No Trace of Locatelli. The Italian Aviator.

Belgium Takes Preliminary Steps to Military Evacuation of Ruhr—Crew of Hudson Bay Steamer on the Ice off Point Barrow.

THE FIRST WORD.

WASHINGTON, Aug. 22. The first word to be received by the navy from any of its ships along the route of the world flight in the North Atlantic was a brief message that came this afternoon from the cruiser Richmond reporting that no word had been received from the Italian aviator. "No news of Locatelli," said the despatch. "Think fog after leaving the last station, ship 217 miles off Cape Farewell. To wait better weather."

NO WORD FROM LOCATELLI.

Aboard U.S.S. Cruiser Richmond on Patrol between Iceland and Greenland, Aug. 22.—Rear Admiral Thomas P. Magruder has ordered the United States cruisers Richmond and Raleigh and the destroyer Barry, to make a search east of Cape Farewell, Greenland, for Lieut. Locatelli, Italian aviator, who accompanied the United States round the world fliers. The search will be made by means of the planes carried by the cruisers for scouting purposes and will be continued indefinitely. Admiral Magruder is preparing to send out a general alarm if Locatelli is not found soon. It is believed by some of the officers of the Richmond that the Italian aviator may have proceeded to Triton instead of halting at Fredericksdal.

SCOUT PLANES FIND NO TRACE OF LOCATELLI.

REYKJAVIK, Aug. 22. Scout planes which were despatched from the American warships patrolling the North Atlantic to look for Lieut. Locatelli, Italian aviator, who left here with the American fliers yesterday, but failed to arrive at Fredericksdal, Greenland, were forced by dense fog to return this evening without having found any trace of the missing man. This was learned in a message received here tonight. Although very little news

from Greenland was received to-day it is believed here that there is no cause for alarm as to the fate of the Italian, who has not been heard from since he was sighted by the United States war vessels during the early stage of the American fliers' hop from Iceland to Greenland. Since yesterday it is understood that the weather off the Greenland coast has been good, the winds favorable and the sea smooth, and it is believed most likely that Lieut. Locatelli made a landing. The Gertrude Raak, which took up her station at Anngasalik, when it was expected the aviator would fly to that point, reported that she was clear of ice and that she expected to arrive here by Monday.

BELGIUM'S ECONOMIC EVACUATION.

BRUSSELS, Aug. 22. Belgium's economic evacuation of the Ruhr, which is a preliminary step to the military evacuation, began today, when M. Hannecart, head of the Belgian Technical Delegation left for Dusseldorf, charged with the task of liquidating all the Belgian civil services.

PRINCE LEAVES TO-DAY.

LONDON, Aug. 22. The Prince of Wales packed his trunks and bid goodbye to his cronies and with the exception of a few official matters to be attended to to-day, is ready to hand over his tickets to the purser of the Berengaria which will leave to-morrow from Southampton, to take him on his second visit to the United States. The Prince of Wales' trip this time will lack the exclusiveness of his first visit, which was made in a British man of war, for the capacity of the Berengaria has been packed by debutants who, for various reasons are cutting off their European trips to hurry homeward on this particular liner. These marriageable daughters will leave behind several hundred disappointed Ameri-

cans who have been turned away from the shipping offices in the last four or five weeks, since the liner's accommodation for seven hundred saloon passengers are all taken, and who constitute a long list of expectant ones awaiting possible last minute cancellations. Since the Berengaria arrived in port Tuesday a corps of plumbers, carpenters, painters, upholsterers have been busy redecorating the Imperial Suite which His Royal Highness will occupy. The suite, consisting of two bedrooms, saloon and breakfast room, now is in spotless white and gray chintz covered chairs and draperies, new furniture and fixtures, and other improvements including a tiled bathroom.

MAJESTIC STRIKES SAND BAR.

SOUTHAMPTON, Aug. 22. The giant steamer Majestic, inbound from New York, grounded on a sand bank at the entrance to Southampton water at low tide this afternoon, but was refloated with the aid of two tugs a short time afterwards and proceeded to Southampton.

McCOY'S CHOICE.

LOS ANGELES, Calif., Aug. 22. Death on the gallows or the living death of paralysis and total dementia to-day appeared to be all that was left for Kid McCoy, once dapper hero of the ring, charged with the murder of Mrs. Theresa W. Mors here on Aug. 12th.

CREW ON THE ICE.

VANCOUVER, B.C., Aug. 22. The officers and crew of the Hudson's Bay auxiliary steamer Lady Kinderley, are reported on the ice twenty miles northeast of Point Barrow, in the Arctic Ocean, and the American gas schooner Arctic is said to be a wreck five miles south of that point.

Our Dumb Animals

REPORT CHIEF AGENT S. P. A. WEEK ENDING AUG. 22nd.

I would like all butchers to remember that according to the law, no person under the age of sixteen shall be admitted or permitted to remain in any yard or enclosure where the slaughtering or cutting up of any animal is in progress and no animal shall be slaughtered within the sight or hearing of any animal awaiting to be slaughtered. Any person violating this law shall be liable to a fine of \$25.00. There have been several complaints lately about these matters and I have to see that the law will be followed out. I have warned several teamsters for trotting their horses with loads on. The lady who went away on her holidays and left the cat in the house states she did not know the cat was in the house when leaving, as she could not find it and is very sorry it should have happened. Three horses have been taken off the street for lameness. Quite a number of complaints have been attended to. I attended the landing of 22 head cattle from the Sable I, also 30 head cattle and some sheep, pigs and poultry from the S. S. Lisgar County. All carefully landed in good condition. Attended two sales of cattle and everything very satisfactory. The dog which was run over Wednesday night on Gover St. was brought by the motor driver to Dr. McNair. I received a phone message from the police to go down and look after it. I might say, there were no bones broken and the Dr. said it would come on alright. I tried to find the owner, but haven't yet succeeded in doing so. The license no. is 90 and registered at the Council's office as M. Hunt, Water Street, and if the person will call at Dr. McNair's, New Gover Street, he will get the dog. The horse that was reported last week belonging to Mr. Druken as been suffering from a wound in the leg has since perished. Dr. McNair believed it was shot with an exploding bullet from a rifle. Barbed wire fences are causing unnecessary cruelty to animals in pasture. Barbed wire is not used now by farmers on account of cuts animals get in knocking up against fences and the rusty bars causing blood poisoning. I ask all those interested in animals to pick up rusty nails off the streets and throw them out of harms way.

Meigle's Passengers

S.S. Meigle arrived from Labrador yesterday at 12.30 p.m., bringing four carloads freight and the following passengers:—Mr. J. Moore, Mrs. Moore and three children, Mrs. F. Moore, Miss C. McEldan, Mrs. Ford, D. Duff, A. Love, B. M. Shipman, Miss J. O'Connell, B. A. Brazie, R. Dalton, W. B. Cabot, Major Montcrieff, J. Campagnon, Miss Martin and one second class. The Meigle sails for the North on Tuesday next at 10 a.m.

MINARD'S LINIMENT RELIEVES NEURALGIA.

C. L. B. Cadets

A Small attendance again this week. Only seventy-four on duty. Many of our lovers of athletics were over to see the five mile race at St. Bon's Campus. The Lieut. Col. was on duty with Major Herbert Outerbridge, M.I.E. Brigade Major Williams, Capt. A. S. Lewis, P. E. Rendell, and Harold Hayward and Lieutenants Eric Jarrett, Orderly Officer and W. R. Motter. Several Officers on leave duty in the Armoury last night had the honour of meeting Captain A. E. Nash formerly Captain of A. Company and who commanded that unit in the celebrated battle of Waterford Bridge. All ranks were glad to see one of the pioneer officers of Brigade work in Newfoundland visit the Headquarters of his old regiment. Capt. Nash did yeoman work for the Brigade, particularly in the days of the "King's Road Armoury," now Parsons garage. Joining the Brigade then he was a tower of strength bringing to the Brigade his military training and experience gained in the Governor General's Foot Guards of Ottawa. Captain Nash is looking young and Father Time has gently dealt with him all the years. He left here in 1901 and has been living the past ten years in Halifax and is associated with the Bank of Montreal and is now visiting Newfoundland on inspection duties. He expressed himself as more than pleased with the present quarters of the Brigade and said his old Regiment had made splendid progress since the days he held a commission when Sir Joseph Outerbridge was Officer Commanding and Surgeon Major Herbert Rendell, the late Doctor Fred Stabb, late Canon Cartwright and Major Powry-Keck, Lt.-Col. W. H. Franklin, Captain N. Snow, and others were doing duty. The present Brigade Major Williams was then Lieut. and Paymaster. We were glad to hear from Old Comrade William J. Groves Jr., of St. John N.B. this week enclosing photographs of H. M. S. Calcutta and H. M. S. Constance at the pier there. He hopes to influence the organization of a C.L.B. Company through the assistance of the Rector of Trinity Church. He sends hearty greetings to the best in doing his best to maintain the old motto, "Fight the Good Fight." Captain Lewis Cashier of the 8th Saving Bank Department reports on 31st July with 169 accounts and \$3522.30 on deposit. Four percent interest is paid and every lad is asked to open a Saving Bank account with the C. L. B. Bank and receive thrift.

WHY YOU SHOULD BRING YOUR FILMS TO US FOR DEVELOPMENT

Because nowhere else in town are such enormous quantities of film developed, or such rapid and perfect results obtained. These facts are due to the efficient service we offer our customers, and to the expert care with which each individual roll is handled.

YOUR FILMS NEED DEVELOPING!

Then let us have them right away, and within 24 hours you can have the negatives, and finished prints again.

Our up-to-date method of developing and printing guarantees the best possible results from your films. Therefore—for speedy, successful service use
