

To Our Brave Sealers.

GENTLEMEN,—

In wishing you bumper trips and a safe return, we also take this opportunity to remind you we not only can supply you with comforts before you go to the icefields, but on your return your dividends will be well spent, if you make us your Headquarters on your arrival back.

Your well-wishers,

HARDWARE,
GROCERY,
DRY GOODS, etc.
PROVISIONS.

FRIDAY, Feb. 27, 1914.

A Sudden Sharp Shock.

The city has not yet recovered from the shock of surprise given the country by the Minister of Finance on Tuesday. It was generally expected that extra taxes would be placed on tobacco and alcoholic beverages. But nobody anticipated there would be a re-imposition of mititious tax per cent, nor that mill-men would be called upon to pay \$25,000 a year. No doubt there is justification for asking the \$17,000 a year off the Sulphur used at Grand Falls, but it was surely impolitic to do it in the same breath that put \$25,000 on the small mill-man, just above the fishermen mill-owners, with his cut of 10,000.

Yesterday we stated that the duty on cigars had been changed. That the new duties were \$10 a lb. This was according to the typed resolution supplied by the Minister to the members, but it appears that is an error. There is no change in the tax on cigars except the 10 per cent.

The Labrador Boundary.

In reply to a question of Mr. Lloyd, the Prime Minister said that in the matter of the Labrador boundary dispute, the Government of Newfoundland, through its solicitors, have offered Canada's representatives to refer the question as to what, as a matter of fact, is and has been the boundary between Newfoundland and Canada in Labrador, but the representatives of Canada will agree only to refer the question of what ought to be such boundary.

We consider the Government has taken the proper course. The issues raised by Canada should only be entertained if the Privy Council adjudge that there has not been and is not now a legal boundary between Quebec and Newfoundland Labrador.

CLEMENTINE FINISHED LOADING.—The brig Clementine, Capt. Parsons, has finished loading at A. Goodridge & Sons, and sails for Oporto to the first opportunity, taking 3,300 quintals of codfish.

Had Stormy Passage.

The s.s. Durango, Capt. Chambers, docked at 2.30 p.m. yesterday. As already stated in the Telegram, the ship was 19 days in the passage from Liverpool to this port, leaving there at 9 p.m. on the 7th inst. On the run across the ship met heavy westerly winds, during which she was heavily tossed about, and on last Friday morning shipped a heavy sea, which broke the cabin skylight and deluged the compartment. The steering gear was also put out of business by the heavy sea and the ship had to be headed eastward while repairs were being made. Running before the gale for twelve hours, she covered a distance that took three days to recover when again headed westward on Saturday last. At 4.30 a.m. Monday, when about 140 miles off this coast, the Durango ran into the ice, and after pushing her way for some hours, was forced to retreat, and running south of the Virginas made into Cape Race at 6.45 p.m. Wednesday. She hoisted for the night and at 4 a.m. yesterday started down the shore arriving here at 2.30 p.m. The Durango brought a large freight and a considerable mail, but no passengers.

McMURDO'S STORE NEWS.

FRIDAY, Feb. 27, 1914.

Pine Tree Lozenges are specially made to combat the effects upon the mucous membrane of the throat and the bronchial tubes of cold and of sudden changes of temperature. We know of no other lozenge so soothing and grateful in cases of throat cough, hoarseness and bronchial irritation and can fully recommend the min all such cases, as they do not upset the stomach nor, unless taken too frequently interfere with the appetite. Price 25c a box.

Sal Hepatica is in great favor for Rheumatic troubles, and is said to give wonderful results in some cases. It is an agreeable effervescent salt, quite pleasant to take. Price 30 cts. a bottle.

Cape Report.

Special to Evening Telegram.
CAPE RACE, To-day.
Wind W.N.W., light, weather fine, heavy slob ice has drifted off; the s.s. Almeriana did not get down yesterday as supposed, and was still in ice at dark, being then about 15 miles S.E.; no sign of her to-day. Bar., 29.70; ther. 12.

LOCAL ARRIVES.—The local from Carbonar, via Broad Cove, arrived in the city at 12.50 p.m. to-day.

Excellent Cakes and Pastry

JOHN B. AYRE.

The Government Lost.

Special to Evening Telegram.
LONDON, To-day.
Labor party has once again deprived the Government of a safe seat by forcing a triangular contest in Leith Burgs which in 1910 returned, Right Hon. R. C. Munroe, Ferguson, now Governor General of Australia by a majority of 1785, yesterday elected C. W. Currie, Unionist candidate by a majority of sixteen. The seat was undoubtedly regarded as safe for the Government until the last few days, when it became evident that recent industrial troubles at the local port, combined with the South African deportations were militating against the Government. The women's suffrage societies also supported Bill, the labor candidate, the successful Unionist candidate made Home Rule the chief issue, but as the labor candidate was like a liberal candidate Home Rule, the result can scarcely be claimed as a victory on the Irish issue. Nevertheless coming on the heels of the Bethnal Green and South Bucks elections, it strikes another severe blow at the Government in the early stage of a critical session.

Here and There.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c. oct20m.f

TO-NIGHT'S HOCKEY.—The Progressives and City teams will meet again to-night, play starting at 8.30. The line up of the Progressives will be the same as on Wednesday night, while the city team will be as follows: Goal, Hunt; Point, Herder; Cover, Parsons; Rover, Higgins; Centre, Winter; Right, L. Stick; Left, Hutchings. Boys will be admitted to-night for 10 cents.

A swindler now under indictment in the United States advertised "Throw away your glasses." Those who sent him five or ten dollars received in exchange a small box of tablets which the United States mail officials found could be manufactured for twenty-five cents per thousand. There is no medical, chemical or mechanical means of restoring to normal an eyeball which is irregular in shape for such is the condition in most cases when glasses are worn for constant use. Hypertropia, myopia, and the various forms of astigmatism are simply cases where the cornea, or clear front portion of the eyeball is not absolutely spherical, and there is no other known means of overcoming such defect excepting by adjusting glasses. It is to be hoped that none of our Newfoundland friends have been duped by the swindler referred to above. You are always safe in consulting R. H. TRAPNELL, Eye-sight Specialist St. John's, when your vision requires attention.—feb27, eod. ff

Star of the Sea Lecture.

Rev. Dr. Kitchin, of St. Joseph's, lectured on Napoleon last evening, in the Star Club Rooms, to a very appreciative audience of members and their lady friends. In introducing the lecturer, the Chairman, Mr. J. J. Lacey, commented upon the great work being done by the Rev. gentleman at the Parish of St. Joseph's, and as well intimated, that only for the sake of a formal custom, was any introduction necessary, as Dr. Kitchin's name as a lecturer was already very well known.

The Rev. gentleman then addressed the audience, and for an hour and a half dealt in a masterly manner with the great life of that hero of history—Napoleon Bonaparte. On the screen were pictured splendid photographs of scenes in Napoleon's life, including the Retreat from Moscow, crossing the Alps, receiving the Emperor's crown, a prisoner at St. Helena, his defeat at Waterloo and his death-bed, while in beautiful and classic language, Dr. Kitchin described the different scenes.

A vote of thanks moved by Mr. J. H. Farrell, and seconded by Mr. D. M. Dempsey was tendered in a few appropriate words by the Chairman, after which the President, Mr. E. M. Jackman and the Spiritual Director, Rev. Dr. Greene, addressed the gathering, and made stirring appeals to the rising young men of the day, to develop the literary taste more, and not waste too much precious time in amusements. A vote of thanks was also passed to Mr. Armstrong and Mr. Murphy, who attended to the lantern and contributed greatly to the success of the lecture, after which a song from Mr. Dugan terminated a very enjoyable evening.

HEALTHY AND UNHEALTHY LIGHTING.

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not vitalize, nor does it purify. Hear what three eminent men have said:—

"Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas in its premises, a first experience with the electric light.—Dr. Jamieson B. Hurry.

"He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Duffield, before the Society of Medical Officers of Health.

"I have in my mind's eye, at the moment, a hall which, in the old days was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the march of civilization, had its illumination changed from gas to electricity, the latter being employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—T. B. Lewis, Professor of Chemistry at the Royal Naval College, Greenwich.—nov8, ff

Hymeneal.

LEAMON—ENGLISH.

A quiet but pretty wedding was solemnized at 28 Dick's Square, on Thursday the 26th, Rev. Dr. Cowperthwaite officiating. The contracting parties were Miss Fredrica Allen English, daughter of Mr. Wm. English, Jeweller of the city, and Mr. James Henry Leamon of Richmond Hill, Brigus. The ceremony was attended by a large number of friends and relations. The bride was charmingly attired in cream embroidery voile with veil, carrying a bouquet of white carnations. The bridesmaid Miss Florence English (sister), was becomingly dressed, while little Miss Violet English in cream silk made a very pretty flower girl. The groom was supported by Mr. R. English, brother of the bride. The groom's presents were to the bride, a gold pendant with chain, set with emerald and pearls; to the bridesmaid a gold ring with ruby and pearl setting and to the 'lover girl' a gold ring. The bride and groom were the recipients of many valuable and useful presents and let for their future home (Brigus) by the excess. After the ceremony refreshments were served and a very pleasant evening was spent. Mr. and Mrs. J. H. Leamon leave St. John's with the best wishes for their future happiness from their many friends.

The Roost Charity.

We have received the sum of Five Dollars (\$5.00) towards this object, from a correspondent signing herself Mr. J. Kavanagh, of Kavanagh Grocery who has promised to see that anything sent will reach the right parties.
