

General News.

Madras, Jan. 7.—It is officially stated that 400 persons were burned to death in the incendiary fire which destroyed the reserved enclosure in the People's park last week.

Sydney, N. S. W., Jan. 7.—Four of the young men condemned to death recently for outrageous assault upon a street girl were hanged here yesterday. The two others were reprieved.

Toronto, Jan. 8.—A new conservative organ to replace the *Mail* will be established almost immediately. There are rumors of the removal of an influential journalist to Toronto from another city.

San Francisco, Jan. 8.—Archdeacon Plunkett, of this city, has been appointed bishop of Saskatchewan. The archdeacon is a native of St. John's, Nfld., and has been for many years of the church in the west and will make a very aggressive bishop.

Winipeg, Jan. 8.—The Liberator of Liverpool, in an article on the House of Commons, has taken exception to the fact that the House of Commons is a three-cornered fight with Mr. Gladstone and Mr. W. E. Gladstone, the present member.

London, Jan. 10.—The reduction of the British army in Egypt was begun today, when eight troops were ordered to leave. By April three hundred and sixty-four will have been withdrawn, leaving a total of five thousand still in Egypt.

Our Own People.—At Mill Branch, Kent Co., every man and woman except one was converted at the New Scotland. The solitary sinner is a woman who keeps the missionary spirit alive among the Christians.—*Chatham Herald.*

Fredericton, Jan. 10.—The preliminary examination of Allen Ballentyne, the youth who shot Mrs. Lawson at Lake George last week began today. No new facts were elicited. The enquiry will continue tomorrow.

—There are we are informed, to be started in Toronto, New Scotland, a kindergarten. We wish them success. If New Scotland's success is as great as that of the kindergarten, the latter will be a great success.

As a result of the epidemic of diphtheria in the city of New Scotland, the health authorities have decided to close all public places, except churches, for a period of two weeks.

—The board of health for the district of Cow Bay, C. B., has decided to close all public places, except churches, for a period of two weeks.

Terrible Railway Disaster.

Tiffin, O., Jan. 4.—A fast train on the Baltimore and Ohio railroad at an early hour this morning collided with an east-bound freight train near this city, wrecking both trains. Nineteen bodies have been taken from the wreck; many more are feared. Three coaches were destroyed. Physicians have gone to the scene from here.

A special to the *Cleveland Leader* gives the following details of the disaster:

At 1 o'clock an east-bound freight train, in charge of Conductor Fletcher, pulled out of this city, having received orders to take the freight siding to allow the east-bound express to pass. After the freight train had gone the conductor being without special orders, exercised his own judgment and determined that, inasmuch as he had half an hour to make the switch at Republic, a little less than five miles distant, before the arrival of the fast express from the east, due at that point at 2 o'clock, he pulled out.

The night was dark and much difficulty was experienced in keeping up steam in the engine. Finally, at a point half a mile west of Republic, the train came to a standstill, being unable to move further, the conductor for that started forward with a lantern, but had not proceeded more than the length of twenty rods when he was overtaken by the approaching express rounding the curve not more than 40 rods distant and running at the lightning speed of 50 miles per hour. Horror-stricken, he flung his light in the face of the express, and the two trains crashed together.

The latter at the same moment saw the light of the freight engine, and giving a wild shriek of whistle for brakes, he reversed his engine and jumped for his life, crashing through the window of the freight engine, and was killed.

As he realized the danger, he called to his fireman, William Fredericks, to save himself. The latter was engaged in stoking the fire and raised his head a moment and hesitated. At that instant the crash came and poor Fredericks was pinned and crushed by the mass of the wreck. The engines of the two trains reared in the air like a pair of enraged living monsters, and then settled down upon the wreck, driven into each other until the cylinders touched.

The force of the impact jammed the freight car into the tender of the fast train, the express car into the freight car, and the freight car into the tender of the fast train.

Less than five minutes from the moment of the collision, the fire and smoke were so great that it could be made, the fire of the overturned freight engine, the freight train, and the freight car into the tender of the fast train.

Less than five minutes from the moment of the collision, the fire and smoke were so great that it could be made, the fire of the overturned freight engine, the freight train, and the freight car into the tender of the fast train.

Correspondence.

We do not hold ourselves responsible for the opinions of our correspondents.

A Note of Warning to Apple.

(To the Editor of the Monitor.)

There are certain parties in London, having no commercial rating whatever, and quite unknown in that city, who have persistently for several seasons been sending out "rose colored" reports of their "roses" to the Monitor.

This concern has been unusually enterprising this season, frequently sending cable reports of the markets to our newspaper, in several of which they have been conspicuous advertisements. Judging from numerous enquiries, I am reluctantly convinced that the reports of their "roses" are not the impression that while a rose is a rose, it is not a rose.

I am earnestly desirous to correct this most erroneous impression and caution all parties against accepting their property to the tender mercies of unknown and irresponsible people, and perhaps prevent a repetition of the disappointments which occurred a few seasons past.

Sincerely yours,

John T. Kelly.

Lat. Com. Fruit Dept. C. & E. R. Port William, Jan. 10, '87.

A Woman Shot by a Boy.

(Special to the John Telegraph.)

Passanow, N. B., Jan. 4.—The inhabitants of the city were somewhat startled this morning by the report of a very loud shooting, which took place in the upper part of the city, and which was followed by the death of a woman.

The woman, a lady well known in that district, and greatly loved for her estimable qualities, married, but few years, a loving wife and the mother of two children, shot down by the hands of a careless youth.

The circumstances of the case, as near as can be ascertained, are about as follows:—Two young men named Ballentyne, who live in the vicinity, had been accustomed to pass the house of Mr. Lawson, a lady well known in that district, and greatly loved for her estimable qualities, married, but few years, a loving wife and the mother of two children, shot down by the hands of a careless youth.

The woman, a lady well known in that district, and greatly loved for her estimable qualities, married, but few years, a loving wife and the mother of two children, shot down by the hands of a careless youth.

Notes From Over the Line.

That humorous paper, the "Burlington Herald," says that the United States had better take Mexico in one hand, and Canada in the other, and knock their heads together. Very good, *Herald*, and you should also advise Uncle Sam, when he gets one hand full of Mexico, and the other full of Canada, to take England in the other hand, for that will be about the size of the contract if he attempts to lay violent hands on his northern neighbors.

P. S. The United States must be prepared for war, as a one horse loss of ammunition was seen going through the streets of Boston, a few days ago. The ammunition was probably for use in naval warfare.

Now a few words to the grumbling class in the Province. When next you complain of the rates of postage in your own fair country, please tell the whole story. We admit that you have ample reason to be grumbling, but in the Province the rates of postage are only half as much. For registering a letter, you pay one cent for every two ounces; in the Province, one cent for every four ounces. The rates for parcels are also much more favorable in the Province than here. Then again, when the particular correspondent of the *Bridgetown Monitor*, wishes to send a single for publication in his favorite paper, if he writes from Boston, he has to pay ordinary letter postage rates, but if he writes from any place in the Province, he has to pay only half as much. For registering a letter, you pay one cent for every two ounces; in the Province, one cent for every four ounces. The rates for parcels are also much more favorable in the Province than here.
