

SLEEPING IN CHURCH, AND FRESH AIR.

Dr. Guthrie, in a recent address at a school meeting, thus happily referred to the importance of fresh air:-

"I do not intend, because I am not very able, to address you at any length, especially in such a close and heated atmosphere as this, because we are very closely packed this evening, and whether there is sufficient ventilation in this place for such a large audience I have some doubts. I am a great admirer of ventilation and fresh air, and I think it should be had, if possible, on all occasions. I remember that in my native city of Brechin, Lady Carnegie, who set up a school in the town, asked one of the little girls attending it what was the effect of opening a window. [Here one of the windows of the room was suddenly drawn down amid laughter and applause.] Her ladyship supposed the little girl would answer that it let in fresh air, but it was not so. Her answer was this-and we may have a proof of it immediately-it lets in the cold." (Laughter.) But though that may be quite true. I am a very great advocate of fresh air being admitted into schools and houses. I sleep with my bedroom windows open every night. Some would think that that would kill me, but it is well you should know that foul air is as bad for the health as foul meat-for air is just good for the lungs-and one reason why you see many people going to sleep in church is not because they have a bad preacher or a bad sermon, but because they have bad air. (Applause.) I remember I was once present in a congregation in the town of Thurso, which contained as many as 1200 people; and perhaps you will hardly believe me when I tell you that on that occasion I saw what I never saw before, and what I am sure you never saw, and what I hope I shall never see again-I saw six hundred people asleep! (Laughter.) Six hundred people asleep! (Renewed laughter.) I happened at the time to be living with Sir George Sinclair, a very excellent gentleman who resided in the immediate neighbourhood of that town. I told him what I had seen in the church. "Oh," said he, "that is nothing to what I have seen myself; I have seen, in almost every pew, the whole people asleep-with only one here and there an exception." (Laughter.) Now, what was the cause of that? It was no fault in the preacher; for the minister, Mr. Taylor, is an excellent preacher; and excellent people the congregation generally are; but, as I told them, in addressing a meeting some days after, every man might as well have gone into an apothecary's shop before he went to church and taken a dose of laudanum to set him to sleep-I say they might as well have done that as breathe the kind of air with which the church was filled.

WOODILL'S WORM LOZENGES

ARE THE ONLY CERTAIN, SAFE, and EFFECTUAL REMEDY FOR WORMS. THEY never fail to act when properly used, and are CERTAIN to exterminate any of the different species of Worms which inhabit the different parts of the intestinal canal. They do not contain Calomel, or any other mineral substance, but are purely VEGETABLE and therefore SAFE. They act on the WORMS only, producing no other constitutional effect than that which would follow a dose of SENNA, CASTOR OIL or SALTS. In the treatment of WORMS the principal indication is the EXPULSION of the Worms from the Bowels. This may be fulfilled in some instances by active Purgatives, which expel by increasing the peristaltic action of the bowels, or by Anthelmintics, which favor their expulsion through the ordinary contraction of the bowels by destroying them, or rendering them less able or less disposed to resist this contraction. Other preparations in use possess the latter property only, and to a feeble extent, for to produce it, it is necessary to give large and nauseous doses, and on the following day some purgative to carry off the effects of the previous day's medicine. The combination of these two modes constitutes Woodill's Worm Lozenges thus not only destroying by their anthelmintic, but removing immediately by their purgative properties. It is upon this union that we claim the

SUPERIORITY and ORIGINALITY of Woodill's Worm Lozenges, as they are the only preparations combining these essential qualities. The ingredients both ANTHELMINTIC and PURGATIVE, composing them are eminently calculated to produce the best results, in accordance with the object of their combination, while they are both pleasant and agreeable to the taste. Be particular to ask for WOODILL'S. They are the only kind free from danger, and there are none more efficacious. They can be had of all Druggists and Medicine Dealers throughout the Provinces. The price is only 25 cents per box. \*Be careful to take notice that Woodill's are of a pink color. Prepared only by WOODILL BROTHERS, City Drug Store, 131 Hollis Street, Halifax. aug 9
