

Blood Food

To feed the body and starve the blood is like pouring water through a sieve. If the blood is thin and weak, the digestive power of the body is weak. Why feed it food that it cannot take care of?

Feed the blood with

Pepto-Mangan ("Gude")

and the whole body is strengthened and re-organized, and the digestive tract will promptly perform its normal function. The already weakened stomach is not compelled to do extra work; PEPTO-MANGAN ("GUDE") is immediately taken up by the blood and does not produce any gastric disturbance.

To assure proper filling
of prescriptions,
order Pepto-Mangan ("Gude")
in original bottles
containing $\frac{3}{4}$ xi.
IT'S NEVER SOLD IN BULK.

PEPTO-MANGAN ("GUDE") is ready for quick absorption and rapid infusion into the circulating fluid and is consequently of marked and certain value in all forms of

Anæmia, Chlorosis,
Bright's Disease,
Rachitis, Neurasthenia, etc.

Samples and literature upon application.
