Establishes New High Record CITY RETAILERS REPORT in Early Hours of Trading.

Reported for The Advertiser by Johnston & Ward. Montreal, April 4.—The outstanding feature in the first two hours' trading on the Montreal Stock Extrading on the Montreal Stock Exchange in today's session was provided by Penman's common, which established a new high record price at 153½. This compares an opening and low of 147 yesterday. The only explanation offered for the sudden rise is that a group of speculators were particularly anxious to add to their holdings, and as the floating supply is limited, the price had to be supply is limited, the price had to be up to dislodge a reasonable amount of stock. The other textile issues displayed firmness and moderate activity, with Canadian Cottons at 133%; Canada Cottons preferred 90%, and Dominion Textile 70%.
