WILL GIVE LIFE STORY

to the State by Haywood

Conference field by the Defense With Prisoners in the County Jail for Ending of the Case

Boise, July 6 .- Counsel for the defense in the Haywood murder case held a long conference today, both at their down town office and in the cell of Haywood, Moyer and Pettibone at th country jail, and it was said afterwards that it would be next Wednesday before Haywood would take the oath

less on his own behalf. The program as it now stands is to begin Monday morning by reading the sition taken at San Francisco as to the explosion at the house of Fred Bradley. These depositions are to be supplemented later with the evidence of an explosion. It is contended by the use that if ten pounds of dynamit had been exploded, as Orchard swears were contained in the bombs he used, that that amount would have blown Bradley into pieces and destroyed the whole front of the building. Additional testimony will be given

to show that before he fied from the Coeur d'Alenes in 1899, Orchard attempted to sell his interest in the Hercules mine. There will be a showing also as to the movements and ac Simpkins when he went to Denver in the fall of 1905, after having parted with Orchard at Caldwell. This will about conclude the case, except for the testimnoy of Haywood and Moyer. It is believed that Moyer's testimony can be reached by Tuesday afternoon

Steve Adams will not be called by the defense. To call him would open way for the state to get his repudiated confession before the jury and it is deemed better strategy to avoid this. The direct examination of Haywood, according to the statement of counsel for the defense, will be long. He will give a sketch of his life which will embrace all of its important events, including his connection with the West-Federation of Miners. It is said that an opportunity will be given for fullest and widest cross-examination that the prosecution may deci-to make. Haywood himself will e plain that the \$100 sent to Jack Simpkins nine days before Steunenberg was murdered was the remainder of a Federation expense account which Simp kins left with Haywood to be forwarded to him at his home in Spokane. The presentation of the state's rebuttal will probably begin next Tuesday and be caried over into the succeeding week.

(Special to The Daily News) Boise July 8 .- In the Haywood case the entire time of the court today was occupied in reading depositions, taken in San Francisco, relative to the explositions, taken a singpling nearly interior during and sides this, the Consolidated Mining and sides this, the Consolidated Mining and Smelting Co. of Canada, Ltd., which has a lease and bond on the Snowshoe mine in Phoenix camp, has been making Orchard of setting a bomb. The first deposition was by Walter

H. Linforth, of the flats, one of which was occupied by the Bradley family. He told at much and at length of the affair, describing the building and the damage done by the explosion. He stated they did not find a leak in the stated they did not find a leak in the men under Supt. Biesel, are shaping gas pipes until a month after the things to be prepared to maintain shipments of 1,000 tons daily, if re-

Next came the deposition of F. W. Bradley, the victim of the explosion, Mr. Bradley said he took an early breakfast that morning, and left the house about 7.30. His watch stopped at 7.40. On direct examination he said: 'On reaching the bottom of the stairs faced the front door, squarely and as turned the knob there was a flash Then there at the end of my cigar. was a bright light and a deafening ex-plosion. I had an impression I had been shot in the head. I saw strange lights. Then there came a smothering sensation. I felt a weight upon my chest. I seemed to be inhaling gas. /Then I felt the weight being lifted. send to be lifted myself and my body was carried out into the street. I kne I landed on the street car track for i remember of thinking I might not ge off before a car came along. I knew my eyes were badly injured."

witness said that after the flash at the end of the cigar there was a short interval before the explosion. He said as he opened the door he saw nothing on the floor of his porch. He said he had not time to look at the He stated that after he had been "smashed to the floor," he felt that he was being suffocated by gas He smelled no powder. He said he was familiar with the smell of fumes aris-ing from the explosion of dynamite. "The only thing I smelled was gas. I

smelled no powder.' On the cross-examination he said he was not certain he was inside, or just outside, the door when the explosion occurred. He lighted his cigar up staris before leaving his library. Glass from the door was blown into his body, also shreds from the door mat, which Orchard said he laid on top of the bomb, the flash of light at the end of his cigar was a "blinding flame which shot in all directions." There seemed to be forces one "smashed him" down, the other afterwards lifting him up and throwing him out on the street car He could not have seen a bomb track. under the mat, there was a heavy curtain over the glass door.

BOUNDARY LOOKING UP

SHORTAGE OF CARS IS THE ONLY CLOUD IN THE SKY

MINES AND SMELTERS RUNNING AT TOP NOTCH

(Special to The Daily News)

Phoenix, B.C., July 6 .- The mining situation in the Boundary district has never look better than it does at present, notwithstanding the shortage of ore cars, which has not yet been re-leved by the C.P.R. The mines are all working with full forces, more than at any previous time, though some good machine men can still find work at top wages, and the three smelters-the Granby, B.C., and Dominion Copper, are running at as full capacity as pos-sible, treating altogether nearly 6,000 tons of gold-copper ore each 24 hours. Ore is still going out from the Gran-

by mines largely via the Great Nor-thern, although the C.P.R. takes a few cars daily; the Dominion Copper man ages to get along with the cars avail-able, but the situation is for from satisfactory, according to W. C. Thomas, the manager, and the surveys for the proposed aerial tramway from the com-pany's Phoenix mines to the Boundary Falls smelter, will soon be an accom-plished fact. The B. C. Copper Co., with its much shorter haul of three or four miles from mine to smelter, does not have as much trouble to get ore dumps as the other large shippers of ore in this section, but another hundred dumps would help that company also. The mine manager's do not blame the district officials of the C.P.R. in the least for the present ore dump shot-age, but they do blame the head of-ficials of the company at Montreal. Those officials knew, not only from their own special agents sent for the purpose, what the needs would be, more than a year ago, but also from the special representations made by the shippers themselves. One day this week every blast furnace

in the three district smelters was in blast, fourteen in all, but ore getting short, the Granby smelter was force to reduce its operating battery from eight to seven furnaces again. At the B. C. Copper Co's. smelter the best run ever experienced is now in pro-gress, with the three big blast furn. aces running through close to 2,000 tons of ore per day, while the Dominion Copper Co. is gradually getting its new giant furnace into the best of working order, and will soon be handling its upwards of 1,200 tons of ore daily. Besides the regular large quota of ore from the usual large shippers of the Boundary, the B. C. Copper Co. is now operating its ore at Denoro mine, in Summit camp, on an extensive scale and is shipping heavily therefrom. Benew shipping records, this week th average being over 700 tons daily. This mine is also being put in shape for an even larger output, new glory hole

quired, the ore now all going to the Greenwood smelter of the British Columbia Copper Co. Record breaking has been a comon thing of late for Boundary mines and smelters, but, unless all signs fail, the near future will see the old records shattered time and time again, as the arrangements for increasing the daily output are carried to complet

T SENTENCE

on.

San Francisco, July 8-Judge Dunne today sentenced Eugene Schmitz, mayor of this city, to five years in the penitentiary

at San Quentin. The sentencing of the convicted mayor was in one respect without a parallel in the criminal annals of the city of San Francisco. A dozen times judge Dunn vas interrupted by Schmitz, who protested vehemently against "the delivery of lecture," instead of pronouncing sentence of a Ie accused the court of unnecessarily umiliating him, and affording opportunity for further humiliation from the reporting f his remarks by the press.

of his remarks by the press. Once, replying to the prisoner, judge Dunne said: "Such brazen effrontery is probably no more than should be expected and it is the duty of the court to bear with it with patience." At another time attorney Metson of the

At another time attorney Metson of the defense interposed a vigorous objection for his client "to the court's tenurs." Judge Dunne warned Metson that another iterruption would provoke a jail sentence or contempt of court. In passing sentence on the convicted

nayor, judge Dunne said: "In pronouncing judgment in this case, the court has but very little comment to make; it can be said that the verdict of the jury in this case has a deeper significance than ordi-narily attaches to the finding of guilt. It it a message to all the people in the city of San Francisco that law and order are supreme, that no man, however exalted

"Eugene E. Schmitz, you have heretoe occupied the highest office which the ty of San Francisco can confer city of San Francisco can confer on one of her citizens; you were elevated to that position because of the confidence and trust imposed in you by the mass of the-" 'I am here," interrupted Schmitz, in a voice, though quiet and controlled, that carried to the far corners of the room, "to receive sentence at your hands and not be humiliated by a lecture which newspapers can repeat in print."

which surround him, is above the law

At this juncture there was a buzz of extement and a shifting of feet on the bar floor and an eager pressing forward by a crowd that was separated from the counsel tables by a row of occupied chairs. Beyond pausing, judge Dunne paid no at-tention to the interruption "You were elevated to the position, I

say, because of the confidence and trust mposed in you-" Attorney Metson interposed: "We are ere to take sentence not to be lectured;

"Mr. Metson," said judge Dunne warmly "If you interrupt the proceedings again I will send you to jail. You would be in far better business if you were here beg ging for a day in court to answer the charge that you wilfully and improperly attempted to tamper with a juror in this ase." "I am ready," responded Metson, "I

answer now or at any other any charges that may be lodged again I take exception to the remarks of the court addressed to the defendant and to the improper and uncalled for insinuation the court against myself."

To this judge Dunne made no reply. Turning to Schmitz, he resumed: "You vere elected to the position because the confidence and great trust reposed in you by the people. You have by your wil-ful acts, s ca jury of your fellow citizens red. broken that confidence mo etrayed that trust."

Here Schmitz again protested. Judge river Sommiz again protested. Judge Dunne took no notice but continued: "The penalty which the haw permits in this case is insufficient to meet the demands of justice. It may be suggested, however, that by your conviction you will lose the respect and esteem of all good citizens and men, that you will suffer the humi-istion of knowing that your career of hypocrisy, duplicity and dishonesty-"

"I' stand here as an American citizen "I stand here as an American cliner to demand my rights," interrupted Schmitz. "I am prepared to receive sentence; I ask that your honor do your duty and pro-nounce it immediately, and that I be not subjected to humiliation and degrading remarks which the papers are copying and will print. I say, if your honor has any rele menet, will proceed with the self respect, you will proceed with the

"It is not usual," judge Dunne replied, "for courts to be brought into contact with such brazen acts of effrontery as yours the present instance. It is the duty of the court in such cases to view the conduct of a convicted felon and with pa-tience and toleration, not to say pity. By your conviction you will lose the re-spect and esteem of all good men and cru-zens. You will suffer the humiliation of nowing, I say, that your career of hyporicy, duplicity and dishonesty has been xposed and that you stand before those who believed in and honored you, morally naked, ashamed and d'sgraced." "I deny that," cried Schmitz. "The peo-ple of San Francisco know that 1 was

ailroaded' through." Judge Dunne resumed: "Morally naked, shamed and disgraced. It is in the know ledge of these things rather than in any mere term of imprisonment in a state peni-tent'ary, that the full measure or your punishment may be found. It is the judgnent of this court that you be confined n the state prison at San Quentin for a

erm of five years." Then the big growd gave vent to its feelings in a great cheer. Immediately after resuming his seat Schmitz dictated statement to the Associated Press, in

9 statement to the insectance which he said: "The court where'n I received my sen-tence for the charge of ext rilen, again demonstrated and more clearly than any-thing else that it has heretofore done, a thing else that it has heretofore done, a charge I made immediately upon my re-turning west, that judge Dunne was pre-judiced against me, and that ji was im-possible to procure in his court a fair trial I have neuron and the second art trial. I have never asked for mercy, and before a court where I did not receive a fair trial, I certainly did not expect it. I intend not only to fight this case step by step, but all the charges that have been brought against me, and with the knowledge in my own conscience of my entire innocence, I expect to be successul in the contest. I now repeat what I have already said, that I will be a candidate for mayor in the city of San Franisco this fall, when the people of San cisco this fail, when an opportunity by Francisco will have an opportunity by their votes of demonstrating whether they believe me guilty or innocent. The people are always right; I am satisfied to leave my case with them." Immediately after the passing of sen-

ence, attorney Fairal asked that Schm'tz be admitted to bail, pending an appeal. This application will be heard tomorrow. Sills of exception were filed and judge Bills of Buils of exception actificate of probable Dunne granted a certificate of probable cause, enabling Schmitz to carry to the istrict court of appeals his motion for a new trial. The passing of sentence upon the con-

victed mayor was accompanied by a most remarkable demonstration. As the fast words fell from the Fps of judge Dunne, e great crowd that had stood thr ughout the dramatic scene, sent up a cheer. Men threw their hats in the air, others climbed pon chairs and the greatest confusion prevailed. Counsel for Schmitz appealed to the court to put a stop to this most emly occurrence.

"If we had a sheriff worthy of the name t would have been stopped instantly," reonded judge Dunne.

sponded judge Dunne. Sheriff O'Neil, who stood within the rail, turned to the court in protest: "No one could have stopped that cheer, your honor." Then the order was given to clear the ourt room. In the meantime half a dozen men had t off their flash lights and in the midst

of the strugging crowd and the suffo-cating smoke, stood the convicted mayor dictating a statement to a score of newspaper men.

STEAMSHIP ARRIVALS Montreal, July 12-The S.S. Lake Erie is reported passed Fame Point at 11 a.m. and is due to arrive in Quebec about noon and is due to arrive in guarce about about tomorrow and Montreal on Sunday. She has a large list of passengers on board and has made an excellent run across.

THE DAILY NEWS, NELSON, B. C., SATURDAY, JULY 13, 1907

WEEK'S ORE SHIPMENTS SATISFACTORY OUTPUT IN ALL DISTRICTS

DETAILS OF SMELTER RECEIPTS FOR WEEK

The ore shipments and smelter receipts for the past seven days, have been well above the average. The boundary district total, while slightly lower than the record one of the previous week, shows a heavy tonnage. One or two new shippers will be found in the Slocan list, notably the Emily Edith. Appended will be found the ore shipments and smelter receipts in detail for the pas

week and year to date in tons. BOUNDARY SHIPMENTS Mine Year 289,870 Franby
