

JEWELS HAVE BEEN WORN AS AN ADORNMENT IN ALL AGES, BUT CIVILIZED NATIONS ALONE BRING THEIR PRODUCTION TO THE HIGHEST PERFECTION. FINE GOLD, artistically wrought, is beautiful, but it is a luxury only to be enjoyed by the few.

GOLDINE

combines the beauty of 16-karat gold, with the important qualities of DURABILITY and comparative CHEAPNESS. This fact accounts for the extensive reputation it enjoys not only in this country but in Europe.

GUARD CHAINS, VEST CHAINS, SUITS OF JEWELLERY, BRACELETS, SLEEVE BUTTONS, BROOCHES, EAR-RINGS, and all other articles are produced in this metal. To prevent the sale of worthless imitations, chains are stamped, and all earded articles are marked "Goldine" on the card in red letters. This should be observed in all cases. To be had of all dealers in the Dominion.

WORKS—HORNSEY ROAD, N., and SUMMERFIELD WORKS, ROBERTON, N. L., LONDON, manufacturers of PURE CHEMICALS & ALL NEW MEDICINES.

PREPARATIONS OF PEPSINE. MORSON'S PEPSINA PORCI.

Pepsine obtained from the stomach of the Pig, in a pure and palatable form. Free from Starch and acid. Dose—2 to 4 grains.

MORSON'S MEDICAL PEPSINE. DIGESTIVE POWDER. (PEPSINE ACIDE AMYLACEE, OU Poudre NUTRITIVE.)

Contains the active digestive principles of the gastric juice of the stomach, purified and rendered permanent and palatable. Dose: 10 to 20 grains.

CAUTION. As many of the low-priced Pepsines of commerce possess little or none of the digestive properties of TRUE PEPSINE, the following tests of the purity and activity of the above preparations are given and every bottle bearing the trade mark of T. MORSON & SON is guaranteed to answer the tests indicated.

TEST. TESTS OF DIGESTIVE POWER OF TRUE PEPSINE.—Mix 4 grains Pepsina Porci or 10 grains of Medical Pepsine, with an ounce of water, then add 15 drops of Hydrochloric Acid and 120 grains of coagulated egg. Albumen (hard boiled white of egg). Apply a gentle heat, not exceeding 100 degrees Fahr. (the temperature of the stomach) for about half an hour, stirring the mixture occasionally, when the process of digestion will be found to have commenced, the Albumen becoming soft and pulpy. This action may be continued until after the lapse of a few hours, a solution is effected, such as occurs in the stomach.

PEPSINE WINE. The efficacious properties of this preparation are already well known, when the digestive organs are weak, or their secretions imperfect or unhealthy, it has been found invaluable.

PEPSINE GLOBULES. One or two for a dose. These, like the Lozenges, may be carried in the pocket and taken when required.

PEPSINE LOZENGES. Each Lozenge contains a dose of Pepsine, and will be found a very convenient and agreeable mode of taking this remedy, as it may be carried in the pocket, and taken when dining out, or at any other time, without observation.

MORSON'S Pancreatic Preparations. PANCREATINE EMULSION (substitute for Cod Liver Oil). Perfectly soluble in water or milk. Dose: 1 to 3 tea-spoonful twice a day in milk or water. Sold in stoppered bottles at 2s. 6d., 4s. 6d., and 6s. each.

PANCREATIZED COD LIVER OIL, in bottles, 2s. 6d., 4s. 6d., and 7s. 6d. each.

PANCREATINE POWDER, containing the active principle obtained from the Pancreas, by which the digestion and assimilation of fat is effected. Dose, 20 to 30 grains.

GELATINE, a perfect and economical substitute for Isinglass. In packets, 6d., 1s., and 1s. 6d. each.

MORSON'S EFFERVESCENT CITRATE OF MAGNESIA, in 4 oz. and 1 lb. bottles.

CREOSOTE—(Caution)—From Wood Tar. Test of freedom from Carbolic Acid. Insoluble in Price's Glycerine.

Artificial Essences for Flavouring. CHLORODYNE Has now obtained such universal celebrity as a remedial agent, it can scarcely be considered a speciality, its essential composition being known to most European practitioners.

Many of the Chlorodynes of commerce are not of uniform strength, and vary in their effect, which has led to many a dose being superfluous, and this preparation being rejected.

The dose for an adult is from 10 to 20 drops (and 1 pound is equal to 160 drops) in the day, however, 15 to 20 drops is a safe dose, to be repeated every 30 minutes, but it is to be continued with the lesser dose. It may be administered in almost any fluid or on sugar.

MORSON'S PREPARATIONS are sold by all Chemists and Druggists throughout the world.

TO PRINTERS. THE HIGHEST CASH PRICE paid for Old Type, or paid by Electrotype or stereotype. Apply at this office.

CERTIFICATE FROM MR. ALFRED KNUCKLE, American House, St. Joseph Street. MONTREAL, March 7th, 1872. DEAR SIR.—I was afflicted during the beginning of this winter with a most severe COLD, attended with incessant COUGHING and DIFFICULTY OF BREATHING, which reduced me so low that many persons supposed I could never recover. I tried a great many things, which were given me both by my doctors and friends; but did not receive any benefit from anything until I commenced using your "HOARBOUND AND CHERRY BALM," which seemed to give me relief immediately. I continued using it until I was completely cured, and now I live as well as I ever was in my life. I would gladly recommend it to any person suffering from a similar complaint. Almost anybody who knows me can certify to the above. ALFRED KNUCKLE. Mr. RICHMOND SPENCER, Chemist, corner of Metcal and Notre Dame Streets.
