OTTAWA.

Arrival of Sir Wilfrid at the Capital.

He Feels Much Better for His Rest in the Southern States General

OTTAWA, Jan. 7.—The government of Ontario has passed an order prohibiting the importation of live cattle from Canada and the United States on account of the outbreak of the foot and mouth disease in the latter country. This information reached the department of trade and commerce in a report from E. Eustace Burke, Canadian commercial agent, Mr. Burke reports a continued growth in the country's trade and better times generally. In the matter of trade with Canada, the agent again draws attention to the advisability of establishing more rapid steamship service between this country and Jamaica in order that bananas and oranges may be shipped direct to St. John and Halifax instead of finding their way into Canada through Boston and New York, where middlemen's profit are added to the cost of the fruit.

The marine department has no word of the sailing of the government steamer Lady Laurier, which put back to Glasgow for repairs. Hon. John Costigan left for Calgary today on receipt of the news of the death of his eldest son, J. R. Costigan, K. C.

The government has been asked by the imperial war office to notify Canadian firms that tenders are to be called for a yearly supply of fresh beef for the army in South Africa. The imperial authorities are anxious to have contracts go to firms within the empire.

The government has been advised of an important decision by the imperial authorities. Some time ago it was announced that the same rate of imperial pensions would be granted to Canadian soldiers who served in South Africa by reason of service in South Africa, as would apply to regulars in the army. Now it is intimated that the pension order has been extended so as to include the widows and orphans of Canadians who were killed or died while serving during the war.

Sir Wilfrid and Lady Laurier arrived here at 7.15 this evening and were met at the station by a large number of citizens who heartily cheered the prime minister and his lady. Eight of Sir Wilfrid's colleagues, Messrs. Field, Patterson, Fitzpatrick, Scott, Sutherland, Prefontaine, Sir Fred Borden and Sir Wm. Mulock were present to welcome their chief. The prime minister shook hands with every one in the crowd and expressed himself as delighted to be home. It was noticeable that he appeared improved in health.

The annual convention of the Eastern Ontario Dairyman's opened here today with several hundred delegates in attendance. Tonight was a banquet meeting, when addresses were delivered by Lord Minto, Hon. Mr. Fisher, Hon. Mr. Dryden and Prof. Robertson. The latter indicated further lines of aid towards the dairy industry.

OTTAWA, Jan. 8.—Hon. Mr. Fielding was active around the departments this afternoon. It is understood he took this method of impressing his colleagues with the importance of hastening up the preparation of the estimates.

There is a rate war between the Consumers' and Ottawa electric companies, and the ratemakers are benefiting thereby. A few months ago the Consumers' made a substantial cut on rates in order to secure business, and the Ottawa company has intimated that it will come down to the same figure.

The period of service of Canadians enlisted in the South African Constabulary expires next year. The Ottawa men are pretty well sick of the job and are anxious to get home. The question has arisen as to whether the period of service dates from enlistment or arrival in South Africa, and the justice department has been asked to give an opinion.

Rev. Dr. Armstrong of St. Paul's church will be nominated for moderator at the Presbyterian general assembly, which meets in Vancouver next June.

FREDERICTON.

The Sad Case of a Woman Accused of Murder.

Wesley Kinney, of North Lake, York Co., Wanted on a Serious Charge, is in Maine and May Not Return to Stand Trial.

FREDERICTON, Jan. 7.—The board of education met this afternoon. There were many complaints from all sections of the city regarding the government's action in compelling all pupils to attend school. The board is of the opinion that the government is not to be blamed for the situation. They claim that parents object to sending their children to school in winter time, and that the government is not to be blamed for the situation. They claim that parents object to sending their children to school in winter time, and that the government is not to be blamed for the situation.

INDIA'S DURBAR.

Carriage of Pure Silver and Sedan Chairs of Gold.

DELHI, India, Jan. 7.—Almost incalculable wealth of gold and silver was displayed at the Durbar of the Maharajah of Mysore, which was held in Mysore, India, on Jan. 7. AT DELHI.

Review of Thirty Thousand Troops Led By Lord Kitchener.

Warmly Congratulated By Lord Curzon on the Bearing of the Forces Through the Durbar.

DELHI, India, Jan. 8.—The review of thirty thousand British and native troops, led by Lord Kitchener, by the Viceroy, Lord Curzon, today, was the most important event of the coronation Durbar.

The Viceroy, the Duke of Connaught and the Grand Duke of Hesse, surrounded by a brilliant staff, took up their positions at the saluting point between the grand stands. From every side an immense multitude of Europeans and natives watched the march past and cheered the favorite regiments. Lady Curzon and the Duchess of Connaught witnessed the review from carriages.

The scene today was not less brilliant in coloring than the preceding events, and it equalled them in picturesque interest. There was a particularly effective manoeuvre after the passing of the horse artillery, the cavalry, the field batteries and the infantry in line of regiments, followed by the artillery, galloped past again, and formed half a mile in front of the grand stands and from this position charged down in a long and majestic column to within a short distance of Lord Kitchener, after leading the first regiments, joined the Viceroy.

He was warmly congratulated by Lord Curzon on the bearing of the troops throughout the Durbar. Of all the soldiers reviewed today, none made a better impression than the native volunteers, which were led by native princes magnificently uniformed and honed.

The imperial service corps, composed of natives, which saw service in China, excited great admiration, and was given a tremendous reception.

DEATH OF A. L. ALLISON.
At Torquay, England, After a Pretty Short Illness.

Was One of New Brunswick's Best Known and Most Highly Respected Citizens.

The following despatch was received last night from Hon. A. S. White, K. C. of Sussex:

Cable just received says Mr. Allison died at Torquay, and was buried there "for burial."

The news of the death of Leonard Allison, K. C. of the firm of White, Allison & King, will be read with regret by all who had the good fortune to know him, and with the deepest sorrow by those who knew him best. A few weeks ago Mr. Allison was in St. John, and speaking to one of his oldest friends, explained that he had been ordered by his doctor to give up work altogether and take a holiday. He had concluded to go to England, where he would be absolutely clear of work and would find many things to take his attention from his business.
