NEW SYSTEM FOR TOTAL FIGURES

Order-in-Council Signed by Lieutenant-Governor Into Effect on December

March will compile the number of the 31st of December next the Province of Quebec will be provided with an up-to-date system of collecting vital statistics, an order-in-council putting in force a new law to that effect having been signed to-day by the Lieutenant-Governor.

In the past through some defects in the provisions of the law the Province of Quebec was the only one in the Dominion which was not fully organized to keep an up-to-date record of births marriages and deaths. To meet the requirements a law a-Quebec, Nov. 15—Effective from mending the Quebec Public Health Act was passed at the last session, which will allow the figures to be available at short notice and will place the province in such a position

that it will figure with other provinces in the Federal statistics and may be in position to answer any argument there may be in this connection.

According to the new law the Director of the Provincial Bureau of Health every year before the 1st of March will compile the number of births, marriages, deaths as well as causes of death based on information received from any person entrusted with the registration required under the Civil Code which must be transmitted to him in the first fifteen days of each month for preceding month.

Provision is made in the law that, though there will be a census of the illegitimate birth, the name of the father and mother will not be inscribed.

Regarding the authority given to those in charge of registration to prepare such reports the law says:

"For statistical purposes only, the Director of the Provincial Bureau of Health shall appoint, for each municipality and also for each unorganized territory, a collector of vital statistics, and solely for statistical purposes, every birth, marriage or death which has not been duly registered with a person authorized by the Civil Code to keep registers of civil status shall, within eight days following such birth, marriage or death, be declared to said collector of statistics, who shall then fill in, or cause to be filled in, one of the forms as the case may be.

During the first fifteen days of each month, every collector of statistics shall forward to the Director of the Provincial Bureau of Health the forms filled in during the previous month, including the certificates of death sent to him.

If there are no forms or certificates to be forwarded, the collector shall report same to the Director."

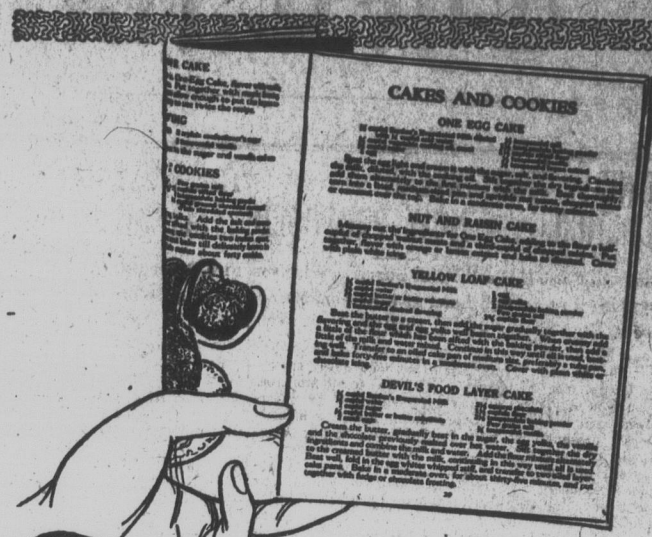

For Roman Catholics the father and mother have to give information to the priest in cases of birth and the consorts in case of marriages. In case of death the attending physician has to give a report on a special form.

In the case of non-Roman Catholics every physician, nurse, or father or mother must give information.

NO FOREIGNERS IN LOWER CALIFORNIA

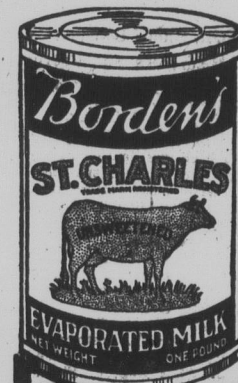

Mexicali, Lower Calif., Nov. 18.—Colonization of Lower California (Mexico), by Japanese or any other foreigners is declared impossible under the existing laws of Mexico in a bulletin made public here by Governor Abelardo Rodriguez, of the Northern District of Lower California.

The bulletin, which detests the denial or recent reports of a congreter portion of its space to a Lower California, quotes the Secretary of Exterior Relations at Mexico City to the effect that Mexican Federal law prevents the colonization of foreigners either near the sea coast or the border.

Tested Recipes—Send for the St. Charles Book—Free!

"Let the Maritime Provinces Flourish by Their Industries." BORDEN FACTORY-TRURO, N.S.

When you're tired of the same old dishes it's refreshing to prepare something different—a soup, a creamed vegetable, a salad dressing, a cake that will be a pleasing change.
