

## RESCUED TO DEATH.

habue, a 'Longshoreman, Falls into the Water from the Turner-Beeton Wharf.

led in the Effort to Save Him From a Watery Grave.

night, as the usual crowd which had gathered to witness the landing of the steamer was still lingering on the wharf, a loud cry for help came from the vicinity of the Turner-Beeton wharf.

number hastened in that direction and on the advance discovered the form of a struggling man in the water, the surface of which at that stage of the tide about feet below the string piece of the wharf.

gentlemen, Mr. Jones and Mr. Mc-Donough, who had been on the wharf, hastily procured a rope, upon which was a noose, and threw it to him. He was lowered and was pulled up by a rope under the nose of the ship, and was then pulled up by a rope under the nose of the ship, and was then pulled up by a rope under the nose of the ship.

struggling man was raised nearly to the surface of the water, and was then lowered and was pulled up by a rope under the nose of the ship, and was then pulled up by a rope under the nose of the ship.

horror of the crowd it was discovered that the rope was still around his neck, and he was lowered and was pulled up by a rope under the nose of the ship, and was then pulled up by a rope under the nose of the ship.

in the effort to save him from a watery grave, a rope was thrown to him, and he was lowered and was pulled up by a rope under the nose of the ship, and was then pulled up by a rope under the nose of the ship.

## THE CITY.

The Transfer Refused.

The notice of application for a private bill by the company proposing to connect the four cities of the province by telephone appeared in the B.C. Gazette yesterday.

For the World's Fair.

One of the largest and most interesting ones brought from the North in recent years reached Victoria yesterday. It is a collection in Chicago, where it will find a place at the great fair.

Joined in Marriage.

At 297 Johnson street, on Wednesday evening, Mr. Fred S. Plover and Miss Mary Roberts were joined in marriage by Rev. Dr. Campbell, of the First Presbyterian church. The ceremony was witnessed by a select party of invited friends.

Seek Incorporation.

During the approaching session of the Legislature the Church of England Synod of Westminister, the Vancouver Y.M.C.A., and the Masonic Lodges of Victoria, will all seek incorporation. The formal notice appeared in the Gazette for the first time yesterday.

For the Little Ones.

A Christmas treat for the Sunday school children of the Reformed Episcopal church will be provided on the evening of January 2nd, which will be a well-filled treat, and a musical programme, and refreshments in abundance.

Belgian Consul.

Realizing the constantly growing importance of Victoria as a commercial center, the Belgian government have decided upon the appointment of a resident consul in this city. Yesterday Mr. Thomas E. Smith received official notification of his appointment to the honorable position.

Still Missing.

Cheung Sun, the Celestial who was in trouble with the Highlanders a short time ago and has since then disappeared, continues missing. His friends this time can get no tidings of him, and it is not known whether or not he shares in the honors of the festival now in progress—the feast of the dead.

In Aid of the School Funds.

In Victoria West hall, last evening, a first class concert was given in aid of the school funds. The principal contributors to the programme were the Messrs. Nicholson, Miss Penwell, Mr. Gough, Mr. Roberts, Mr. Chambers, Mr. Pover, Mr. Miller, and Mr. Hamilton. Gunners Davies, McNeill, Miller and Smythe, of "C" Battery, made up the cast for the closing number, a farce entitled "Our New Man."

Social at St. John's.

In St. John's school, on Herald street, the Ladies' Guild last evening treated their friends to a very pleasant social, the second of the winter series. A number of pretty stereoscopic views were shown, refreshments were served, and a musical bill of fare of just the right length and considerable merit followed. Mrs. Mesher's whistling solo proved as pleasing as unique, and in their duet (voiced) Mrs. Peters and Mrs. Creighton, of Cedar Hill, well merited applause. They were followed by a recitation to the musical talent of the city.

Berge-Brewster.

Rev. P. H. Berge-Brewster, of the Emmanuel Baptist church, was called upon on Wednesday evening to perform the ceremony which made Miss Kate J. Brewster, daughter of Mr. Charles Brewster of 106 North Cambrian street, the bride of Mr. Thomas Berge. The wedding was celebrated at the home of the bride's parents, her sister, Miss Mary Brewster, supporting her, while Mr. W. J. Berge acted as best man. Mr. W. J. Berge will remain in the city of Victoria, taking possession in a few weeks of their new residence which is now building on Frances avenue.

W. C. T. U. Work.

The regular weekly meeting of the W. C. T. U. was held at the Refuge home, Commodore street, yesterday, when a committee composed of the following ladies was appointed to operate a winter bazaar: The Y. M. C. A. in holding the New Year's reception: Mrs. Spafford, Mrs. Shakespear, Mrs. Hall and Mrs. W. Grant. The question of supporting a city bazaar was discussed at some length, it being decided to leave the matter as it stands until the next meeting, which will not be held until after Christmas. In the meantime an effort will be made to secure a suitable woman for the position.

Dr. Mills in London.

"The Right Rev. Bishop Hills, who has lately resigned the See of British Columbia, arrived in England. The bishop was appointed to the vast Diocese of British Columbia in 1889, which has since been subdivided into the three bishoprics of Columbia, New Westminster and Caledonia. He is the senior in consecration of all the colonial bishops. The appointment of his successor has been delegated by the synod of the diocese to the Archbishop of Canterbury. It is reported that the Right Rev. Bishop Hills be addressed to 3 Portchester place, Oxford-Square, W." The Times, London.

Coal in San Francisco.

J. W. Harrison writes as follows in reference to the San Francisco coal market: "Although the receipts of Australian coal during the past thirty days have been less than 8,000 tons, and the total quantity to arrive within the next sixty days does not exceed 16,000 tons, still the market has met with no improvement as far as prices are concerned. It is true that there is no scarcity of Australian grades here in stock, but it is an assured fact that three months from now the quantity in the yards will be small and certainly less than our requirements will call for. With the scarcity of coal and the full rates demanded, special strengthen values. An advance in the prices of our coast products seems to be generally expected. Quotations for steam coal will probably remain as they are at present."

Their First Bazaar.

The first annual bazaar in connection with the new Episcopal church of St. Mark's was held yesterday, followed by a concert in the evening which was enjoyed by a large audience, including many friends from the city. The many articles of taste and beauty which the ladies have had in preparation for many months found ready purchasers from the time the sale was declared open by Ven. Archbishop Scriver in the afternoon until the close of the entertainment in the evening. The results were not obtainable last night, but they will be made up in the morning.

## THE ROYAL COMMISSION.

A Long Session Held Yesterday and Much Evidence and Information Produced.

Dr. Ernest Hall and His Worship Mayor Beaton on the Stand—About Anti-Vaccination.

The Royal Commission on Epidemic Diseases held another session yesterday. The evidence of Mr. Wm. Greig, the anti-vaccination exponent, was taken; Dr. Ernest Hall explained his connection with various smallpox cases, and His Worship Mayor Beaton made an extended statement as to what he and the Board of Aldermen had done during the outbreak. The last witness called was Mr. Allan Cameron, who told about the medical examination of the C. P. R. steamships, so far as he knew of it. He corrected some of Dr. Macnaughton Jones' statements, or rather he differed in opinion from the doctor.

Mr. Greig was the first witness called when the commission opened. He continued his evidence until the time for the examination into reports, communications, statistics and arguments to support his side of the case. For the most part the testimony was interesting, but some of it was unimportant, especially the part relating to the examination continued until luncheon.

After the adjournment Dr. Ernest Hall was called to state his connection with the smallpox cases. His first trial, this year, he said, was that of Miss Bull. The next two were in the Refuge home. The case of Fred Wright he also recalled, and identified the certificate he had given to procure his admission to the Jubilee hospital. This was on July 11, and the same day, when the man presented the admission card to Dr. Richardson at the Jubilee hospital, he was sent to the Jubilee quarantine as a smallpox patient. Dr. Hall said he had seen the man since, and was of opinion he had not had smallpox at all. Witnesses also gave particulars of the Smith case, where he had pronounced the disease smallpox, but the acting health officer, Dr. Watt, did not agree, and the house was not quarantined. Witnesses also remembered cases which, having been sent to the St. James' hospital, afterwards turned out to be smallpox; but he did not wish to go into particulars or make any statement unless he was specially asked. He was not asked.

Mr. Greig was then recalled and concluded his voluminous evidence. Mayor Beaton then went into the box and explained in a concise statement what had been done by the city authorities under his direction. He reviewed a number of facts in connection with the outbreak, that have been published already. The argument he adduced was that the civil authorities had done all in their power to stamp out the disease. His Worship said that when the Jubilee hospital directors and Dr. Davis had superseded Dr. Richardson in charge of the quarantine hospital, he (the Mayor) had felt that due consideration had not been shown; but as there was a good deal to be done he did not complain. Regarding the charge that the city had not supplied food for the Ross Bay suspect station, His Worship produced an auditor's return showing that the cost of maintenance for food alone had been 75 cents per head per day, and thought this was enough. There had been no refusal of supplies, but the rule was made that all orders should come through the chairman of the Board of Health, who was the man chosen to deal with the question of funds, and it would not do to let everyone order goods for the city, as had been done. No doubt, he said, nothing was ordered that was not absolutely necessary, as the representatives of the people, had a right to see that the money was spent properly.

Mr. Allan Cameron, agent of the C. P. R., was called to state what he remembered as to the inspection of the C. P. R. steamers. He gave the time occupied by Dr. Macnaughton Jones as between one-half and three-quarters of an hour.

This was opposed to Dr. Jones' evidence, and in order to ascertain more correctly the time employed, Mr. Shears, Custom House appraiser, will be called to the stand. The commission opens at 11 o'clock. There are a number of witnesses yet to be examined, and the chances are the work will occupy more than to-day and to-morrow.

## LITTLE JACK IS FOUND.

A Long Lost Man, Whose Name Was Unknown, at Last Turns Up.

Proceedings of Yesterday's Session of the Royal Commission—Inspector Bailey Examined.

A mysterious something, which has been a source of anxiety to the Royal Commission on Epidemic Diseases, has at last been cleared up, a long sought for name (and its owner, too) has been discovered, and the mountain which has been in labor has brought forth a mouse.

It all came about in this way. The first case of smallpox this year in Victoria was that of a man who was described as a deck hand on the steamer Yosemite running to Vancouver from here. Dr. Milne told about the case, but could not give the name, though he was sure Mr. Bailey would know it. Dr. Macnaughton Jones also knew about the case, but he, too, was in ignorance of the man's name. Mayor Beaton, who was also in the dock, said he thought he would be able to get the much desired "handle" from Mr. Bailey, but when the Sanitary Inspector was placed in the box the commissioners' hopes were again rudely dashed. He did not know and would not be able to find out.

The commission adjourned for luncheon. Before the afternoon session began, Sir Matthew Ballie Begbie announced that the lost had been found. A discovery had been made, and the right man had been dispatched to bring the first patient, who was a sailor known as "Little Jack."

The Court had scarce finished its observations when the "right man" turned up with a witness, who gave his name as Far-rar. He detailed the circumstances of his being taken sick in May, and on the 26th he was sent out to the Albert Head quarantine station, where he remained until the latter part of June, but the date he could not fix accurately. As there appeared to be evidence or reason to suspect that the first case had been the source of infection of the June outbreak, the commissioners had been anxious to get the evidence of the

## LITTLE JACK IS FOUND.

A Long Lost Man, Whose Name Was Unknown, at Last Turns Up.

Proceedings of Yesterday's Session of the Royal Commission—Inspector Bailey Examined.

A mysterious something, which has been a source of anxiety to the Royal Commission on Epidemic Diseases, has at last been cleared up, a long sought for name (and its owner, too) has been discovered, and the mountain which has been in labor has brought forth a mouse.

It all came about in this way. The first case of smallpox this year in Victoria was that of a man who was described as a deck hand on the steamer Yosemite running to Vancouver from here. Dr. Milne told about the case, but could not give the name, though he was sure Mr. Bailey would know it. Dr. Macnaughton Jones also knew about the case, but he, too, was in ignorance of the man's name. Mayor Beaton, who was also in the dock, said he thought he would be able to get the much desired "handle" from Mr. Bailey, but when the Sanitary Inspector was placed in the box the commissioners' hopes were again rudely dashed. He did not know and would not be able to find out.

The commission adjourned for luncheon. Before the afternoon session began, Sir Matthew Ballie Begbie announced that the lost had been found. A discovery had been made, and the right man had been dispatched to bring the first patient, who was a sailor known as "Little Jack."

The Court had scarce finished its observations when the "right man" turned up with a witness, who gave his name as Far-rar. He detailed the circumstances of his being taken sick in May, and on the 26th he was sent out to the Albert Head quarantine station, where he remained until the latter part of June, but the date he could not fix accurately. As there appeared to be evidence or reason to suspect that the first case had been the source of infection of the June outbreak, the commissioners had been anxious to get the evidence of the

patient himself, but his story did not seem to bear out the theory. Among other witnesses who were examined during the day was a sailor who was placed on duty and moved, disinfection and fumigation, etc. There was such a scare during the outbreak, Mr. Bailey said, that he had to work 183 hours a day running here and there and all over, looking up reported cases of smallpox, but had found very many reports were false. Mr. Bailey did not, he said, know of a number of cases of smallpox which were taken from public lodging houses which were afterwards not quarantined; he did not know if guards had been placed on these places, in fact if they had been he would probably have known of it, as it was his duty and practice to hire all the guards. As to the fumigation of infected premises all he knew was that Mr. Jones was engaged to do the work. When the wagons were engaged to take smallpox patients away, the drivers were told that they must not move anything else, but they might, he said, about town for all that. He (Mr. Bailey) had not had time to see if the wagons were properly disinfected, but he had furnished the drivers with a list of smallpox patients, and he had never gone into a house where there was smallpox, and did not consider this a part of his duty as a sanitary officer. The presence of the city, he said, from a sanitary point of view, was not all that could be desired, but considerable improvement was being made, and in the course of a short time the city would be a much better place than it is now.

Mr. Wm. Jones, proprietor of the Clarence hotel, was called. He said the first case of smallpox which he saw was in the Clarence hotel, on Thursday, July 7. The house had not been quarantined until the following Saturday at noon. Dr. Milne was notified by witness on Thursday, and the patient removed to the Albert Head station.

Mr. W. Shears, customs appraiser, also gave evidence during the morning session as to the length of time taken by Dr. Macnaughton Jones to examine the Chinese passengers on the Empress. He fixed the time as not more than an hour.

The commission will meet again to-day at 10 o'clock, and will probably adjourn early to enable Mr. Prager to take the afternoon train for Nanaimo. Another session will be held next week, if convenient, to conclude the business. There are yet some of the witnesses to be heard and some documents to be put in.

## THE KOOTENAY COUNTRY.

What a Practical Prospector Has to Say About It.

Mr. J. Hepburn is again in town. For the past three years he has been managing the Victoria Hydraulic Mining company, and has been in the Kootenay country, where he has been working for some time. He has been in the Kootenay country, where he has been working for some time. He has been in the Kootenay country, where he has been working for some time.
