NOTICE

Mr. Sanction will call upon the members of this paper during the month of December, and we most earnestly ask that each one called upon will do what they can for us. We are owing for the material &c. which we have been using during the summer and the parties want and must have their pay. A great many of our subscribers are far in arrears, and we hope that if they are not at home themselves when we call, that they will leave some part, if not all of what they owe us, with their wives for us to obtain when called for. All who can do so, will greatly oblige by coming to our office, and paying without giving us the trouble and expense of calling upon them.

Gold, 1893

The notorious Theodore Tilton is lecturing in the Upper Provinces. General Grant has delivered his last opening message to Congress. The Russian Mediterranean squadron is to winter in American waters. The French Chamber of Deputies have rejected a bill increasing the stipends of priests. President MacMahon contributed 3000 francs in aid of sufferers by fire at St. Hyacinth, Canada. Within a few days six or seven prisoners have escaped from the jail in Yarmouth. Again we hear of large numbers of French Canadian farm laborers emigrating to the States. The unveiling of Horace Greeley's monument will take place in New York on the 4th of December.

COURT CASES

Judge Savary will open his first judicial term in this County on Tuesday next. A couple aged respectively 13 and 14 years, eloped and were married at St. Ann's Church, Ottawa, recently. Dr. Tupper has purchased a residence in Toronto for \$20,000 and will reside there. Léon has an embargo on the St. John, N. B., river navigation on Thursday last. Life is a stormy and dangerous voyage. The vessel we start in—the cradle of childhood's first rock. A evening establishment at Astoria, Oregon, made 450 head of cattle in nine months during the month of September.

DARK SEASON

There is less day (in proportion to the number of days) in December than in any other month of the year. A despatch from Constantinople says that by a inundation at Adrianople, thousands of houses have been swept away. Some Hood. Mr. John E. Longmire, of Young's Cove, brought into this market last week, a 16 months old hog weighing 500 lbs.

According to the London "Times"

The House of Commons probably never had fewer young men of greater capacity than at present. The barque Albatross, Capt. Banks, of this port, has arrived at Queenstown, from San Francisco, after a passage of 168 days. Last week a burglar broke into the cellar of Mrs. Charles Handolph (widow) of this town, and carried away about 150 lbs. of fresh-killed pork. It is reported that a still further reduction of ten per cent. in wages of employees on the Grand Trunk Railway took place on the last inst.

It is stated, that Mr. Clements

(Mark Twain) has recently shown melancholy symptoms of threatened insanity. The up-grade tendency of business matters in the principal trade-centres of the United States, betokens the return of renewed prosperity. The Summerside Journal says that several gentlemen of that town went to St. John for the express purpose of hearing the Rev. Henry Ward Beecher lecture. Eighty thousand dollars in diamonds and ten tons of specie formed the precious cargo of a steamship that arrived at New York from Hamburg a few days ago. One man in New York City has over \$200,000 deposited in his hands by election betters, and it is good to see how anxiously and carefully a hundred men follow him around to see that he doesn't fall into the North River.

The "Jewish Chronicle"

takes pleasure in denying that Miss Hannah de Rothschild is to marry the Earl of Roseberry, and adds: "We are glad that the young lady does not propose to act incoherently and against the traditions of her fathers."

Another of Brigham Young's wives

has succumbed. She is a Mrs. Thomas of Ogden, Utah, and she succumbed to divorce and alimony. This too much wedded Mormon Prophet, in the "sere and yellow" period of his life, is being forsaken by the consoling comforters of his better days. He has still, however, a few spouses left to comfort him in his old age.

Small pox is exceedingly prevalent

in both Montreal and Quebec. In the former city there is a superstitious aversion to vaccination as a preventive to this terrible disease. The jury summoned to try the parties suspected of robbing the Bank of Nova Scotia, have disagreed upon a verdict. Ten were for acquittal and two for conviction of both the prisoners. The Buenos Ayres wool season promises to be the best ever known in the Plata, giving a surplus of 20,000 bales over last year's wool clip. The wheat crop promises to be large. A story is floating about in the papers to the effect that a large organization of beggars exist in New York, presided over by a woman and having a treasurer and a secretary, the latter being a beautiful mulatto girl.

Fire at Bear River

On Tuesday night the 30th ult., the mill belonging to Mr. Joshua Peck, situated on Mink Brook, Bear River, was destroyed by fire. Fire caught from edging pile. Digby Courier.

ACCIDENT

On the 6th inst. as Mr. Robert Gates of New Albany was on his way to assist his son in setting another trap, he trod on a skid, slipped and fell across the steel trap, breaking his thigh. The Archbishop of Canterbury says that in the last forty years \$150,000,000 has been spent by members of the Church of England in the restoration of old churches and on the building of new ones. George Cook, of Ansonia, Connecticut, before going out to play, put some parlor matches and powder in his trousers pocket. Then he fell down, the matches ignited, the powder flashed, his clothes blazed, and his life was saved with difficulty.

While in Middleport last week

we got our friends Besnonet & Wilson, of the Hardware and Carriage Stock Emporium, a call, and were shown their extensive establishment. Their stock is large and varied in its assortment, embracing every known requisite in the Hardware and Carriage Stock trade. Parties who require goods in their line would do well to give them a call before purchasing elsewhere, as we feel confident they offer special inducements. Read their advertisement in to-day's issue.

ENGINEERING ON GRIFFITHS' ESAMELINO PAINT

It is worth while calling special attention to the Paint, manufactured by Mr. T. Griffiths, of 24, Fenwick Street, Liverpool, for it has been so thoroughly tested and its value proved. Drying quicker with a hard glazed surface, it partakes rather of the nature of enamel than of paint, and it finds many applications for which ordinary paint is not in the least adapted. It is, moreover, cheap, and a long experience has shown it to be very durable. It should be mentioned that it has found a large application in painting ships, and that the Board of Works, the Indian, and several Foreign Governments employ it. H. FRAZER, Bridgetown, N. S. is agent for Maritime Provinces.

ANAPOLIS, Nov. 15, 1876.

Messrs. McCARTHY & COOK, St. John, N. B. Dear Sirs—We were much pleased with the Burdett Organ when it came, and are growing to like it more and more as we use it. We have seen a great many organs of different manufactures, but have never seen one that can compare with the one we have, in tone and easiness of action. Our organ has kept in perfect order and all who hear it, pronounce it the best organ they ever saw. Quite a number of travellers from the States who have seen the Burdett there, say that it is looked to be the best organ made.

Very truly yours,

JOHN MCKAY, Proprietor of Temperance Hotel. A Manchester contemporary states that the proposal for deepening the Irwell and Mersey rivers up as far as Manchester is acquiring increased interest in the minds of some of the leading capitalists in Manchester, and that every effort will be made in the forthcoming session to obtain the necessary statutory powers in order that the plans prepared by Mr. Hamilton Fulton, the engineer, may be carried out as expeditiously as possible.

EUROPE.

Special Dispatches to the Morning Chronicle. LONDON, Dec. 1.—The Standard's money article to-day says: "We understand the banks have raised the selling price of American eagles a half-penny per ounce. It is not expected this will check the exportation of this description of gold to any appreciable extent." The statement of the Bank of England shows a decrease in specie for the week of £1,000,000. J. P. Foster, metal merchant, Birmingham, has failed; liabilities £475,000. The Moscow Gazette says a fund is being subscribed there for the purchase in America of letters of marque to be employed against English merchant shipping in the event of war between England and Russia. Similar subscriptions are opened in other Russian towns.

The foreign settlement in Yedo, Japan, has been partially destroyed by fire. LONDON, Dec. 1.—A despatch from Berlin says an order in preparation calling out all Russians under fifty years of age is regarded as proof that the government is preparing for contingencies and has deprecated the St. Petersburg Bourse. In Santander, Spain, a great fire is raging to-day. The cathedral is threatened. LONDON, Dec. 4.—A terrific gale has prevailed throughout the British Isles since Saturday. Floods in many places caused much damage. Numerous disasters to shipping on the coast are reported with considerable loss of life. The Turkish fleet, high and a disastrous overflow is feared. The freight steamer Prince, foundered in the storm, and all on board, fourteen in number, were lost.

Russia and Turkey are preparing for war with terrible earnestness. The mobilized Russian regiments are being successfully sent South. During the latter half of December 250,000 men will be on the Pruth ready to cross. Military hospitals have been formed, capable of receiving 62,000 men. Russia has ordered twenty million cartridges in the United States. The Turks are erecting formidable fortifications at the mouth of the Danube and Schoumla. The Porte has sent a circular reply to Prince Gortschakoff not favorable to peace. The Turks are pushing forward their new constitution, although they are attempting to anticipate the conference. Mr. Schuyler, the American Consul General, has returned from Bulgaria. He reports the condition of the people improving. The political situation in the Government ones are working well and rendering great assistance to the inhabitants. Twenty-five thousand Russian troops have been massed along the south bank of the Pruth. The Porte promises to respect the neutrality of Roumania.

UNITED STATES.

New York, Dec. 2.—By a serious fire in New Orleans yesterday, 112 dwellings were consumed, and hundreds of people rendered homeless; the loss is estimated at \$400,000. Twenty firemen were injured. The suit of the Government against H. B. Clifton & Co., to recover \$1,500,000 due on an embargoed gold, is decided against the firm. Nathaniel J. Bradley has received the Republican nomination for Mayor of Boston. The schooner Mary Richards, of St. John, N. B., put into Nantucket to-day. She had been in collision, and lost mainmast and her sails badly. The political troubles in South Carolina remain unsettled. The official result in Louisiana will be given next Tuesday.
