ROIL'S Appeal to Citizens!
 It is a recognized principle that Government derives its authority from Society of which it is Agent. During my canvass of the city it is deplorable to find that this principle is entirely lost sight of and there is substituted in its stead Narrow Secularism.
 The question of the religious persuasion of the church in which a Candidate worships, with many I regret to state is the deciding factor in their choice of candidates.
 Why this narrow, intolerant spirit should exist is difficult to understand, that it does exist is beyond question.
 When our soldier lads offered their lives for a principle, the question "which altar they bent their knees" was never raised; all went forth to do their duty.
 Is it not possible for us to emulate the spirit of those brave lads? We can if we will make up our minds to do it, but unfortunately many will not aim to this height.
 Government is to be either lasting or strong must be founded upon independence of mind and conduct among the people. If you desire the incoming Council to be representative of the independent mind and thought, the sectarian bias and religious intolerance must be buried.
 The Polling Booth is the place where the battle must be fought against this narrow sectarianism.
 Citizens, in casting your vote let you be animated by the principle that Government is instituted for the common benefit of all, irrespective of creed or class.
 In this contest I know not care not what a voter's creed is; I solicit his vote and support as a citizen and not as a member of any creed or church. You can aid the cause of good citizenship, and respect and toleration for all creeds and classes by voting for
