Triangular Election Fight in Canada.

Conservatives, Liberals and Farmers Engaged in Political Hostilities--Thousands Drowned by Floods in China--Montreal Fish Wholesalers Formulating New Sales Plan--Five Entries in Gloucester Elimination Races.

CANADIAN ELECTIONS.

HALIFAX, Sept. 27. With the opening of Premier Arthur Meighen's campaign at Portage La Prairie, Manitoba, to-night, the Canadian political pot, simmering now for weeks, will begin to boil. Hon. W. L. McKenzie King, leader of the Liberal Party, is at present touring the Maritime Provinces in company of Ernest LaPointe, of Quebec; and Hon. T. A. Cresser, leader of the Agrarians, is about to begin his campaign. A bitterly fought three-cornered battle at the polls is anticipated. The National Liberal-Conservative Party supporting the Meighen Government is stressing the question of the tariff.

DISASTER IN CHINA.

SHANGHAI, Sept. 27. China's third great disaster within a year has been recorded in the Anhwei Province, where a large area has been flooded with a loss of thousands of lives, and property damage estimated at eighty millions.

FRESH FISH PRICE CUTTING.

MONTREAL, Sept. 27. A firm of Montreal wholesale fishermen are planning to do their own fishing off the eastern seaboard of the Dominion, and if their scheme materializes, their catch will be sold to the public here at a total charge of eight cents a pound, wholesalers, middlemen and retailers all being eliminated.

Do you discriminate at the dining table—or are you thoughtless?

In thousands of homes, a "line" is drawn at the breakfast table. Tea or coffee is served for "grown-ups" and Postum for children. But some parents do not discriminate. Tannin and caffeine, the injurious contents of tea and coffee, seriously retard the development of the delicate nerve tissues in children.

Consequently, instead of rich, satisfying Postum, children are overstimulated by the drugs in tea and coffee; and so may grow up irritable and nervous. Any doctor can tell you that this is a great evil and should be corrected.

Although some parents feel a certain justification for the personal indulgence in tea and coffee, yet the harm to them may be equally serious. It may take a little while longer for the drugs in tea and coffee to affect an older person, but in many cases the nervous system and allied bodily functions will become weakened. The surest way to avoid such possibilities is to quit tea and coffee entirely and drink Postum instead. The change permits you to get sound, restful sleep.

Postum is the well-known, meal-time beverage. Like thousands of others you will like it because, in flavor, it is delightful and satisfying. Do away with the distinction at the table. Serve delicious Postum, piping hot, to all the family. One week's trial and it is likely that you'll never return to tea and coffee.

Postum comes in two forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

**Postum for Health
There's a Reason**

cided to appeal to the Privy Council against the finding of the Board of Arbitration, declaring common and preferred stocks of the Grand Trunk Railway valueless. Eminent counsel will be engaged to prosecute the appeal.

ONE REASON.

WASHINGTON, Sept. 27. Aversion of labor to accepting work at reduced wages was assigned as the cause of unemployment, by R. F. Phelps, Director of Labor Statistics of the Massachusetts Labor Department, the first witness heard to-day by the National Unemployment Conference Committee on unemployment statistics.

RIOT VICTIM'S FUNERAL.

BELFAST, Sept. 27. The funeral of Murry McStocker, who was shot in the street fighting here on Saturday night, was the occasion for a monster Sinn Fein demonstration to-day.

HAZEL MINES ENTERS.

GLOUCESTER, Sept. 27. Schooner Hazel R. Hines was entered to-day for the elimination race to select a defender for the International Fishermen's Cup in the races off Halifax next month. Five entries have now been received for the elimination contest.

Oil as a Peril of the Sea.

The careless casting of oil into the sea from oil burning and oil carrying steamers is becoming a serious menace to the maritime and fishing industries of Great Britain and the United States. In England the danger to the fisheries from this source has been pointed out by Sir Arthur Shipley, Vice-Chancellor of the Board of Survey of the Board of Fire Underwriters has recently published a report on the fire hazard created by the accumulation of floating oil on the piles of piers and bulkheads in United States harbors. Costly fires arising in oil-coated structures along the waterfront have occurred in Baltimore, Mobile and Galveston, on the Atlantic seaboard, and at Seattle, on the Pacific.

Most serious, says the New York Herald, is the destruction of ocean fisheries which may result from the constant discharge into the Atlantic of the waste products of the oil used for fuel on so many steamers, large and small, in place of coal.

The food of fishes consists chiefly of minute marine animals found near the surface of the water. The waste oil thrown out upon the sea by steamers has a destructive effect upon these organisms, so that they lose their value as fish diet, and the fishes are thus deprived of their principal means of sustenance.

During the last three or four years it has been observed in England that some factor detrimental to fish life was at work in the North Sea; and Sir Arthur Shipley, who is a recognized expert in marine zoology, has recently proclaimed his belief that the fatal agent is oil discharged from oil burning steamers. On his last voyage home from the United States he noticed that even so well built a vessel as the mighty Olympic could not help leaking a little oil occasionally, and a very little oil can do an incredible amount of damage to the diminutive aquatic animals upon which fishes feed. "What ever boat carries oil," he says, "or uses oil as fuel is from time to time or all the time annihilating the face of the waters."

Confirmation of this view is found in the fatal effects of oil on seabirds observed last winter at various coast stations in Great Britain, where gulls, cormorants and seals were cast ashore dead with their feathers clogged with oil.

The remedy for the danger to the ocean fisheries which these warnings reveal would seem to be tolerably obvious. The practice of permitting oil to get into the sea should simply be stopped. The leakage of tankers can doubtless be prevented by sufficiently careful construction, and oil burning steamers can be built which will consume all of their oil instead of wastefully pouring some of it into the sea. These precautions may involve difficulty and expense, but it is worth a good deal of trouble to save the great fisheries of the Atlantic ocean from destruction or serious diminution in productivity. The substitution of oil for coal as a fuel for ocean steamers must not be allowed to destroy or lessen one of the great food supplies of the world.—Acadian Recorder.

Schr. "Canada"

First Entrant.

The first story for the Nova Scotia fishermen's schooner championship race, is that of the "Canada," of Le-Have, received at Halifax on Thursday, Sept. 22, says the Morning Chronicle by the Secretary, Mr. H. G. DeWolf.

The race is to take place off Halifax Saturday, October 15th, the money prizes being \$1,000, \$700 and \$500. Every vessel in the Nova Scotia fishing fleet is eligible, there being no restrictions as to length of water line, date of sailing for the Banks or other details.

The winner of this race, if eligible, will be the challenger for the International Trophy, won last year by the Esperanto of Gloucester, the series of races to be held off Halifax, commencing October 26th.

Why the Mayflower Was Eliminated.

Gloucester, Mass., Sept. 22. (Canadian Press).—A letter from the trustee received by the United States committee to-day gave officially for the first time the specific reasons for eliminating the Mayflower.

"It was the opinion of the trustees that if a vessel of the extreme type of the Mayflower was allowed to compete, the intentions of the donors of the cup would be nullified and all competition killed for present and future races, it was stated.

"We think everybody will agree that in event of the Mayflower racing and winning the cup this year, no practical fisherman would build a vessel to compete with her next year because to do so the type would have to be even more extreme in design.

"In addition to this the Mayflower did not conform with the letter of the deed of gift in regard to the date of sailing for the fishing grounds, although we did not consider this point so pertinent as the former."

The race committee to-day appointed a common five to take charge of the elimination race, October 12, to select a new defender.

Rural Route No. 1, Mascouche, Que. The Minard's Lintment People.

Sirs,—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago but they grew again till about three months ago I had one as large and shaped like a lady's thumb, on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your Lintment for another purpose and saw on the label good for tumors. Well I tried it and kept at it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON. P.S.—I am a farmer and intend using Minard's Lintment on a mare for a strained tendon, and am hoping for some results. FRED C. R.

Angle-Persian Oil Co.

SEARCHING IN NEW GUINEA.

SYDNEY, N.S.W. (Associated Press).—The search for oil which has been going on with meager results for years in the large island of Papua, has been extended to the portion known as German New Guinea, where, it is said, there are much better indications. This territory is now under Australian mandate. Experts of the Anglo-Persian Oil Company, which has an agreement with the Commonwealth by which each will share in the benefits of any discovery, are prospecting thoroughly. Several private parties also are in the field. Oil prospecting is being retarded, however, because the Australian government has not decided on a land policy for mandated territories.

THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my heart and in bowels and down my legs, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live and would fix my home in order every night there would be no trouble if I dropped off in the night. My husband went to the drugist to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and felt a lot better. I will always recommend the Vegetable Compound, and you can use these facts as a testimonial."—Mrs. J. O. CHURCH, Box 845, Smiths Falls, Ont.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down, dizziness, flatulency, indigestion and dysmenia. Lydia E. Pinkham's Vegetable Compound is the standard remedy for females.

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lowell, Mass.

Forty-Two Years in the Public Service—The Evening Telegram.

Notice!

The Board of Governors of the St. John's General Hospital beg to announce for the information of the General Public that final arrangements have been made for the collection of fees to be paid by all persons who occupy beds or undergo treatment at the General Hospital.

The scale of fees was advertised in December last as coming into effect on January 1st, 1921, but unforeseen circumstances prevented this from being carried out.

The following regulations, in accord with "An Act respecting the General Hospital," will be strictly enforced.

Under an Act respecting the General Hospital (6 George V., Cap. XIX.), and with the approval of the Governor in Council, the Board of Governors of the St. John's General Hospital give notice that they have fixed and prescribed the following scale of fees to be levied from and paid by all persons who occupy beds or undergo treatment at the Hospital. The scale is to come into operation on the 1st of October, 1921.

SCALE OF FEES.

Every person receiving treatment in the General Hospital shall, after the 30th day of September, 1921, pay fees according to the following scale:—

Persons admitted to the public wards \$1.00 per day. Persons occupying private rooms \$10.00 per week, in addition to the daily fee of \$1.00. Every applicant for admission to the Hospital must bring with him, or forward to the Superintendent of the Hospital, certificate signed by a duly registered physician that such applicant is a proper subject for Hospital treatment.

Under the provisions of the General Hospital Act, 1915, all patients who are unable to pay fees shall be required to bring with them a certificate of their inability to pay, which shall be signed by a resident Relieving Officer, or, where there is no such Officer, by a Justice of the Peace, a Clergyman or other responsible person. The fees of such patients thereupon become payable by the Commissioner of Public Charity, by virtue of the said Act.

By order of the Board,
GEORGE SHEA, Chairman.
W. H. RENNIE, Secretary.
