Special Advantages of the Helios Arc Lamp.

The advantages of the Helios Are Lamp come under two heads, the first of which comprises the qualities of the lamp itself, and the second the new business and enlarged field that it enables a station to sccure. A DOCTOR'S EXPRESSION.

A physician practicing in the Lower Provinces writes as follows: "I find that mothers have much to learn in regard to infant dieting and feeding. Many mothers exhibit great ignorance when spoken to on this important subject. Some use a diet of bread and milk, flour porridge and common artificial foods that are unfitted for the digestive strength of romping boys and girls. I have taken particular pains to prescribe and advise the use of Lectated Food fee young infants who cannot be fed from a healthy breast. I find it gives the very best results when used for very punjinfants. I wish you unbounded success while you are engaged in the manufacture of Lactated Food."

To prove the great superfority of Lactated Food over all other makes in the world, the makers will be pleased to send a full-sized package free to any mother who has not given it a trial. Send full name and address to Well's & Richardson Company, 200 Mountain street, Montreal.
