Grocott, the man charged with stealing from W. J. Reid's, was brought up this morning before Magistrate Love, and elected to be tried by his worship. To the three charges, two or stealing from W. J. Reid and one from Reid Bros., the prisoner pleaded guilty. His counsel, Mr. Mc-Evoy, said that the prisoner would have an explanation to make. The case was adjourned for another week. John Archer Powell, who was also convicted of stealing chinaware from the same firm, was asked by the magistrate if he had anything to say. He stood up, a tall young man, with head bowed, and answered "No." Deputy Crown Attorney McKillop said he would not ask for a sentence under the circumstances and the mediatrots. the circumstances, and the magistrate told him that it was no excuse for him that he was the dupe of others. At the same time he saw that the prisoner was repentant and in view of this and of his youth he would allow him to go on suspended sentence. Another young man was reprimanded

in this morning's police court. He was charged with being drunk and disorderly. He had also used threatening language to the police, a serious offense; but this charge the police would not press. His worship, however, could not overlook the charge of the prisoner being disorderly, even if he did that of being drunk, and imposed Chicago, Jan. 26.

While admitting that his brother had some exciting times fighting the Boers, he says that in the awful disaster at Wanstead there was crowded into a few minutes sufficient excitement to last him the balance of his days. Mr. Baker was on his way to Point Edward, where he was employed as a machinist, when the accident occurred. He relates an interesting incident which illustrates afresh the freak-ishness of fate. He had spent Christ-mas with his parents and had decided left for their home at Young's Point, to return to Point Edward on the near Peterboro. Those expected to leave within a few days are Mrs. Stewart, of Oshkosh, Wis., her two little sons, Earl and Hobart, and Mr. Frank Baker, son of Mr. Charles E.

NEW TELEGRAPH OFFICES OPENED ON GRAND TRUNK

Have Been Closed Since New Management Took Charge.

Changes Made in Local Offices-Freight Cars Damaged.

HE growth of trafline of the Grand Suspension Bridge has been so heavy of late that Supt.

Jones has ordered the opening of telegraph offices, day and night, at Waubuno, Paton's Siding, Governor's Road and Dumfries. These offices were closed when the new management assumed control of the road, but their reop-ening has been found absolutely necessary to facilitate the handling of the greatly-increased number of trains. A night operator has also been stationed at Hyde Park, and another may be tunnel and Wyoming.

SLIGHT DAMAGE. By the breaking of a freight train

at Junction Cut, near Hamilton, yes-terday, five cars were slightly damaged, although none of them left the rails. It appears that the engineer of the train received the signal that the freight had broken loose, and instead of proceeding applied the brakes, bringing the front section to a stop. Some cars in the center of the train, which was moving slowly at the time fic on the main of the accident, had to be taken back to Hamilton. No delay to traffic was caused, the line being double-tracked Trunk, between between Hamilton and Toronto.

His work on the east end will be taken by Mr. William Wilson, who is succeeded on the night shift by Mr. Arnold, formerly of Rutland, Vermont.

GENERAL SUPERINTENDENT. The Pere Marquette Railway has issued a circular, announcing that General Manager Woollatt of the L. E. and D. R. R. has been appointed placed at Mandaumin, between the general superintendent of the latter tunnel and Wyoming.

COLONEL LYNCH NOT IN DANGER

Boer Sympathizer Not Likely To Be Hanged for High Treason.

London, Jan. 26 .- It is now generally conceded that the sentence passed upon Col. Arthur Lynch, who was found guilty of high treason on Friday last, will be commuted to penal servitude for life, subject to further consideration after a term of years.

Another dispatch says: The conviction of Col. Lynch is made the subject of diffuse dissertations in the press on the relations of loyalty and treason. The discussion is as artificial as the court proceedings were perfunctory. The Galway electors are responsible for

the prosecution of Lynch.

While treason has not been made odious in South Africa, it was impossible to condone it when Col. Lynch was elected to Parliament solely because he fought on the side of the Boers. A record has been made in the Lynch case, and Galway will be invited to elect a member untainted with treason. The commutation of the death sentence is a foregone conclusion.

ALLEGED INSULT TO SOUTH

Southern Congressmen Indignant at White House Reception.

Washington, Jan. 26.—Some indignant interviews with southern representatives in Congress are being sent to southern newspapers expressing their opinion of the President's course in having some colored men and women at the White House reception on Thursday night.

Those present by invitation were John C. Dancy, registrar of deeds of the District of Columbia; Judson Lyon, registrar of the treasury, and three or four others of the treasury, and three or four others

of the treasury, and three or four others and their wives.

It is explained that all the men are federal officeholders of some rank, and that they were invited according to custom because of positions they occupy in the Government service rather than on account of their personality.

The indignant southerners declare the President had sought to force social equality of the races by inviting the colored people, and that it was a personal insult to them, the southerners.

Mr. Allen drew attention to the fact that although such places as Owen Sound, Wiarton, Southampton and Kincardine were tributary points to London, unfair discrimination is made in favor of Hamilton and Toronto shippers. If fairly treated there would be a considerable advantage to London in freight rates. Another instance is that of Windsor. Although it is 116 miles nearer London than is Toronto, there is only a difference in London's favor of
