-Mr. J. H. Glass, of 881 Dundas street, is suffering painfully from a mysterious poisoning of the right hand, contracted while gardening the other night. The hand has swelled enormously and has had to be lanced more than once. As a result, Mr. Glass has been since unable to handle his correspondence and will not be fit for duty for a few days yet.

-The sleeping car New Mexico became derailed at the Richmond street crossing of the Grand Trunk about noon today, and almost two hours were occupied in replacing it. The car was being shunted on to the eastbound express and was hauled a considerable distance by the yard engine after it left the rails. Ties were badly torn, some side tracks demolished and a switch damaged. The sleeper was also injured.

-The "Advertiser" today paid duty on electrotypes from the States at an enormous rate. Twelve electros, measuring 24 square inches each, made a total of 288 square inches. The duty is 2 cents per square inch, making the total tax \$5 76. The value of the electros would probably be between \$2 and \$3, and at the old rate of 20 per cent the duty would have been about 60 cents. The present taxation is about 250 per cent.

-The first sitting of the weekly high court for London since the summer va-cation was held before Chief Justice Armour this morning. In Cornwell vs. Steer Mr. W. H. Bartram made an appeal to set aside an order of Judge Edward Elliott for security of costs in the case of a legacy. Wilson, contra. Appeal dismissed with costs. A motion by Mr. Geo. C. Gibbons for costs in re the Masonic Mutual was postponed for week owing to the absence of Dr. Hunter, registrar of friendly socities.

-Our Bishop Baldwin has been preaching in Montreal to vast crowds. Of him the Star says: "Standing room was at a premium in Christ Church Cathedral last evening, a large congregation having assembled to hear the Bishop of Huron, the Right Rev. Dr. Baldwin. The nave, aisles, transepts aud lower chancel were completely filled, and many were forced to turn away, not being able to secure seats. Bishop Baldwin has lost none of his oldtime magnetic eloquence. For over an hour last evening he held the rapt attention of his hearers, moving them by the force of his arguments and graphic illustration." London first!

-An Ingersoll dispatch says: Thos. Fenton, aged 35, of Banner, went to London on Saturday to have a lump sentenced yesterday a removed from his neck and died while undergoing the operation. About ten years ago, while working at a thresh-ing machine, Mr. Fenton's neck was cut, leaving a lump which gradually grew, and for about a year he has been troubled with it. A few days ago it began to get worse, and he was informed by his doctor that unless an operation was performed he would only ive a few days. The funeral took place today from his late residence at Banner and was attended by Court Marquis of Lorne, A. O. F., of Ingersoll, of which the deceased was a member. His mother and brother, William Fenton, reside in Ingersolf. Mrs. M. T. Buchanan is a sister of deceased.

-Speaking of the appointment of Mr. J. A. Dickinson, of Stratford, to the London Collegiate Institute, the Stratford Herald says: "It seems to be part of Stratford's luck to keep a good staff of collegiate teachers for London to grab. Mr. Dickinson is the second teacher whom London within a very short period has decoyed from Stratford." The Beacon says: "Mr. Dickinson came here from Guelph in January, 1891, and assumed the position of commercial master. He has been highly successful in his profession, and the trustees will experience some difficulty in getting a man capable of filling his position. Throughout the city, and especially in connection with the Central Methodist Church, the departing teacher will be greatly missed. He is a worker in the Sabbath school and a member of the choir. His friends will be pleased to know that the change in Mr. Dickinson's position carries with it an increase in salary of \$100."

FREE LIBRARY OPENING. The new Free Library will be open for reading purposes in less than a month, arrangements having been made to secure a complete supply of magazines and the best periodicals. It will be New Years, however, before books may be secured by the public though the Mechanics' Institute vol-umes may be read on the premises

much sooner. The work of cataloguing is long and laborious. THE EARLY CLOSING MOVEMENT. The Early Closing Association of London, which has for its object the earlier closing of stores on Saturday nights, met yesterday at the Y. M. C. A. rooms, President Walker in the chair. An influential delegation from the Grocers' Association was present. The responsibility for the late closing rests not with the merchants, but with purchasers. Two lines of action are being taken. Endeavor will be made to have all employers pay employes on some day other than Saturday, as many now do; also to induce all who sympathize with clerks, salesladies and delivery men (who now sometimes work till midnight) to make their purchases earlier.

FOUR FAMOUS TENORS. Never has an opera company traveled through the United States with as com-

plete and perfect a list of great male artists as Chas. H. Pratt has engaged for the Tayary Opera Company this year, which appears at the Grand Saturday night next. Chev. Albert L. Guille, the famous French tenor; Payne Clark, the greatest English tenor on the operatic stage; F. Michelena, the idealic and handsome lyric tenor; Max Eugene, the grand English baritone; Signor Abramhoff, the basso profundo, from the Royal Opera House, Berlin, and the Metropolitan, New York; C. Wm. Schuster, the fine-looking basso cantanta—is it any wonder society is all agog to hear and see these great artists from the world of poetry and song. It is hoped Manager Pratt will recent illness, caused by eating canned be able to carry his sextette of artists salmon. She has been removed home. Her away with him heartfree from this

deep regret that, owing to insomnia and nervous prostration, it would be utterly impossible for him to take part in the demonstration at Massey Hall. The committee received this intelligence with sincere sympathy for Mr Blake, and expressed exceeding regret that the thousands who had hoped to to meet him on the evening of the 30th should be grievously disappointed. This disappointment would be all the greater from the fact that the committee had every assurance, from the universal interest manifested in the preparations, that the reception would be an unqualified success. The committee expressed an earnest hope that a temporary and much-needed rest and change would restore Mr. Blake to his usual health, and render him again able to resume the work in which his splendid talents and indomitable energy have done so much to ensure suc-

ANOTHER RECORD BROKEN By the New York Central-Fastest Time

Ever Made. Syracuse, N. Y., Sept. 24.—The New York Central has again broken the record for fast time. This morning a special consisting of three coaches and drawn by No. 999 left Albany at 6 o'clock and arrived here at 8:12, thus making the run of 148 miles in 132 min-utes. This beats the world's record for this distance.

BUSH FIRES IN QUEBEC. Athabasca Station, Que., Sept. 24.— Extensive bush fires raged all day yesterday in the vicinity of Brault's Mill and Aston. At Brault's Mill eight or nine houses, the mill and three loaded cars were burned. At Aston a number of houses have been consumed. Telegraph wires being down, make it hard
