

Generating Station, Overflow, Surge Tanks and Distributing Station of the Ontario Power Company, as seen from Goat Island.

At the end of 1912 the combined load of these pioneer municipalities was 16,615 horsepower, now it is 90,799 horsepower. Eight of the twelve now have a surplus sufficient to cover their indebtedness to the Province. Considering the whole twelve jointly, the aggregate of reserves and surplus available is over five and a half million dollars as

against outstanding obligations totalling not quite eleven and a half millions.

When the Commission first commenced operations in this District a contract for power was made with the Ontario Power Company for 100,000 horsepower at \$9.00 per horsepower per year. So rapid, however, was the growth of the demand in the district that in 1916 all

Section through Generating and Distributing Stations, Ontario Power Company.
