Wonderful Hair

Clean and free from dandruff and possessing all the radiance of perfect hair. This is just what Sagine means to those who suffer with itching scalp, dandruff, coarse, dry or common looking hair. Sagine is new life to faded unattractive hair. Sagine feeds the hair root with the necessary food for promoting a healthy growth. Sagine is the daintiest tonic you could wish for. It is not a dye and is not sticky or greasy. A large shaker top bottle costs only 50c, and Mr. Clark gives his personal guarantee to refund the money if you are not entirely satisfied. Be sure to go to Clark's Drug Store as other stores cannot supply you.

"Do you know why a giraffe has such a long neck, my son?"

"Yes, dad; because his head is such a long way from his body."

ROUMANIA FORCES LAST LINK IN CHAIN OF STEEL ABOUT CENTRAL EMPIRES

Paris, August 28—Roumania has declared war against Austria-Hungary last night, says a Havas despatch from Berne, Switzerland, which declares that the Wolf Agency at Berlin made the official announcement.

Roumania's decision to enter the war was reached at a meeting of the Crown Council, held at Bucharest yesterday morning, says a Havas despatch from Geneva. The Wolf agency announces that the German Federal Council was convoked immediately after the decision became known.

Berlin, August 28 via London—Roumania declared war on Austria-Hungary on Sunday it is announced here officially. The announcement follows.

"The Roumania Government yesterday evening declared war on Austria-Hungary. The Federal Council has been convoked for an immediate sitting.

The motive which prompts Roumania to enter the war is the satisfaction her national aspirations, described by Take Jonescu, the Roumanian Liberal leader, as the "policy of national instinct."

Coincidentally this means national expansion. In the Southern half of Bukovina, the Austrian crown land, the Roumanians are the dominant race. The mass of the people of Eastern Transylvania, a part of Hungary, is Roumania by race, and language. It is said 4,000,000 Roumanians live in Transylvania. Roumania has been credited with a long-cherished ambition to annex these provinces and at the same time "liberate" the Roumanians who bow under Austrian domination. Recently it was reported Russia had offered Czernowitz to Roumania as a reward if she would unite with the Entente Allies.

Roumania also covets Bessarabia, the extreme south-western province of Russia, on the Black Sea, which was taken from her by the Berlin treaty of 1878. Reports have stated that Russia also consented to restore its population of 2,000,000 mostly Roumanians, and an area of 20,000 square miles. This with Transylvania would give Roumania a total population approaching 13,000,000, and should all her aspirations be satisfied, a territory as great in area as that of England, Scotland and Wales.

Roumania has a border line as long as the whole Russian Western war front on which to choose her point of military attack. In what direction her first blow might be aimed is only indicated by her desire to pour her troops through the passes of the Transylvanian Alps and the Carpathians into Transylvania.

On the other hand Austria has been accumulating military forces at Orsova prepared to attempt to force the Iron gates where the Danube River touches the Western Roumanian border. Bulgaria is said to have stationed 100,000 or more troops along the Southern bank of the Danube to protect her northern frontier from a Roumania invasion.

BLACK LEG IN POTATOES

Testimony is forthcoming that owing to the work of the Dominion plant pathologists, the disease of Black Leg in Potatoes has decreased. Still it causes considerable destruction to the potato crop, particularly

in the Maritime Provinces. In continuation of the good work that has been done, Circular No. 11 has been issued by the Division of Botany at Ottawa, entitled "The Black Leg Disease of Potatoes caused by Bacillus solonisaprus," which can be had free on application to the Publications Branch of the Department of Agriculture. The author is Paul A. Murphy, B.A., A.R.C. Sc. I., Assistant in charge of the Plant Pathological Field Station for Prince Edward Island who was also responsible for the recently published circular on "Late Blight and Rot of Potatoes." "It is," says the Director of Experimental Farms, "with a view to making known to Canadian farmers the means of control found to be most efficacious, that the present circular has been prepared." Mr. Murphy states that the disease notwithstanding the diminution noted, in 1915 cost the Maritime Provinces the large sum of \$695,255. It is interesting to know that with early care and attention the disease in comparison is easily controlled. Mr. Murphy details the symptoms in clear, terse language, describes the life history of the casual organism, estimates the loss in the Maritime Provinces at \$6.65 per acre with average yield of 133 bushels, gives the methods of control and supplies notes on the preparation and use of the disinfectants that are suggested. Notification is also conveyed that further information, if desired, can be had on application to the Dominion Botanist, Central Experimental Farm, Ottawa.

FIFTY horse-power SIX \$1450

7 passenger

Studebaker

Costs Less to Buy—Less to Run

THIS new SERIES 17 Studebaker SIX at \$1450 has become celebrated as the SIX that gives more actual, tangible, visible value per dollar of its price than any other SIX cylinder car on the market. And it is the SUPREME value of the year.

No other Six within hundreds of dollars of its price gives the FULL 50 horse power, the roomy SEVEN-passenger capacity, the comfort-insuring 172-inch wheelbase, the 34x4 tires that this Studebaker offers at \$1450.

But not only does this new Studebaker cost less to BUY—it costs a great deal LESS TO RUN.

And the reason is simply that this car is the climax of a long and slow evolution of this one basic Studebaker design.

Result is a motor that gets every ounce of pull that there is in the gasoline—a chassis so perfectly balanced and aligned that it eliminates all the power-killing, tire-destroying sideways a car that is designed and built for Service with Economy.

It's a "Made in Canada" Car that surely is a wonder to drive, and we'd just like to have the opportunity of taking you for a trial run, anywhere you say, as long as you say, so HURD as you say. Come in today.
