By Chapman and Alexander Among the People of Orillia.

Mayor, Police Magistrate, Business Wien and Ministers Testity.

Chapman Tells of the Rebuke He Got From Mr. Moody.

Toronto despatch: "Orillia Day" may seem to make been the note of ye day's proceedings in connection with th great religious campaign in the city o Toronte. Orilia people, some of then promment in the cave, business and religious life of the northern town, attended in jarge numbers the afternoon service, and took possession of the even ing service in the Metropolitan Church The origin of Critica Day" needs a little explanation.

Two rears ago last October Dr. Wil-bur Chapman, Mr. Charles Alexander, Mr. and Mrs. William Asher, and other evanizelists, visited Ordina and conducted series of big meetings the like of which the town had never seen, and the story of which is being continued here to-day.

The number of professed conversions
was out of the ordinary even for a
Chapman-Aigander mission, and the churches in the town received wonder ful accessions to their membership

SPECIAL TRAINS FROM ORILLIA That the Orillia contingent—it came yesterday morning by special trains and numbered over 200 was not a nonde script one may be gathered from the fact that it was haeded by the Mayor, Mr. Frost, the Police Magistrate, Mr. G. H. Clarke, Rev. Mr. McGregor, of the Presbyterian Church, and other representative churchmen. Dr. Chapman at the opening of the meeting welcomed the visitors, and referred to the large results of the campaign in Orillia as a complete answer to those people who criticise revivalist missions as not producing permanent effects. The evangelist then asked the leading men of the deputation to give their views on this

Mr. McGregor said they had had a new vision of their responsibilities in the sight of God as a result of the camigu. He quoted Canon Green, leader the Anglican Church in Orillia ,and president of the campaign committee, town such evidences of God's

Mr. J. J. Thompson, one of the leadng business men of the town, said that as a consequence of the revival meetrgs in Orillia the skating rinks and the ouse were put out of business. Mr. Clarke, the Police Magistrate, said the spiritual life of Orillia was as different after the campaign as night was from day. The Methodist Church

he other churches also greatly benefited. Mr. Frost spoke as Mayor, of what described as "the most progressive ad most beautiful town in Canada," and said a nighty work was done under God two years back, and the good work started then was still going on. His own church, the Presbyterian, had not creased its membership and douts contribution to mission funds had raised \$40,000 for a new Sab school. Fired by that example, the Methodists and the Paptists

DR. CHAPMAN SPEAKS.

in the foundation work of the campaign. lestead of one text last evening he had three, all of them from the Gospels: "And she, supposing Him to be the gardener," "And they supposing Him to be in the company," and "Supposing they had gained their purpose." The keyword, of course, was "supposing." In the three instances quoted, he said, the various people—Mary Magdalene, the parents of Jesus, and Jesus' enemies—

had failed to see Jesus.

Dr. Chapman then had a little personal confession to make. "At the be ginning of my ministry," he said, "I was preaching in a church very similar to this. I was congratulating myself that I was doing very well, and also that there did not seem to be any poor people in the church. None of u the church. None of us seemed to be very much concerned about the poor people. But there was a man sitting up in the gallery and after I had finished preaching he came up to me and said. I want to speak to you very frankly. You haven't got the right ring about your want to speak to you very frankly. You haven't got the right ring about your preaching. You preach as if you dun't want to see people saved, and they won't be saved if you preach like that. I tell you what I'd do if I were you: I'd preach Jesus. I have," said Dr. Chap-man, 'thanked God ever since for that man and his frankness, and aithough I resented it at the time, when I get to Heaven I shall thank him personally. That man was D. L. Moody."

Mr. and Mrs. William Asher's noon hour meeting yesterday was at Chris-tie. Brown's biscuit factory, and the actting of the service was a complete at the C. P. R. yards, but there was present at the same earnest note, good singing, and popular preaching. Three hundred or more of the work occupie attended, men in overalls, and women in white frooks and sprons, and biscuit boxes and dough-mixing tables served the purpose of chairs. The evengelists were assisted by Mies McKinnon, Mrs. (Dr.) Carson, of the Young Women's Christian Guild, and Mr. A. Mackinen, of the Y. M. C. A.

Customer-"In case er I should decide not to retain this ring, will you exchange it for something else?" Jeweler - "Young man, it is a good deal easier for you to get soother girl than it would be for us to make the exchange."

Cominion Licenses to Cost Same as Incorporations Under Ontario Act.

Toronto, Jan. 16 .- Companies charter d by the Dominion Government and beking Provincial Thomas Will in the nture tave to pay the same amount that companies gre charged for incor-poration under the Ontario companies

An order in Council has been passed to this effect amending the act respect-ing the licensing of extra Provincial corporations. Hitherto companies incorpo rated under the Dom nion act were liensed to do business in Ontario by paying \$25, where the corporation's capita was \$100,000 or less, and \$50 if it exceeded \$100,000. The fees for incorporation under the Ontario companies

rere somewhat larger.

The new fees charged for licenses to Dominion companies will be calculated upon the amount of capital the company authorized to use in the Province

Men With Horses and Automobiles to Watch Hydro Wires.

Barns Will be Built Every Twenty Miles-Tampering With Wires.

London, Jan. 16 .- "Preparations ar all but completed for the arrangement of the patrol and the care of the Hydro-Electric power line from here to Niagara Falls. It is the intention of the Commission to erect, as soon as possible, a horse barn and garage at the Hamilton road sub-station. Barns will also be placed twenty miles apart from here to Hamilton, and there will be a garage with a big horsepower automobile at every fifty

"In the local barn there will be four horses, one to work from here to St. Mary's, another to St. Thomas, another on the main line east, and truck horse. The horses will we ton miles each way out of the barns, and the automobiles twenty-five miles each way. The latter will be used only for night and hurry calls.

patrol, and they will spend the night at watch stations erected at ten-mile points, to be on hand for any emergency. There will be a teleph louses, and cooking apparatus, beds and

other equipment."

A determined effort to secure the arrest and punishment of persons tan.pering with lines of the Hydra-Electric system is being made by Commission, and to that end a reward of five hundred dollars has been offered for information leading to the conviction

of offenders. to Hon. Adam Beck, According number of attempts have been made recently to short-circuit wires of the service altogether satisfactory, according to the chairman, the according to the chairman, lapse into darkness of the city.

Thursday last was due to a wire ing thrown across, the power lines. Hon. Mr. Beck places some of the responsibility for the trouble with the lines to the account of mischie persons in the country who de amusement out of the electrical display made when the wires are short-circuited

"If we catch any of them," said the

chairman, "we will make them sorry." In referring further to the comange that night would be his last word the uncertain power service, Hon. Mr in the foundation work of the campaign. Beck stated that henceforth the city plaint of London citizens regarding would have the benefit of a double service. The western section from Stratford to London, completing the loop, would be finished sometime during the day and in the event of any arouble on the first line the power could be

sent around by way of Stratford.
"The people must not get impatient and expect too much," added Mr. Beck. "We rushed the power to London per-haps earlier than we should have, and it will take us a little while to make adjustments and get everything running smoothly.

GEO. H. MUNROE.

Former Toronto Promoter Appears in Court at New York City.

New York, Jan. 16. Two more in dictments have been found by the fed eral grand jury against George H. Munroe, of the stock brokerage firm of Mun roe & Munroe for using the mails in scheme to defraud investors in fake "Marconi Wireless" stock. Munroe was arrested and indicted last fall and was released on \$2,000 bail. On the new indictments Judge Hand, in the U. S. Cir-

cuit Court, increased the bail to-day to \$4.000, which was furnished.

The new indictments to which Munroe has pleaded not guilty, charge him wit has pleaded not guilty, charge him with sending communications through the mails between January and June, 1907, to various persons to induce, them to purchase stock of the Marconi Wireless Telegraph Company, Limited, of London, and the Marconi Wireless Company, Limited, of Canada.

MRS. EDDY'S WILL.

Concord, N. H. Jan. 16.—Opinions by two eminent lawyers, Hannis Taylor and William L. Chambers, that the bequests of the late Mary Baker G. Eddy of \$2, 000,000 to the First Church of Christ, Scientist, of Boston, is forbidden by the laws of both Massachusetts and New Hampshire, is expressed in documents given out by Dawitt C. Howe.

It is believed that it foreshadows a contest of the Eddy will.

THE MIDDLEMAN

McCalla's Address to Experi-Mr. mental Union at Guelph.

Co-operation Can Do Much For the farming Interest.

Guelph despatch: "There is far too wide a margin between the cost the ultimate consumer and the price received by the producer. There is far too large an army employed in distributing the products of labor, and they demand far too large a share of those products for themselves." Thus did Mr. G. B. Mc-Calla, of St. Catharines set forth the agricultural situation in Canada this morning in the closing paper of the Ontario Agricultural and Experimental Union's convention. The subject of Mr. McCalla's paper was "Helpful Sugges tions in Farm Practice," which advised more attention to the business the farming profession.

"The various educational forces along agricultural lines have for years been instructing the farmers of this Province in the art of making two blades of grass grow where but grew before. That is a great and good work, but to my mind the time has come when more attention than in the west should be given to the husn the past should be given to the in the past should be given to the bus iness side of our profession; for what profit is there in performing that mir acle if there is no money in it? No mat ter how much any man may love farm ing for its sake, his feelings will be still stronger if he is getting an adequate fir ancial return from his labors," was Mu McCalla's opening assertion.

"That the farmers are not indiffer ent to or satisfied with existing condient to or satisfied with existing condi-tions was strikingly shown by the large and representative delegation that re-cently waited on the Dominion Govern-ment. That dissatisfaction is not—con fined to the rural population is shown by the univarial complaint from the ci-ties of the high cost of living. I have no ready-made remedy to offer, and i would be worthless if I had, for the nomic and social life of any people changed, not by revolution or act of Parliament, but by the gradual educa-tion of the whole nation to see the defects of its present system, and so ready to accept something better.

DAIRY PRODUCTS

The Home Consumption is Steadily Increasing, Says Mr. Ruddick.

Buying Direct From Factory By Consumers Should be Encouraged.

Figures Presented to the Western Dairymen's Convention.

Stratford despatch: Some very encouraging facts were laid before the Western Dairymen's Convention by Mr. J. O. Ruddick, Dairy Commissioner, in regard to the outlook for the industry. For the fiscal year ending with March next our dairy exports are estimated at only \$25,250,000, as compared with \$31,667,561 in 1903. Meantime, however, the hom consumption is believed to have increase ed by \$25,000,000, so that the production for the year about ending will really be \$8,582.439 greater than in 1903. For the year ending with March next the production seems to have increased more rapidly than in the year immediately preceding, because while the home con-sumption is still growing our exports of dairy products for the current fiscal year will be \$2,000,000 ahead of those of 1910. For the expansion that has taken place in the year near closing the partial open-ing of the American market to our dairy

roducts is largely responsible.
In the month of August, 1909, as In the month of August, 1909, as result of the reduction of the Unite states duty on cream from five cents per pound to five cents per gallon, we exported 1,650 gallons of cream to the American market. In November of the same year this increased to 70,000 gallons. For October last the amount was 327,064 gallons. It is believed that the value of our exports of dairy product to the United States for the year ending March next will be \$3,000,000, as against less than a quarter of a millio the year before, and practically nothing prior to the change in the American duty. The total value of the milk production of Canada was placed at \$100, 000,000, and it was said that an addi tion of 500 lbs. of milk per cow to the average production, something casily average production, something casi possible, would add \$10,000,000 to this. The prediction was made that much more than this will be done; that in a few years a larger proportion of the two million edd cows in the Dominion will be made to increase their milk flow by fifty per cent. Even with this increase Mr. Ruddick contended, there need be no fear of over-production. If the production remains stationary, the home market, if the expansion continues at the present rate, will absorb the entire output of the dairy industry ten years hence. In addition to this, there is the American market. Although the United States is the largest producer in dairy lines in the world, that country import-

ed nearly \$7,000,000 worth of butter and cheese in the calendar year of 1909, and will import larger quantities in future. Mr. Ruddick introduced a series of proposed amendments to the inspection and sale act. These included provision for the branding of whey butter; for the branding of "milled butter," that is butter composed of a mixture of cream-ery and dairy, or different lots of dairy; to prohibit adulteration of milk supplied to a skinming station, shipping station, or casein factory, as this is now prohibited in the case of milk sent Queen's Western Association, composed of Queen's University students from the price of goods the farmer has to factory. On motion of Messra J J Parsons, seconded by Frank Herns, the amendments were approved by the as-

sociation. Mr. George H. Barr declared that cream intended for creameries cannot he kent in the average farm cellar, even for 36 hours, and be delivered in a sweet condition. Still, 90 per cent. of the cream for factories is so kept, and the quality of the butter suffers accord-ngly. For delivery every other day an insulated tank will serve. Where de livery is twice a week an ice supply

Mr. G. A. Putman urged the cultivation of the home trade in cheese, and as a measure to this end the adoption of some method of bringing the con-sumer and producer nearer together. While ordinary city consumers pay eighteen cents for cheese in a retail way a few buy direct from the factory at less than twelve cents. More should be

induced to do the same. Mr. J. A. Ruddick bought the standard cheese in the exhibition at twelve cents for exhibition in London. sweepstakes cheese was bought by him by W. J. McCully, to be sent to Winnipeg. The Stiltons sold at thirteen cents. The creamery prints brought 28 sents, and the solids 24 1-4 cents.

sents, and the solids 24 1-4 cents.

Mr. Alex. McKay gave results of experiments in cheese making at the Ontario Agricultural College. One experiment showed that milk regeived in a normal condition made nearly 2½ lbs. more cheese per 1,000 ibs. of milk than magnetic milk. overripe milk. Another showed the overripe milk. Another showed the comparative results from milk containing 3.86 per cent. fat and 2.65 casein, and milk having 3.52 per cent. fat and 2.44 casin. The high testing milk made 4.64 lbs, more cheese per 1,000 lbs. of milk than the low testing for.

The same lesson was emphasized by prof. Harcourt in giving the results of

Prof. Harcourt in giving the results o other experiments. These showed a loss of a quarter of a pound of cheese per 100 lbs. of milk as a result of the lat ter being overripe

The strikers have rejected an offer of 25 per cent. increase in their wages

Pleaded Guilty to Three Charges Against Him in Police Court.

Made False Returns, Altered Entry and Took \$40,000.

Toronto, Ont., despatch: The prosecuion of W. R. Travers took a surprising turn to-day in the police court when the nanager suddenly pleaded guilty to three charges brought against him before any evidence had been heard. Travers, with Dewart, K. C., as his counsel, stood up before Magistrate Denison when his name was called. Three charges were made against him by Crown At torney Corley. First, that of making false returns to the Government, on the First, that of making condition of the Farmers Bank; second, altering an entry in the bank books concerning an advance to the Keeley mine; third, the theft of \$40,00. With startling swiftness the ex-manager plead ed guilty to the three charges.

After Travers had pleaded the Crown Attorney undertook to show the ground of the charges made. A book was pro duced showing an entry of \$50,000 advanced to the Keeley mine. Examination showed that this had been changed from an original entry, the figures of which could not be fixed. It was also shown that on a one-fith interest in the mine which the bank held with \$500,000. total of \$621,000 cash had been advanced, and that of this Travers had taken \$35 000 to himself. Minute b were shown where spaces had been left for additional entries after the signature of the manager had been affixed. An entry of this kind was shown. Travers was remanded for sentence till January 16. No bail was accepted.
