Do you think it safe to administer an annesthetie?" Dr. Todd felt her pulse and found it scarcely stirring, but the heart-beat was better, and he thought it safe to administer cher. Dr. Fletcher suggested that the girl would be better in a hospital, and, Dr. Todd concurring, she was sent to the Western Hospital, where sie died on Tuesday at about midnight, Dr. Todd went up to the hospital on Tuesday in the Washton Fletcher there. ### ROSEBERY TRUSTS LIBERAL MINISTRY.

LOOKS TO GOVERNMENT TO SAVE BRITAIN FROM SOCIALISM

The Country Warned That, Though Socialists Are a Minority, History Teaches That Revolutions Are Made by Minorities.

London, March 15.-Lord Rosebery furnished Great Britain a first-class oratorical firecracker last week. Some of his critics complain that by the of his critics compiant that by the omission from his speech at the annual meeting of the Liberal League of all reference to three such questions of the hour as the licensing, the education, and the olk-age pension bills he "added another extraordinary episode to the bewildering record of his unfathomable mystery."

the bewildering record of his unfathomable mystery."
But Lord Rosebery's utterances were more important than any specific examination of these measures could have been. With that unerring instinct which in the past frequently has enabled him to crystallize the sentiment of his fellow-countrymen, he on Thursday declared Socialism to be the end of all empire, faith, freedom, and property—a deadlablow to each and an of them.

No words have rung through Great Britain for years more loudly than these. In the view of the great major-ity of conservative Englishmen, Social-ism is the enemy. It had been called a phantom of evil, Lord Rosebery said, out, in his view, the word phantom

was not well chosen, because the evil was a reality.

"Socialists are in the minority," called out a member of the audience.

This gave Lord Rosebery a cue, which he took up at once.

"They are in a great minority," he said. "I hope they will always remain in a minority; but the lesson of history, written on every page, is that revolutions are not made up by the majority, but by the minority—an earnest and, if you like, a violent minority, but still a minority."

minority."

Lord Rosebery found no difficulty in pressing home this point with historical athusions.

His conclusions have caused some astronishment. To another the country.

His conclusions have caused some as-tonishment. To protect the country against Socialism, he looked, he said, to the present Liberal Government, which seemed to him to be an assembly of earnest, able and courageous men, in whose hawds the British foreign policy and the several services were safe; furthermore, they stood between the country and a great evil and a great

The Government on Friday justified Lord Rosebery's eulogies of the character of its members by rejecting the Socialist measure which imposed upon local authorities the obligation to find work for fall the registered unemployed, or, in case no work was available, to provide free maintenance for the unemployed and their dependents. This measure was aptly described as a "bill for the promotion of the greatest idleness of the greatest number."

The debate and division are held to mark the cleavage of Liberalism from Socialism. There were 116 who voted for the bill and 261 who voted against.
