

The British Budget.

In the House of Commons on Thursday evening Hon. Robt. Lowe, Chancellor of the Exchequer, submitted the annual Budget, in the explanation of which he said:—"The Ministry proposed to deal separately with general expenditure and that for the war. The estimates made by the Hon. Geo. W. Hunt, his predecessor in office, were £73,000,000, while the receipts were £72,500,000, leaving a deficit of £500,000, which had to be met this year. He (Mr. Lowe) estimated the expenditure of the present fiscal year at £83,500,000, showing a reduction of £2,250,000 from the estimated expenditure of last year, which was gained chiefly in the Admiralty and War Offices. He estimated the revenue of the present fiscal year at £73,000,000, or an excess over last year of £500,000; so, if the Abyssinian war were not to be provided for, the surplus would be £4,500,000. The whole expense of the Abyssinian war was £9,000,000, of which £7,000,000 were expended in India. The country had still £4,000,000 of this amount to pay. The surplus of the present year would just balance the Abyssinian war and the general deficit. Under the circumstances, said the Chancellor of the Exchequer, it is desirable to raise a further sum by taxation. He proposed to collect the assessed taxes by means of excise licenses granted at the commencement of each year on a return to be furnished by the taxpayer. The income tax is to be collected in the same manner. By these measures £3,250,000 will be brought into the financial year, in addition to the amount heretofore collected. Out of this amount he proposed a reduction of a penny upon the income tax; to repeal the import duty on corn, and the fire insurance duty, and to rearrange several smaller items. This will give a decrease of £3,000,000, and will leave nearly £500,000 clear surplus.

AN AMERICAN LORD.

The American papers record the death of a Peer of Great Britain, who was a native of the United States. Charles Snowden Fairfax was the recognized tenth Baron Fairfax, of Cameron, Scotland, and was entitled to a seat in the House of Lords had he chosen to claim it, and now allegiance to the Sovereign. He belonged to a family descended from the famous Parliamentary General, Lord Fairfax, who settled in the early part of last century in Virginia, where they possessed immense estates between the Potomac and the Rappahannock. His grandfather, the Rev. Bryan Fairfax, was confirmed by the House of Lords in 1800 as the eighth baron, but neither he, nor son, nor his grandson, the deceased, assumed the title, preferring to remain in their American home. The family patrimony, consisting originally of several million acres, was frittered away, as such estates are likely to be in this country, where no law of entail exists, and the last Baron found himself of age with very few of the paternal acres remaining. Instead of turning to England, where possibly he might have taken a seat below the woolsack, he went to California, entered upon the practice of the law, and became a busy man of briefs and oodicia. He took an active part in politics, and last year formed part of a delegation from that distant State to the Democratic national convention in New York. He leaves no children, and the title, as an American paper says, with a turn of expression which savors of anything but republicanism, passes to a younger brother.—Leader.

THE FUR TRADE FOR 1868.—The exportation of furs, &c., by the Hudson's Bay Company from York Fort, the Mackenzie River, Moose River, and Canada, is as follows:—Badger, 1,722; bear, 4,970; beaver, 118,982; fisher, 5,667; fox (silver), 1,225; fox (cross), 4,656; fox (red), 17,120; fox (white), 11,707; fox (kitt), 6,624; lynx, 50,578; marten, 59,873; mink, 61,484; musquash, 351,731; otter, 20,977; porpoise, 238; rabbit, 45,914; racoon, 219; hair seal, 1,877; skunk, 6,520; swan, 517; wolf, 8,621; wolverine, 1,105; castoreum, 3,198 lbs.; isinglass, 3,727 lbs., bad feathers, 11,598 lbs.; walrus teeth, 84 lbs.; goose and swan quill, m. 522; oil, 71 tons; deer tongues, 300. Besides the above, a large quantity is sent from Columbia river.

SECESSION TO ROME.—After a long secret attachment, the notorious curate of Atherton, the Rev. Edward Husband, has declared his affection for the Church of Rome, and entered into visible union with her. The Protestants of Atherton and of the Church of England will not regret, except for Mr. Husband's own sake, this step, the logical consequence of the teaching of Ritualism. It is understood that an address will shortly be published by the newly pledged convert, stating his reasons for his secession.—The Rock.

EARTHQUAKE SHOCK AT VIENNA.—Between eight and nine o'clock on Friday morning, a slight shock of earthquake was felt at Vienna, Ont., and for a number of miles around. It was accompanied by a rumbling noise such as would follow an explosion of a steam boiler. The direction of the noise and shock appears to have been almost directly north and south; duration from fifteen to twenty seconds. Parties living in the vicinity say their houses and barns shook perceptibly.

A veteran toper has been reading a series of articles on liquor adulteration in New York—the analysis of the liquor showing an average of about sixty-five parts of water to thirty-five parts of spirits. "They don't give the spirit its fair chance," said the aged bacchanal; "they'll keep on fooling with water till it depopulates the earth again."

The Berlin Telegraph hopes for the credit of the Combination Government, that there is no truth in the rumor that they intend to move the Deaf and Dumb Institution from Hamilton. If they do, it will be a most disgraceful proceeding.

Mr. James Anthony Froude, the celebrated English historian, was, on the 19th of March, installed Lord Rector of the University of St. Andrew's Scotland, and delivered a very interesting and eloquent address on the occasion.

HOTEL ARRIVALS.

DYSPEPSIA.

There is no disease which experience has so fully proved to be remediable by the PERUVIAN SYRUP.

(A protected solution of the Protoxide of Iron, as Dyspepsia.) The most inveterate forms of this disease have been completely cured by this medicine, as ample testimony of some of our first citizens proves.

From the venerable Archdeacon Scott, D. D. Danham, C. E.—I am an inveterate Dyspeptic of more than 25 years standing. I have been so wonderfully benefited in three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. Persons who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me.

Another physician writes as follows:—My patient, who has been indefinitely postponed, I have discovered the "Fountain of Health" on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the fangs of the fiend Dyspepsia.

A pamphlet of 32 pages containing a history of this remarkable remedy, with a treatise on "Iron as a medicine," will be sent free to any address. The genuine has "Peruvian Syrup" blown in the glass. J. P. DINSMORE, Proprietor, 36 Dey Street, New York. Apr 2—4w
