Provincial Elections.

The Provincial Legislature has been dissolved and a general election has been ordered. Polling day will be Wednesday November 18th, and nomination day Wednesday 11th.

Candidates Nominated.

The candidates for the House of Commons in the three counties of this Province, were nominated at Charlottetown, Georgetown and Summerside, respectively, on Monday last, and are consequently now legally entitled to receive the votes of the electors on Monday next.

"Duty of the Hour."

We wish to warn our readers concerning a circular that our Liberal friends are distributing among the electors of this Province, with the object of arousing religious strife for political advantage.

this was only a reprint of one handed by their candidates and friends in the election of 1904. We are informed that no less than 6000 of "Duty of the Hour" have been ordered from the printing establishment of Mitchell Brothers, near the "Patriot stairs."

Mr. Borden's Meeting.

The Borden meeting in the market hall, in Charlottetown, last evening was a grand demonstration of honor and loyalty to the great leader of the Conservative party in Canada, Mr. R. L. Borden.

Before reaching Charlottetown, Mr. Borden addressed a monster public meeting at Murray River in the afternoon. The gathering so large that no building there could accommodate the people.

The special train conveying Mr. Borden and his friends did not reach Charlottetown till near 8 o'clock. At the station an immense crowd had assembled and the Leader received an ovation.

Duty and Responsibility.

This is the last opportunity we shall have of addressing our readers before election day. Before the HERALD is again issued the electors of Canada shall have decided which of the great political parties shall administer the public affairs of our country.

make of representatives on the 26th. The great Liberal Conservative party; the party of Sir John McDonald; the party that laid deep and solid the foundations of our country; the party now led by Robert Laird Borden, is the party of principle, the party of moderation, the party that has always safeguarded our rights, and that has always stood for Canada first, last and at all times.

It is unnecessary to dwell at this stage, at any great length, upon the reasons and arguments in favor of Mr. Borden and the Conservative party. The reasons have already been advanced pretty fully. From time to time we have pointed out how flagrantly Sir Wilfrid Laurier and the Liberal party have violated every pledge and broken every promise they made before coming into power.

A favorite cry with the Government supporters and the Government organs, is that in the event of a change Mr. Borden has not the material out of which to form a strong and stable Government. Nothing could be more insulting than this.

For these and the numerous other reasons, from time to time presented to our readers, let us hope, all true lovers of our great Canadian country, will go to the polls on Monday next, with a full determination to sweep from office and power the corrupt and extravagant Laurier administration and to put in its stead a clean, honest progressive Government, under the leadership of Mr. R. L. Borden.

Very Rev. Dr. Morrison, V. G., Verdon River, arrived home on Monday evening, from his European visit.

Waste and Jobbery.

Mr. Gladstone once in a public address at Edinburgh spoke as follows:—"No Chancellor of the Exchequer is worth his salt who makes his own popularity his first consideration at all in administering the public purse."

The very first plank in the platform laid down by Mr. Borden at Halifax is honest appropriation and expenditure of public moneys in the public interest.

The Liberal government at Ottawa do not subscribe to Mr. Gladstone's words. One or two concrete examples will serve to show that in spending the people's money they consider that they are trustees not for the people at large but for the Grit parasites that fatten on the iniquitous system of party graft which is to-day the greatest menace to the public welfare, and which constitutes the real issue before the electors today.

The audacious extravagance of the Marine Department is also shown in the purchase of flour in Quebec \$6.95 a barrel for a certain brand. The Civil Service Commissioners, Messrs Courtney, Fyche, and Bazin all Liberals report as follows:—"Your Commissioners took the trouble to inquire of the makers of the particular brand of flour in question at what price they were selling it in Quebec at the time of the purchase referred to, and were informed that the price was \$4.50 per barrel, at which price they would only have been too glad to sell to the Department."

Where is Their Report?

Mr. Charles Murphy, K. C. the new Secretary, is airily disposing of the charges of over classification on the G. T. P. But the investigation ended in a promise that the charges would be referred to arbitrators, and the latter have actually been out on the work.

Here are some of the charges on Section "F" Ontario. "I find that at many points on these divisions the classification is too liberal, while at some points it is excessive." In some cases, however, as between Canyon Lake and the Wabigoon River where the solid in some of the cuts had not been touched at the time I saw it, an amount of solid had been allowed that quite evidently was not based on the measurement of boulders found that would class as solid under the specification.

The Real Issue.

Sir Wilfrid Laurier has said, "In this election there is no great issue. We have done so well that the Opposition cannot raise an issue. We have done so well that this country has enjoyed continuous prosperity for twelve years. Let well enough alone, and let me finish my good work."

How does this differ from Mr. Laurier's claim that he should be returned in Bonaventure because in four years he secured from the public chest for expenditure in the riding \$125 per voter? Is not each the offer of a bribe? These considerations suggest two questions; (1) What do Sir Borden say on this point? (2) Where does the money go?

Some of it goes for the administration of justice a large part of it for civil government, including the Liberals support of the Department of Agriculture, Fisheries, Trade and Commerce, etc. some of it is expended for necessary public works.

been erected, and fruitless expeditions to the north have been fitted out. All these things have been done with the underlying motive of extending patronage to an inner ring of the government partisans.

Muzzling the Minority.

One of the most astonishing mistakes of the Laurier government was its adherence to Mr. Fielding's remark that "a minority has no rights except what the majority allows it." It was said in Sir Wilfrid Laurier's presence, and he did not repudiate it; and when it was again repeated he defended it. Taken by itself it would mark a decided departure from Liberal principles.

Those who recall Laurier's musket on the banks of the Saskatchewan will know now that his present principles would have precluded him from firing it, had his opponents appeared to have the majority.
