rding your Zutoo Tablets I beg to say: I have been a sufferer from head-ache since childhood and have used all, or nearly all, of the so-called "cures" on the market, till warned by my physician to discontinue their use on account of their bad effects on the heart. Some ce my attention was called to our Zutoo Tablets and I have been us ing them ever since with the most grati-fying results. I find they cure a "sick" or "nervous" headache in a few minutes and leave no bad effect. My family use them whenever needed with equally good results. I have frequently given them to friends who were suffering from head-ache and they never failto give quick re-lef. I find them a good remedy for "sour" stomach as well as headache. I always carry them in my grip on the road and would not be without them at any cost.

RUSSIA DEFEATED

The battle between the navies of Russia and Japan, so long expected, took place on Saturday and Sunday last in the straits of Corea. No details of the horrors that attended this greatest sea-fight in the world's history have vet been given out; only this is known—Russia has suffered a terrible defeat. Thirteen of her war vessels have been sunk or captured and 3,000 such a final demonstration of Japan's might. The lesson of Saturday will not be disregarded. To save his throne, already tottering, Nicholas must make peace.

Get Married

Young men around town who here tofore have paid no taxes of any kind will learn with some surprise of the new enactment requiring a tax on each hundred dollars of their income over and above \$400. All employers now have to make a return to the assess ment commissioner, a sworn return, giving the names and salaries of their employees and from this list the information upon which the income tax will be based will be secured. Where a young man, for instance, gets \$1,000 a year he will be assessed on \$600, there being an exemption of \$400. If he is a householder, the exemption on in-

I. O. F. MEETING

There was a good attendance of nembers of the Independent Order of Foresters at the meeting held in their lodge room on Thursday evening last and under the presidency of Chief Ranger G. F. Donnelley an interesting session was held. It is intended that a grand Forestic demonstration shall be held in Brockville during the month of August, and this meeting was held in furtherance of that event. After stating the object of the meetng, the chairman introduced Mr. J. Davidson, D.S.C.R., who delivered most interesting and practical address on 'he subject of Fraternal nsurance. He decribed the growth of the I.O.F. and detailed in convince ing terms the facts and figures that have contributed to its wonderful Under a wise, progressive iministration it has extended to many lands, and under sound, careful, enconomical management its financialresources have kept pace with its growth, until to day its surplus, all safely invested, is rapidly approach as \$10,000,000. The I.O.F. does not offer a "cheap" insurance. It is lowpriced when compared with straight line companies, but it is not cheap in the sense that it pretends to give something for nothing. The actuaries ave decided that it costs a certain sum per year to carry a \$1,000 risk. exclusive of the cost of management, and any society that drops below that figure must of necessity fail. Some others will surely follow. Mr. Davidson made no reference to any Canadian ociety, but referred to societies in the U. S. which had been obliged to increase their rates and had suffered greatly in consequence. The I. O. F. had never raised its rates on members,

Mr. John Bowman, Supreme Lecturer, followed with a truly eloquent address on the principl Forestry, and impressed all with his masterly presentation of the subject. As a fitting close to his speech, he read S. W. fair's poem on fraternity, and in this centre of declamation his fine elecution was duly appreciated. On invitation, the Rev. I. N. Beckstedt spoke briefly and well in of her men made prisoners. Japan's fleet came out of the engagement practically unharmed. With the particulars as to the Brockville demonpractically unharmed. With the captured Russian ships added to his strength, the Japanese Admiral, if the necessity arises, can sweep the Baltic itself and let the people of St. Petersburg hear the thunder of his guns. It was expected that this court would obtain as many members as possible before the meeting, and as an inducement the cost of admission had been reduced to \$2.00 (which includes the medical examination fee)

The character of the meeting on Thursday evening was most encouraging and inspiring, and at its close a number of names were given the secretary as probable members.

At 'the request of a number of members, present, the Chief Ranger announced that a special meeting of Court Athens would be held on the evening of the second Friday in June for the benefit of candidates membership and to arrange for the annual attendance at divine service.

Thousands of women in Europe have paid \$50 for a consultation with Dr. Hugo and got the same remedy. Considering the benefit they received from it, it was arth \$50, but it costs women oc. for six dozen tab

let -- enough for an extended
