

# GEMS OF WALDTEUFEL.

As a writer of dance music, especially waltzes, Waldteufel is pre-eminent, and fills, to-day, the position as a popular favorite, once occupied by Straus. His works are melodious, and the piano arrangements so admirably adapted to that instrument as to be easily played, and yet retain many of the orchestral effects; in this particular he has great advantage of his above-mentioned competitor, whose adaptations for piano were frequently too difficult to come into general use. Unlike other publications of the same character, we have adhered strictly to the original form, and each composition is complete, with introduction and coda—a plan too frequently neglected, and yet very essential, for the additions oftentimes convey the whole story or subject of the work.

# ANTHEM GEMS.

For Chorus or Quartette Choirs.

BY W. F. SUDDS.

The publisher of the above takes pride in calling attention to its superiority as a collection of anthems of only moderate difficulty among which one may search in vain for either dry, uninteresting or trashy music, so common in modern collections of easy anthems.

The selections and arrangements are from Mendelssohn, Mozart, Spohr, Beethoven, and other standard authors, besides a number of compositions by the editor, whose talent has already placed him among, if not (as some claim) at the head of, modern American composers; at all events, publishers are glad to procure his works, even at great expense.

In the above work will be found solos, duets or trios sufficient to please the admirers of solo singing, and which are written with an evident knowledge of the mechanism and capabilities of the human voice, hence no "unsingable" passages will be found. The organ accompaniments are separate, making it much easier for the average player than when required to play from the vocal score. In short, it is, for the average amateur choir, undoubtedly, the best collection of anthems ever published.

Similar in style of publication and value of contents, to "Garland of Gems," its companion in vocal music. Great care has been given in the selection of contents, and we confidently recommend the book as the best of its class.

In addition to excellent music paper, printing and binding, "Cascade of Rubies" appeals to all purchasers of music in a most persuasive manner, viz., the cheapness, which is certainly remarkable, being published in a most attractive manner, and offered at one cent per page.

The aggregate value of the same music, published, in sheet form, amounts to exactly \$14.14.
