Cody, is aid of the new church now under course of construction. Bountiful tea tables were spread by the ladies assisted by friends from here. Games of all kinds were provided for the young people, and also a fine floor laid for those who cared to trip the light fantastic and which was fully appreciated and enjoyed by the young people. Refreshment booths were well supplied with confectionery, ice cream etc. and were well patronized.
 During the evening an immense bonfire was built, in the light of which the more mischievous spirits pulled down an ancient chimney which had stood and braved the storms of many years, which was also a mark to the memory of the late John Cotton whose labor and perseverance had built it probably almost a century ago; it consisted entirely of stone and clay cement and was quite a landmark to the place. Those who stayed for the evening festivities did not reach home till a late hour, all having had a thoroughly good time. The sum of 90 dollars was realized which will about half the church which the people hope to worship in by winter.

THINGS OF VALUE.

There never was, and never will be, a universal panacea, in one remedy for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill, in turn would aggravate the other. We have, however, the Quinine Wine, which obtainable in a pure undiluted state a remedy for many and serious ills. By its gradual and judicious use, the maligant systems are led into convalescence and strength by the influence which Quinine exerts on Nature's own restorative. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquillizing the nerves, dispenses to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making a necessary result, strengthening the frame, and giving life to the desiccated organs, which naturally demand increased substance—result, improved appetite, nourishment and Lyman of Toronto, have given to the public their superior Quinine Wine as the usual rate, and, raised by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

"Honesty is the best policy of course," moralized Uncle "Alma Sparks, who had just given the case a statement of his worldly wealth, "but it's expensive."

FOR THE OVERWEIGHTED.—What are the causes of despondency and melancholy? A disordered liver is one cause and a prime one. A disordered liver means a disordered stomach, and a disordered stomach means disturbance of the nervous system. This disturbs the whole body into rebellion and the victim feels sick all over. Farnelle's Vegetable Pills are a recommended remedy in this state and relief will follow their use.

"I think papa is 'readful,' sobbed little 8-year-old Margie, who had just been chastised by her father. "Was he the only man you could get, mamma?"

SOMEONE MUST TALK FARNELLE'S.—To prove it the only effect of many pills now on the market Farnelle's Vegetable Pills are more than a purgative. They strengthen the stomach, and give life to the liver and kidneys, and they stimulate where there is still compound disease. Nothing of an injurious nature, used for merely purgative powers, enters into their composition.

"Chicago gas for thirty cents!"
 "Yes, like a tumble in expense."
 And yet her gas would give off smoke
 If it should burn like thirty cents.

It may be only a trifling cold, but reflect it and it will hasten its time in your lungs, and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Farnelle's Anti-Consumptive Syrup, the medicine that has never been known to fail in curing coughs, colds, bronchitis and all affections of the throat, lungs and chest.

"Grandma," said four-year-old Harry one warm afternoon, "don't you think you would be cooler if you took the windows out of your spectacles?"

We have tried it.—Mr. John Anderson, Kinross, writes: "I venture to say few, if any, have realized greater benefit from the use of Dr. Farnelle's Eucalypti Oil, than I have. I have used it regularly for over ten years, and have recommended it to all sufferers I know of, and they also found it of great virtue in cases of severe bronchitis and insipid consumption."

In the country in the summer the self-blinder has the call.
 But they all turn out and listen to spell-blinders in the fall.
