Queen of All Filmdom SWEET MARY PICKFORD

### "FANCHON THE CRICKET"

ARY PICKFORD, the world's foremost motion picture star, is utterly fascinating in the role of Fanchon, a mischievous imp of a girl, the scora and by-word of the village, who, under the subtle influence of love, gradually develops a goodness of disposition and a general beat toward virtuous principles whereby she eventually gains the heart of the man she loves, and triumphs gloriously over the envy, hatred and uncharitableness of the rustic community of which she had been a despised and rejected member. There is a naturalness about her portrayal—a sparkling, quaint originality—that is absolutely irresis ible.
