PEACH YELLOWS.

Four Years of investigation by the Agricultural Department in Vain.

Washington, July 25.—The Agricultural Department has just issued a builetin on the subject of peach yellows, prepared by Special Agent Erwin F. Smith. It embodies the results of four years' experiments with fertilizers to determine their value as preventives and cures of the disease. The experiments were made in the Middle States, and Dr. Smith says he is satisfied that peach yellows cannot be prevented of the earlier of the worst part of the city. The mission is situated in the very lose and a few devoted Christians have stood by McMillan and helped and encouraged him all they could, and many missers have locked kindly in upon the work and lent him a hand at times, yet it is notorious that the practical encourage for the first has been gathered it will add largely to the profitableness of the plant can be successfully extracted after the fruit has been gathered it will add largely to the profitableness of the pineapple industry.
