## The Parents' Book.

A book which answers children's  
questions.

The incessant "Why?" of the child-  
ren represents a desire for knowledge,  
a desire which should not be checked  
if the children are to grow up into  
intelligent men and women.

**THE PARENTS' BOOK**  
not only answers questions, but  
will enable the parent to grasp  
the opportunity which the child's  
caring questioning affords, of making  
use of its curiosity to enlarge its  
knowledge.

This book is a  
**CHILD EDUCATOR**  
in the truest sense; it draws out the  
youthful faculties.

**Simplicity the key-note.**  
A child can understand it.

Answers are given to thousands of  
questions; these include questions in  
every possible subject—  
Everyday Objects, Science,  
Manufacturing Processes,  
Machinery and Inventions,  
Nature Study, Biography, Geography,  
Travel, History, &c. &c.  
750 double column pages, illustrated;  
cloth cover. Price only \$1.15.

## An Appreciation.

Geo. D. Sanders, Esq.,  
Mechanical Supt.  
Grand Falls Mills.

Dear Sir:—As the time is fast draw-  
ing nigh when you shall be taking  
your departure from amongst us, I, on  
behalf of the employees of the shop,  
tender to you—with our sincere good  
wishes and God-speed—this little  
tribute of the esteem manifested by  
us all towards you. In you we had  
found a man worthy of esteem, and I  
vouch for myself and all your em-  
ployees that although you may not  
again return to Grand Falls to work  
amongst us, your memory shall be  
very dear to both one and all of us,  
and in "Memory's Grate" we shall  
ever keep a lag burning for you.  
(Sgd.) MICHAEL LEMBE,  
Grand Falls, Nfld., May 4, '13.

## Archimedes.

BY H. L. RAY.

Archimedes was a celebrated  
Grecian mathematician who be-  
came famous as the only person  
born considerably B.C. who  
could run up a column of figures  
without having to verify them  
on an adding machine. There  
were a great many people in Archimedes' time who  
could count up to ten after making a  
few false starts, but Archimedes was  
the only one who could walk up to  
the multiplication table and throw  
one leg across it in a familiar manner.  
Archimedes was a gloomy person  
who had been scalded in early life by  
the patent dandruff remover, an oc-  
currence which embittered his whole  
career and forced him to have his  
photograph taken with his hat on.  
Mr. Plutarch, who knew Archimedes  
well, says he was so bald that the  
Grecian housewife couldn't get any  
satisfactory foothold on him without  
strapping on a pair of climbing irons.  
On this account, Archimedes never  
wore a skull cap and exposed him-  
self with the utmost fearlessness.

The most celebrated thing that  
Archimedes ever did was to cry  
"Eureka!" several times in succession  
after taking a bath and finding that  
the water would run out of the tub  
if he sat down in it with sufficient  
ardor. This was something that no-  
body had ever thought of before, and  
is directly responsible for the inven-  
tion of the tiled bathroom floor and  
the plumbers' friend, "History relates  
that it was 1800 years before science  
discovered an easier way to let water  
out of a tub.

During the siege of Syracuse by the  
Romans, Archimedes invented a num-  
ber of deadly weapons, including the  
catapult, the pea shooter and the air  
gun, with which he repelled the in-  
vaders until the Grecian army ran out  
of coffee and tobacco, upon which it  
starved and died. Several of these  
weapons are still in use, in the form  
of the spit ball and the debates in  
the Congressional Record.

While Syracuse was surrendering,  
Archimedes was trying to decide  
whether 8 times 9 is 54 or 63, when  
he was interrupted by being stabbed  
with entire success by a coarse Roman  
private who had no interest in mathe-  
matics. It is probable that if Archi-  
medes had lived fifteen minutes longer  
he would have solved this problem,  
and thus prevented thousands of peo-  
ple from adding up the grocery bill  
on their fingers.

## Princess Helps Old Pensioner.

London, April 29.—In reviewing  
the Guards yesterday King George  
paid them a high tribute. He said:  
"I do indeed feel proud to be Col-  
onel-in-Chief of such a splendid body  
of men."

Accompanying the King were  
Queen Mary, Prince John, Princess  
Mary, the Duke of Connaught, Prince  
Arthur of Connaught, General Lord  
William Seymour, Lord Methuen and  
Earl Roberts.

There was a touching incident, dur-  
ing the review, when the Princess  
Royal went to the help of a Chelsea  
pensioner, bent and infirm with age  
and service.

The pensioner had great difficulty  
in getting on his coat, and the Prin-  
cess, seeing his difficulty, rose, and  
taking the garment, helped the old  
man.

## Won Gold Watch

A lady on the Southern Shore is the  
winner of a very beautiful gold watch  
from British Premium Co., Dept. 34,  
Montreal, Canada, for solving a puzzle  
published in "Canadian Extension." They  
guarantee to pay \$50 on return  
of same at end of three months on  
fulfilment of very easy conditions.  
There are many young folk who might  
like to win \$50 or a valuable watch  
this way.

Mr. Grace Standard from May 1 to  
end of year to any P. O. in Nfld., Lab-  
rador, or Canada for 50c. to other  
countries, add 35 cts.—may6.11

## The Placentia Bridge.

Editor Evening Telegram.

Dear Sir:—Since the opening of the  
Legislature, I have been scanning all  
the newspapers in the hope of seeing  
a determined effort made to get the  
long-sought-for bridge on Placentia  
Gut. It seems to me that the people  
here do not show their union and  
strength at the proper time, or in  
other words, when all should be united,  
very many stand back with a view  
to their own personal interests.  
We deem the bridge a dire neces-  
sity. One should live in Placentia  
some winter to see the risks that we  
take and only when some lives will  
be snuffed out, the necessity of the  
bridge will become apparent.

During the summer months we  
have a motor ferry, but as regards  
our freight we are not one jot better  
off to-day than twenty years ago. The  
cost to get our packages from the  
station to our homes on the town  
side is about double of the cost from  
St. John's to the station.

A rumor is current that the station  
is to be changed from its present  
site down to the water-side. This im-  
provement has been asked for many  
years, and should have been done  
before any branch railways were  
started. It is not even now in-  
terfering with the branch railways to  
get the R. N. Co. to make this change,  
which would save money for every  
individual of this town. We should,  
each and every one of us, take a de-  
termined stand, on the bridge ques-  
tion, forget our personal welfare,  
unite one a "hill" and demand this  
concession from the present Govern-  
ment. We were promised this bridge  
a few years ago by members of the  
present Government, on the public  
streets of the town.

Let us take no more promises and  
have the matter accomplished fast.  
We are spending enough of money on  
the present motor ferry to meet the  
interest on the loan required to build  
the bridge. Other bays are urging  
great improvements, and succeed in  
getting them. Bonavista Bay, in ad-  
dition to the new railway is now to  
receive thousands of dollars for a  
breakwater and thousands over and  
above the ordinary grants are to be  
spent there on roads. What have we  
got out of the present party? They  
tell us they gave us a fog signal that  
only benefits a few of us, and is more  
of a benefit to those in the bay, than  
to us.

We have the ferry and that is prac-  
tically all we have received from the  
Morris Government.

Surely they, at this age, when elec-  
tric power is even in savage lands,  
would not expect us to cross the Gut  
in the black punt, and I suppose they  
do not expect to be thanked for hav-  
ing conferred on us this favor.

We ask the present Morris party  
then to give us a brakwater in Plac-  
entia. It is as if, if not more, neces-  
sary than one in Bonavista Bay. Give  
us our bridges, give us our freight  
ferry. See that our water pipes are  
sunk low enough so as not to have  
them torn away by the ice. All these  
improvements we shall and must ob-  
tain, if we keep together united, for  
there is union in strength, and when  
ever a Government finds strength, it  
will grant requests if not from love  
at least from fear.

Yours truly,  
SOUTH-EAST-ARM.

## Chinamen Create Trouble

The shipwrecked Chinamen, who  
are now in the city awaiting to take  
passage by an Allan boat, are not a  
very quiet lot, or at least their be-  
haviour was not as it should be. Af-  
ter being paid off at the Shipping  
Office, this forenoon, some of the  
Chinks attempted to start a row at  
the entrance to the King's Wharf.  
Their conduct attracted the attention  
of a crowd of citizens. It appears  
that some of the Chinks owed their  
fellow shipmates small private  
amounts. The debtors refused to  
"square up" and in consequence the  
creditors wanted to "square up" with  
fists. Two of the gang divested them-  
selves of their clothing and made for  
their opponents. A serious row  
was barely averted by a few city  
Chinamen who were present.

## School Drawing Exhibition At Harbor Grace.

On Monday last, Coughlan Hall,  
Harbor Grace, was the scene of a  
gathering to witness the display of  
American and Newfoundland School  
Drawings, on exhibition there. A  
constant stream of visitors poured in  
all day until 10 p.m.; about 1200 visit-  
ed the hall. The exhibition proved  
a treat and all were charmed and sur-  
prised at the great progress made by  
our School Drawing Course. At 9  
p.m. the formal presentation of prizes  
won by the children took place.  
Rev. Canon Ned occupied the chair  
and was supported by Rev. T. B. Dar-  
by, B.A., Mr. Goodland, Principal of  
the C. E. High School and Professor  
Nichols. The chairman spoke of the  
comparisons to be drawn between the  
American school work and the local  
school work, and showed how teach-  
ers and scholars could learn valuable  
lessons by comparing the two for  
themselves. It was an excellent idea  
to show both side by side, and he felt  
that good must result.

He then called upon Prof. Nichols  
to address the meeting, and that gen-  
tleman gave valuable information as  
to this new feature in our educational  
work. He had been striving to create  
a love for drawing and to help on  
teachers to give it its due share of at-  
tention. Drawing was a necessary  
part of the education of our boys and  
girls, but unfortunately the teachers  
themselves, in many cases had never  
been taught to draw, nor to teach it  
to their scholars. For the past four  
or five years he had been trying to  
remedy this neglect and they were  
able for themselves to see that even-  
ing that the schools had made great  
progress. He had found great talent  
all over the country and it was the  
duty of the Government to develop  
that talent. He instanced many cases  
of boys of Newfoundland who had  
prospered wonderfully through their  
skill in drawing, taught in this coun-  
try, and more boys and girls should  
have the chance presented to them.

Rev. T. B. Darby, B.A., and Mr.  
Goodland moved and seconded re-  
spectively, a vote of thanks to Prof.  
Nichols for his labors.

The following prizes were then dis-  
tributed:

**Private Study**—Ernest Trapnel, 12,  
for Model Drawing; Honour Certifi-  
cate; Free Art Drawing.  
**Susie Parsons**, 12, C. E. High  
School, for Model Drawing.  
**Bessie Godden**, 12, for Model Draw-  
ing.

**W. Courage**, 10, for Model Drawing.  
**Gladys Murphy**, 16, Convent School,  
Harbor Grace, Honour Certificate;  
for advanced Freehand.

## One More Added To The Long List

OF WOMEN WHO OWE THEIR  
HEALTH TO DODD'S KIDNEY  
PILLS.

Mrs. John Cabot Recommends Dodd's  
Kidney Pills to All Who Suffer from  
Backache, Headache and Nervous-  
ness.

**WHITE HEAD PERCE**, Que., May  
5.—(Special)—As a remedy for wo-  
men Dodd's Kidney Pills hold an en-  
viable place in the estimation of the  
people of Quebec, and Mrs. John Cab-  
ot, a highly-respected lady living here,  
adds her name to the long list of  
those who stand ready to tell of the  
good work they are doing.

"My trouble," Mrs. Cabot states,  
"started from a cold, and I suffered  
for six years. I was greatly troubled with  
my back, and as time wore on neu-  
ralgia, rheumatism, and Bright's dis-  
ease added to my pains.

"I had dark circles under my eyes;  
I perspired freely with the slightest  
exertion, and my perspiration had an  
unpleasant odor.

"I could find nothing to relieve me  
till I started to use Dodd's Kidney  
Pills. I can heartily recommend  
Dodd's Kidney Pills to all who suffer  
from backache, headache, and ner-  
vousness."

Nearly all women's troubles are  
caused by diseased or disordered kid-  
neys. Dodd's Kidney Pills bring back  
youth to women by curing their kid-  
neys.

## War Minister Resigns.

Reported Result of the Divulged Ar-  
mament Scandals.

Berlin, April 25.—Deputy Matthias  
Enzberger, the leader of the Centre  
party, caused a sensation in the  
Reichstag by producing the figures to  
prove that the navy department pays  
Krupps just twice the amount it costs  
the concern to produce, and that  
Krupps profit is 50 per cent. higher  
than it need be if the Government  
had not given the concern a monop-  
oly.

General Von Heeringen, the War  
Minister, has tendered his resignation  
it is reported.

Minard's Liniment Cures Euphemia.

## STILL LEADING

For over thirty years we have been the  
Leading Tailors of the City, and we're still go-  
ing some.

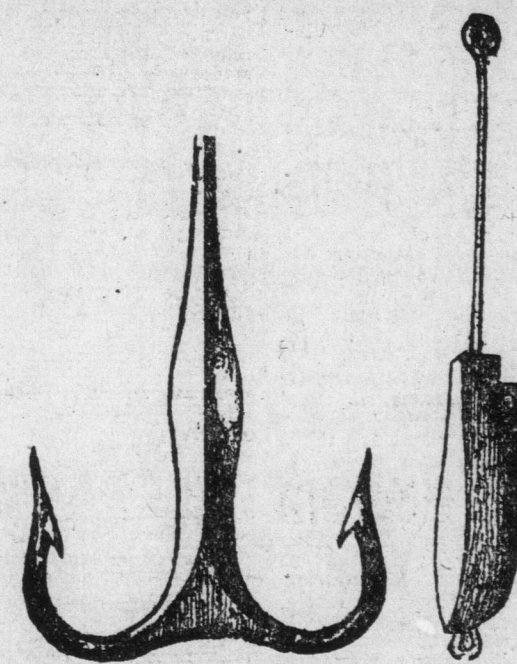

Just arrived, the Largest and Best selection
