

The Committee of the House of Commons, upon deliberations, has dragged to light in the course of its investigations a mass of startling facts, by no means calculated to strengthen public faith in the wholesomeness of a good many articles of domestic consumption.

GLASGOW DRUNKEN STATISTICS.—At a meeting of the Glasgow Town Council the other day, Dr. McIntyre asked why the returns on this subject, which he had moved for some months ago, had not been produced.

A PRAUD BOAST.—At a soiree in Liverpool last month, a Protestant minister, the Rev. James Martineau alluded to one of his own ancestors, who, in the time of Cromwell, was appointed a commissioner to go round to the churches at the east and centre of England, and purge them from their idolatrous usages;

THE FRENCH INVASION.—We read with astonishment in a London paper that—"Works of considerable importance for the defence of the southern coast are now in progress in Sussex, the expenses of which were set down in the ordinance estimates at £10,000.

"How is the man made a soldier," observes the Daily News—"It would appear, by what is enacted, that to enlist men for our army, according to regulation, it is either necessary that each man or boy should be made regimentally intoxicated, or that the recruit is taught to consider it his first privilege to be so—all under the eye of a well-seasoned recruiting sergeant who is gravely to look on and watch the workings of that spell which, we are then told, is the only one by which military courage in England is brought out.

A correspondent, writing to a Dublin contemporary, says:—"I hope you have not forgotten to notice that in the debate on the Religious Worship Bill the other day, the Earl of Shaftesbury made the gratifying announcement that in England there were thousands upon thousands of human beings in a state of more abject ignorance than the savages in the interior of Africa."

NOTICE OF MOTION.—Lord J. Russell.—To move an humble address to her Majesty, stating that the House of Commons is half inclined to a vigorous prosecution of the war.—Punch.

The Glasgow Commonwealth observes that "When one hears Lord Shaftesbury in full swing on a religious question in the house of Lords one comprehends the full force of Sydney Smith's phrase when he desired to see a certain blatant divine 'preached to death by wild curates'."

AN ILLFATED EDITOR.—A western editor enumerates a long list of annoyances and grievances, and winds up as follows:—"I was vexed, too, at a painter who had been paid in advance to paint me a sign, but he must go a-sailing in the bay on Sunday and get drowned—just as like as not on my money. Anyhow, he died, and made no sign.—American Paper.

MAGNIFICENT LIBRARY.—The Albany (N. Y.) Knickerbocker says: "They have just opened a public reading-room in Schenectady, N. Y. The contents consist of two almanacs and an old dictionary. The Mayor thinks it will have a tendency to check immorality in the young."

The six degrees of crime are thus defined:—He who steals a million is only a financier. Who steals half a million, is only a defaulter. Who steals a quarter of a million is a swindler. Who steals a hundred thousand is a rogue. Who steals fifty thousand is a knave. But he who steals a pair of boots or a loaf of bread is a scoundrel of the deepest dye, and deserves to be lynched.

TORTURE IN INDIA.—The Torture Commission has closed its labours at Madras, and has received the thanks of government for the energy, judgement, and success with which its inquiries have been conducted. The report cannot be made public in this country before it has been submitted to the authorities in England, but the inquiry is understood to have elicited facts which establish the existence of revenue torture in more than one district of the Madras presidency.—Times Correspondent.

DR. M'LANE'S LIVER PILLS. When the proprietor of this invaluable remedy purchased it of the inventor, there was no medicine which deserved the name, for the cure of Liver and Bilious complaints, notwithstanding the great prevalence of these diseases in the United States. In the South and West particularly, where the patient is frequently unable to obtain the services of a regular physician, some remedy was required, at once safe and effectual, and the operation of which could in no wise prove prejudicial to the constitution. This medicine is supplied by Dr. M'Lane's Liver Pills, as has been proved in every instance in which it has had a trial. Always beneficial, not a solitary instance has ever occurred in which its effects have been injurious. The invention of an educated and distinguished physician, it has nothing in common with the quack nostrums imposed upon the public by shallow pretenders to the medical art. Experience has now proved, beyond a doubt, that Doctor M'Lane's Pills is the best remedy ever proposed for the Liver Complaint.

Purchasers will be careful to ask for, DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public. Dr. M'Lane's Liver Pills, also his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States and Canada.

PROSPECTUS OF ST. JOHN'S COLLEGE, FORDHAM, WESTCHESTER COUNTY, N.Y.

THIS Institution is incorporated with the privilege of a University, and is conducted by the Fathers of the Society of Jesus. It is situated at Fordham, in a most picturesque and healthy part of the County of Westchester, eleven miles distant from the City of New York and three from Harlem—very easy of approach at all seasons, either by private conveyance or by the railway, which lies along the foot of the beautiful lawn in front of the College.

The grounds are extensive, and well laid out for College purposes. The fathers, desirous of bestowing the most conscientious care upon the domestic comfort of the pupils, have deputed to this important and highly responsible department persons of tried skill, whose training and experience fit them for the peculiar wants of an institution which purports to be one large family. The students are in three distinct divisions—the senior, the middle, and the junior—each having its separate halls and separate play-grounds, and each presided over by distinct officers and professors.

The system of government being paternal, the observance of established discipline is obtained by the mild, persuasive, yet firm means of rightly understood parental authority. Letters from or to students, not known to be from or to parents, are subject to inspection. Books, papers, periodicals, are not allowed circulation among the students without having previously been submitted to authority. The students are not allowed to go beyond the college precincts unless accompanied by their professors or tutors.

Visits of students to the city are not sanctioned except for such as have their parents residing in the city; and the interests of the studies, as well as those of the moral training, are found not to warrant their frequency over once in three months. Even students not having their parents in New York may sometimes be furnished the means of visiting the city. But for no case of such absence from college will permission be granted except at the express wish of the parents or guardians, and for the seasons submitted to the president. There will be a recess of one week at Christmas, but none at Easter.

The regular classical course of instruction embraces the Hebrew, Greek, Latin, English, and French languages; Religion, Eloquence, Poetry, and Rhetoric; Geography, Mythology, and History; Arithmetic, Book-keeping, and Mathematics; Natural, Intellectual and Moral Philosophy. There are two semi-annual examinations: the first towards the end of January, the second before the annual commencement towards the middle of July.

At any time during the year, and especially at the first examination, if any one be found worthy of passing up to a higher class he will be promoted; and such promotion shall be held equivalent to the honors of the class from which he passed up. Candidates for the degree of Bachelor of Arts are required to undergo an examination in Natural, Intellectual and Moral Philosophy, and in Mathematics, before the faculty of the University. They must, besides, have given evidences of their progress in the Greek and Latin languages and in literature.

Candidates for the degree of Master of Arts must, for the space of two years, have creditably pursued some liberal and learned profession. When it is the wish of parents or guardians to have sons or wards fitted for commercial pursuits, means are taken to direct and adapt their studies accordingly.

There are two preparatory classes, in which beginners are taught spelling, reading, writing, the first elements of English Grammar, of Geography, and Arithmetic. The German and Spanish languages are taught, if required, but together with music, drawing, and other similar accomplishments, form extra charges. Twice a week there is a gratuitous lesson of vocal music for the beginners of the preparatory classes. The Collegiate year commences on the first Monday of September, and ends about the 15th of July, with a public exhibition and distribution of premiums.

TERMS: Board, Tuition, and Use of Bedding, per Annum, \$200 payable half-yearly in advance, 150 Washing and Mending of Linen, 15 Physician's Fees, 3 N.B.—1. There is an additional charge of \$15 for students remaining during the summer vacation. 2. For a few years past, owing to the high price of every kind of provisions, it was found necessary to call on the parents for the additional charge of \$20. This transitory measure, however, is not likely to be kept up unless on account of the pressure of the hard times and with the agreement of the parents. Book, stationery, clothes, linen, &c., are also furnished by the College at current prices, or may be procured by the parents or guardians residing in the city. Each student, on entering, must be provided with three suits for summer and three for winter; with at least six shirts, six pairs of woollen and six pairs of cotton socks, six pocket handkerchiefs, six towels, four cravats, four pairs of shoes or boots, one pair of overshoes, a cloak or overcoat; a silver spoon, a silver fork, and a silver drinking cup, marked with his name. No advances are made by the institution for articles of clothing, or for any similar expenses, unless an equivalent sum be deposited in the hands of the treasurer of the College. With regard to pocket-money, it is desirable that parents should allow their sons no more than a moderate sum, and that this be left with the treasurer of the College, to be given as prudence may suggest or occasion require. Students coming from any foreign country, or from a distance exceeding 500 miles, should have guardians appointed in or near the city, who will be responsible for the regular payment of bills as they become due, and be willing to receive the student in case of dismissal. Semi-annual reports or bulletins will be sent to parents or guardians, informing them of the progress, application, health, &c., of their sons or wards. R. J. TELLIER, S.J. St. John's College, Fordham, N.Y. July the 12th, 1855.
