THIS USEFUL COMPILATION

It fittingly commemorates the close of the first hundred years of modern missions. It gives in bold outline the leading facts in connection with all the great mission fields of the world. Only the very latest statistics are presented. It is full of striking facts, incidents, calculations, contrasts, mottoes and pregnant sayings. For interesting and instructive reading in Epworth Leagues, Mission Circles, Woman's Missionary Meetings; for distribution of missionary literature in Sunday Schools; for fresh material in preparing missionary speeches, sermons or addresses, and for all busy workers who wish to keep abreast with missionary facts, brought up to date, this compendium is indispensable.

For the second edition, which is now issued, over four thousand pages have been gleaned to secure the latest and most interesting facts. Several new departments have been added, making forty pages more than the first edition. Among the new chapters are "Woman's Work," "Young People's Work," "Medical Missions," "Theological Ideas in Heathen Lands," "Liberalism and Missions," etc.

Rev. Dr. WITHROW writes: "It contains more information on missionary work of the last hundred years than can be found elsewhere in the same space. It is the result of very wide study, and will be invaluable to all mission workers, speakers or writers."

Rev. S. H. RICE, Milltown, N.B., writes: "I certainly have never seen so much information on this great subject in so small a compass. This valuable work should be scattered broadcast among our people from one end of the Dominion to the other."
