A Genuine Non-Leakable Fountain Pen

JUST WHAT THE CLERGY REQUIRE

Sectional view of the Pen closed for carrying. Patented July 17, 1894.

ADVANTAGES OVER OTHER PENS.

It is air-tight and cannot leak, as the cover screws tight against the nozzle, stopping it as a cork does a bottle. It can be carried in any position without soiling the clothing.

It is always ready for use, requiring no shaking to make it write. A perfect, even-feed that never drops ink or floods, and the only fountain pen, the flow of which can be regulated, to suit the writer.

Only the best 14-carat gold pens used. The ink cannot dry on the pen, which is always in the ink when not in use.

It costs no more than ordinary Fountain Pens and is as represented "NON-LEAKABLE."

Being protected, it cannot be injured by dropping or misuse as readily as others. The pen can be removed and replaced as easily as a steel pen.
