

ments. All the facts of history... the earliest inhabitants of the globe...

Of the character of the primordial inhabitants of these United States, the ethnologists, as scientific writers call such aborigines, it is impossible to speak certainly.

Letter from England.

ENGLAND, April 6, 1860. The "logic of facts" whatever that may be, has prevailed. The law of "natural boundaries" has been indicated, and Savoy is now a part of the French Empire.

There have been some wretched doings at Rome. On the nineteenth of last month there was a general and unprovoked demonstration in the streets, in honour of the annexation of the duchy of Savoy.

The speech of Lord John Russell in the House of Commons on the 17th of April, while it has excited the alarm of the British school, has given the greatest satisfaction to men who value English honour and national dignity.

tested against the annexation of Savoy, all reasonable people must know that the despatch and speech of Lord John Russell are, both of them, proofs of the most dignified and significant conduct.

The new kingdom of Italy, with its incorporated duchies, is now an accomplished fact. Even the Romagna is held by Sardinian troops. This, the "unkindest cut of all," the Pope has resented by the most impressive and formidable appeal to the Vatican is capable.

Mr. Spurgeon still wants ten thousand pounds for his Tabernacle. Whoever he gets to get crowds of people, and plenty of copper—but not notes and sovereigns but a few. It will take a great deal of copper to build a tabernacle at the cost of twenty-four thousand pounds, and the process of collecting it must be necessarily slow.

The preliminary of a treaty of peace between Spain and Morocco have been arranged. Spain requires Morocco to renounce all her claims to the island of Tetuan, and to enter into a treaty of commerce, and to allow the establishment of a Roman mission, with its satellites, at Fez.

The March Quarterly Meetings are now over, and from accounts there is every reason to expect a considerable increase in the members of our Societies. The Sun of Righteousness is shining upon us.

The Annual Meeting of this District is to be held at Amherst, beginning on Thursday morning, the 17th May, at 9 o'clock. The financial business will be attended to on Friday.

Letter from Canada. From our Correspondent. CANADA, April 18, 1860. I need permission from your readers to state to me to be spiritualists alone, and give my sheets to crowding Provincial matters; and my promise for their permission, they shall have a co-ordinate summary, with variety enough.

The Inspector General's Financial schemes have taken up much time, and secured for the gallery seats of gladitorialship. The consolidation of the debt into English five per cent, will I conjecture, not lack the favor of those majorities.

The Resolutions for making several provinces of Canada, under a central authority, have not been discussed, and when they are, however proper to some, the vote will be against them, so long as the balance of power is possessed by the French Romanists of Lower Canada.

The Report of the Commissioner of Public Works in 1859 states, that the total expenditure has been \$9,225, as follows:—Post office, \$1,825; ordinary repairs, \$8,400; extraordinary repairs, \$75,511; new permanent works, \$349,041; old claims for damages, \$11,146; fug and Trinity House service, \$87,483.

and pens have begun to write grandly on foreign vessels upon the inland seas of Canada. We must be great! A laudable interest has been shown at several recent meetings at Toronto for the blind, and it may be expected that something new will be permanently done for them.

They may think it of sufficient importance, to pursue the object of this communication, by letters of similar character, until a general desire shall be strongly manifested by the Methodist people to be able to sing well and readily, nearly if not all, the precious hymns of our priceless Collection.

It is a beautiful chapel which adorns the hill-side, on an agricultural circuit, the minister had been wont to limit his selection of hymns to those of the simplest metre, lest he should overtax the ability of the singers, who were worthy and pious persons.
