THE STARVATION PLAN. Of Treating Dyspepsia and Stomach Troub-les is Useless and Unscientific.

from St John. Demerara, Feb 15, schr Arthur M Gibson, Irom Jacksonville-17 days, loads for Hali-az. The almost certain failure of the tion plan for dyspeps a has been proven time and again, but even now a course of dieting is generally the first thing recom-mended for a case of indigestion or any stomach trouble. Many people with weak digestion, as well as some physicians, consider the first step to take in attempting to cure indigestion is to restrict the diet, either by selecting cer-tain foods and reecting others or to cut down the amount of food eaten to barely enough to keep soul and body together, in other words the starvation plan is by many supposed to be the first essential. All this is radically wrong. It is foolish and unscientific to recommend dieting to a man already suffering from starvation be-cause indigestion itself starves every or-gan, nerve and fibre in the body. What people with poor digestion most-need is abundant nutrition, plenty of good, wholesome, properly cocked food, and some-thing to assist the weak stomach to digest it. The little girls of our families aust be started with that idea. -The curse of American society is that our young women are taught that the first, second, third,

fourth, fifth, sixth, seventh, tenth, fiftieth, thousandth thing in their life is to get somebody to take care of Instead of that the first lesson should be how under God they may take care of themselves. The simple fact is that a majority hem do have to take care of themselves and that, too, after having through the false notions of their parents wasted the years in which they ought to have learned how successfully to maintain themselves. We now and here declare the inhumanity, cruelty and outrage of that father and mother who pass their

daughters into womanhood having given them no facility for earning their livelihood. Mme. de Stael said, "It is not thes writings that I am proud of, but the fact that I have facility in ten occupations in any one of which I could make a livelihood." You say you have a fortune to leave them O man and woman! Have you not learned that, like vultures, like like hawks, like eagles, riches have wings and fly away? Though you should be successful in leaving a competen-cy behind you, the trickery of executors may swamp it in a night, or some officials in our churches may get up a mining company and induce your orphans to put their money into a hole in Colorado and if by the most skillful machinery the sunken money cannot be brought up again prove to them that it was eternally decreed

God will catch these oppressors becities for \$2 or \$3 a week who were the daughters of merchant princes. These suffering ones now would be glad to have the crumbs that once fell from their father's table. That wornout, broken shoe that she wears is the lineal descendant of the \$12 gaiter in which her mother walked, and that torn and faded calico had ancestry of magnificent brocade that swent Pennstyania avenue and weath and grind them to powder. Why is it that a female principal in a school gets only \$825 for doing swept Pennsylvania avenue and Broadway clean without any expense to the street commissioners. Though you live in an elegant resi-dence and fare sumptuously every day let your daughters feel it is a dis-

grace for them not to know how to work. I denounce the idea preval-ent in society that, though our young women may embroider slippers and crochet and make mats for lamps to stand an without disgrace, the idea of doing anything for a liveli-hood is dishonorable. It is a shame for a young woman belonging to a large family to be inefficient when her father toils his life away for her support. It is a shaue for a daugh-

I would that these living sepulchers in which women have for ages been buried might be opened and that some resurrection rumpet might bring up these living corpses to the fresh air and sunlight. Go with me and I will show you a voman who by hardest toil supports her children, her drunken husband, her old father and mother, pays her not women, as much as men, beat down to the lowest figure the woman house rent, always has wholesome lood on her table, and when she can who sews for them? But the day of judgment, which will reveal the sufferings of the stake and inquisition, will marshall before the useless, giggling, irresponsible nonentity which society ignominious by acknowledges to be a woman and ive, carnest Christian will have to choose between the martyrs of washtub and needle. Here is a gigantic injus-tice—that for work equally well if not better done woman receives far less compensation than man. Start with the national government. Wo-nen clerks in Washington get \$900 for doing that for which men receives \$1,800. The wheel of oppression is rolling over the necks of thousands of women who are at this moment in desmain about the tragedy of a wretched in the tragedy of a wretched the tragedy of a wretched eternity. judgment; more worried about her freckles than her sins; more interestof women who are at this moment in despair about what they are to do. Compare the life and death of such a one with that of some Christian aunt that was once a blessing to your household. I do not know that she was ever asked to give her hand in marriage. She lived single, that, untrammeled, she might be every-body's blessing. Whenever the sick were to be visited or the poor to be provided with bread she went with a Many of the largest mercantile establishments of our cities are accessory to these abominations, and from their large establishments there are scores of souls being pitched off into death, and their employers know it. Is there a God? Will there be a judgment? I tell you if God rises up to redress woman's wrongs many of our provided with bread she went with a provided with bread she went with a blessing. She could pray or sing "Rock of Ages" for any sick pauper who asked her. As she got older there were days when she was a lit-tle sharp, but for the most part auntie was a sunbeam, just the one for Christmas eve. She knew better than any one else how to fix things. Her every prayer, as God heard it, work for which a male principal gets \$1,650? I hear from all this land the wail of womanhood. Man has noth-ing to answer to that wail but flat-teries. He says she is an angel. She is not. She knows she is not. is not. She knows she is not. She is a human being who gets hungry when she has no food and cold when when she has no food and cold when she has no fire. Give her no more flatteries. Give her justice. Oh, the thousands of sewing girls! Across the sunlight comes their death groan. It is not such a cry as comes from those who are suddenly hurled out of life, but a slow, grinding, horrible wasting away. Gather them before almost covered her comm with japoni-cas, and the poor people stood at the end of the alley, with their aprons to their eyes, sobbing bitterly, and the man of the world said, with Solowasting whether the struck is a structure of the structu
