Probably the best location for an outfail on the Arm side of the Park would be within 100 yards of the pablic bathing beach. A sewace purification plant at Black Rock would, in my opinion, not be desirable even if it saved money in first cost, because the cost of operation would make up the differences in annual obserges, compared with extension to the Park, and it is very difficult to operate such a plant without, a missance, Further, it might affect and values.

"Playing With Fire."

"Playing With Fire."
Married life imposes more or less restraint on young Mrs. Harrington. Her husband is a staid business man, and she thinks he lacks interest in her. She learns differently when she accepts an invitation from a gentleman friend to visit his brother's studio. Her husband thinks the friend has over stemed the bonds of probrother's studio. Her husband thinks the friend has over stepped the bonds of propriety, and in his anger, knocks the man down. Mrs. Harrington learns a lesson, and incidentally that her husband's love for her is strong enough to protect her from herself and others. She never afterwards doubts his love, and returns it two-fold. This society drama, with its strong moral, will be shown at the Orpheus Theatre, to-day, for the last time. It should be seen by all who appreciate a pletured sermon; far stronger than words from pen or pulpit.

Half holidays begin to-morrow.

To-morrow the Wednesday half holiday system in grocery, shoe, fruit, butcher and other shops, which was worked so successfully last year, come into effect. The stores close at 12.30 for the day, thus enabling the employees (who cannot participate in the Saturday half-day) to have a mid-week half day of recreation. The closing will continue till August, and this year September may be included.

Wentzells Limited have already notified their onetomers that they intend closing, and their employees, together with employees of other stores, hope that the public will send their orders in sufficiently early to enable them to enjoy the half holiday.
