being away the best of our undeveloped properties." J.A.C It is easy to be mistaken, but to

of unsurveyed mineral claims is more than many people would undertake. There may be mineral wealth enough in one or either of the three claims owned by the Big Three Company to justify the value at which the public was asked to buy stocks, but that has not been demonstrated; but one thing of which there can be no doubt is that a proposition of the class of the Big Three offered in the east will do much to make difficult the sale of Trail Creek stocks in the eastern market, and the aggregate of small sums from those in the east who would like to speculate in British Columbia mining stocks will help forward very materially the development which

everyone wishes to see.

A MESSAGE TO MEN. Proving That True Honesty and True

Philanthropy Still Exist. If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from health and manhood, after years of suf-

Vigor and Organic Weakness. I have nothing to sell and therefore want no money, but as I know through my own experience how to sympathize quackery, for I myself was deceived and imposed upon until I nearly lost faith remains for the surveyors to demon- this certain means of cure known to all. If you will write to me you can rely on being cured and the proud satisfaction ments made in the prospectus coming of having ben of great service to one in from Rossland reads peculiarly. For inneed will be sufficient reward for my following excerpt from a letter of the Send 5 c silver to cover postage and ad-
