Dear Arthur:
I had a letter today from D. J. Byers, Winston, in which he says that Clydesdale & some other organs should be in North West now & only to show that we need to enter the riding, and thus prevent commitments on the part of Causen & others. Malcolm is here and to drive his best to get influential Tories to say he should get an acclamation. Byers thinks we can win - thinks anyone can win. I judge from his letter he would like the nomination himself.

Yours truly
Arthur Meagher
