

Meeting Larger Markets

For years after the war, Europe will continue to require all the butter Canada can produce for export. With markets assured, farmers and dairymen demand a cream separator (1) that meets increasing demands without expense and delays of changing machines in order to get larger capacity; (2) that will get the greatest possible amount of first quality cream. A machine that meets both requirements is the

Renfrew

Interchangeable Capacity—When your herd increases you can enlarge the capacity of your Renfrew by simply changing the bowl and attachments. The Renfrew has but one size of frame and driving mechanism—suitable for the highest capacity. If you have a 350 pound capacity machine and later want to enlarge it to 450, 650, 800 or 1000 pound capacity, all you have to do is to order a bowl of the larger size with attachments—not the whole machine.

A large production of rich cream—Maximum production of firmer, sweeter butter-fat from the milk is accomplished by the Renfrew's exclusive curved wing center-piece. The Renfrew skims down to the last three ounces in every ton of milk skimmed. If you have eight cows or more, this means a saving of butter-fat over the results from ordinary machines that will soon pay for the Renfrew.

The Renfrew's close skimming records are fully explained in our latest illustrated booklet, also results of tests by Government Dairy Schools.

MADE IN CANADA

"To increase the capacity I do not have to change the whole machine—just this bowl!"

Write for illustrated booklet to-day. It explains also the Renfrew's self-oiling system, its easy-to-run, easy-to-clean features, its low supply tank and high crank; its milk-tight and dust proof neck bearing and other important features.

Other Lines: Renfrew Kerosene Engine, Happy Farmer Tractors, Farmers' 2000 lb. Truck Scale.

NOTICE: The Renfrew Separator illustrated here was formerly sold under the name "Standard," which identified it as a high efficiency cream separator. The name "Renfrew" has been used on the same machine for several years for our United States and foreign trade and under that name has become as popular in those markets as under the name "Standard" in Canada. Now the name "Renfrew" has been adopted for Canada so as to link the name more closely with that of our company and so that we can sell the machine under a uniform name throughout the world.

The Renfrew Machinery Company, Limited
Head Office and Works: Renfrew, Ont.

TORONTO HIP ROOF SILOS

The capacity of most silos is deceptive, because the low roof stops you from tramping down four or five feet of ensilage at the top. That means money lost to you! Consider the importance of the **Toronto Hip Roof** which allows you to pack down the ensilage right to the top of the walls.

And that is not the only advantage of the Toronto. The selected spruce staves are **DOUBLE** tongued and grooved, so that the air—and cold—cannot penetrate—you get better ensilage and a longer lasting silo.

Write to-day for the Toronto Silo Book which gives so many hints on Ensiling invaluable to the Cattle Owner. Address—

ONTARIO WIND ENGINE & PUMP COMPANY, LIMITED

NORTHERN ONTARIO

Millions of acres of virgin soil, obtainable at 50c. an acre in some districts—in others free—are calling for cultivation.

Thousands of farmers have responded to the call of this fertile country, and are being made comfortable and rich. Here, right at the door of Old Ontario, a home awaits you. For full particulars as to terms, regulations and settlers' rates, write to:

H. A. MACDONELL, Director of Colonization, Parliament Buildings, Toronto, Ont.
HON. G. H. FERGUSON, Minister of Lands, Forests and Mines.

When writing advertisers will you kindly mention "The Farmer's Advocate."

Handy Scales for Farm Use

Convenience and service are the chief features of the

Fairbanks Farm Scales

The handle at the base of the weighing post permits of ready transportation on its own wheels to any part of the farm buildings. In house or barn or dairy it serves any purpose up to 2000 pounds capacity.

Fairbanks Portable Farm Scales are compact and absolutely accurate. The platform is 34 x 25 1/2 inches and has a clearance of 11 3/8 inches above the ground. Write our nearest branch for full details of this and other types of scales.

IRON AGE

GARDEN TOOLS
Answer the farmer's big question: How can I have a good garden with least expense? How can the wife have plenty of fresh vegetables for the home table with least labor?

IRON AGE Combined Hill and Drill Seeder solves the garden labor problem. Takes the place of many tools—stored in small space. Sows, covers, cultivates, weeds, ridges, etc., better than old-time tools. A woman, boy or girl can push it and do a day's hand-work in 60 minutes, 30 combinations, \$4.50 to \$30.00. Write for booklet.
