News by the Caledonia.

The Caledonia had an excellent passage, considerable headings, but pleasant weather. Sir A. N. McNab was a senger. The intelligence is not of much interest. The dolera in London was steadily on the decline, while at Liverpool it is on the increase. In Birmingham and Man-chester they have escaped the dreadful malady. The harvest had every appearance of being abundant; the wheat is ex-pected to be a most excellent crop.

On the continent, particularly in France, reports are also arounable. The potatoe disease is again prevalent in the outh of Europe, although in England and Ireland it is said, lot even fluctuating, to be so bad as in former years. Hops this year have been attacked with mould, and it is will be a great failure.

The money market is steady. In the funds a fair amount business has been transacted. Consols for account 93. The Legislative Assembly of France has adjourned to the October next. The conclusion of a treaty of peace be-cen Austria and Sardinia was officially announced on the

LIVERPOOL MARKETS. A marked improvement in business is observable. Large of Cotton at an advance of 1. Sales of the week 90 bales. Breadstuffs dull, prospects of good harvest.

DREADFUL CONFLICT IN HAMBURG BETWEEN THE PEOPLE AND THE PRUSSIAN SOLDIERS.

Hamburg, August 4th 1849. of tisferday, when the 2nd battallion of the 15th Regiment of infantry arrived, the people gathered in great numbers and pelted them with stones. Another party tried to shut he gates by which they were entering against them. The codiers used their arms against the people, and a serious conflict took place. The loss of the military was trifling, but that of the populace very considerable. 10 soldiers were carried to the hospital—30 or 40 people were wounded. During the night some of the National Guards united with the multitude, and erected barricades close to the Riding school, where the Prussians were quartered. At the barricades fresh conflicts ensued. Towards morning, the barricades were carried, and a little later every thing was quiet. esterday, when the 2nd battallion of the 15th Regimen HUNGARY.

ceived at Paris from Vienna declares positively the Government had resolved to negotiate with the

Vienna on the 12th, an official des; atch from the Rusgeneral Luder was published, announcing a battle en his force and those of Bem, in which the Hungarians lotally defeated, having 1000 killed, and leaving in the soft the Russians 5000 prisoners. Bem himself was unded and nearly captured. The Russians captured 7 pieces, 2 standards, and Bem's carriage. perform those duties, which are so indispensable, to assist in averting the violence of the pesilence which is now raging

MURDER IN TORONTO .- It is our painful duty to have to record the perpetration of one of the most deliberate and cold-blooded murders which it has ever been our lot to chronicle, committed at an early hour on Thursday morning last, by a man named Smith on one Richard East-wood. The men were both privates in the Rifle Brigade, and the crime was committed at the new barracks, near this city. It seems that Eastwood, who was in every respect an exemplary soldier, and was about to be transferred to the Royal Canadian Rifles, occupied the same room with Smith, and was finding fault with him, at seven o'clock on Thursday. and was finding fault with him, at seven o'clock on Thursday morning for making a disturbance during the night. Upon this, Smith became very insolent, and said, he was glad they were going to get rid of Eastwood, as he was going into the b—y Cannocks. Eastwood replied, that he was going where he (Smith) could never go, his conduct was so bad.—(Smith was once a deserter.) After this nothing passed between the men until their return, from parade, about nine o'clock, when, as they were cleaning their arms, Smith nine o'clock, when, as they were cleaning their arms, Smith took his musket and deliberately shot Eastwood through the body. The ball entered the right side, passed through the stomach and spine, and out behind, lodged in a bed near which the work of the stomach and spine, and out behind, lodged in a bed near which the work of the stomach and spine. which the unfortunate man was standing, and caused death within half an hour. Smith was immediately locked up, and when in the guard house, inquired if Eastwood was dead, and on hearing that he was not, he said "then the d—d b—r ought to be," and further, that they "need not send for a cought to be," and further, that they "need not send for a doctor, as he had shot the man through the heart.

A Coroner's Inquest was held on the body of the deceased, and a verdict of—" Willful Murder against Robert Smith" recorded. In the course of the evening Smith was handed ever to the civil authorities, and sent to gaol to stand his trial at the next Assizes .- Globe.

The Official Gazette of Saturday last, contains a proclamation giving the Royal assent to the Toronto and Lake Huron Railway Bill. It is only bare justice to Mr. Capreol to say, that the public are entirely indebted to that gentleman for his successful result of the exertions he has so perseveringly continued, in the midst of every discouragement, and at a heavy pecuniary sacrifice. Now that the miniciple of the Bill is tally sanctioned, we have that all principle of the Bill is fully sanctioned, we hope that all parties will unite in urging on this most vital measure to the interests of Toronto.—Patriot.

To the Proprietor of the Journal of Education, Toronto, Canada.

My DEAR SIR,-It will afford me much pleasure in placing at your command a special sum towards the promotion of education in the Colony, in the opening of 500 schools in the interior, for a sound religious and scientific education.

You will be so good, my dear sir, as to prepare a statement at length of the probable sum necessary for this object with a statement of the localities where you would recommend the opening of the same

Besides the special sum I give for this object, I will endeavour to enlist the patronage of friends in behalf of your plan; and I have not the smallest doubt such an amount will be raised as will enable you to enter upon the most ex-tensive operations in all directions. The details of your plans had better embody a special impression, as doubtless t will be perused with great interest, and attended with the nost happy, the most beneficent, the most permanent re-It certainly seems now impossible to resist the conclusion that the time is now come for this important question enga-

that the time is now come for this important
that the time is now come for this important
ging the most serious consideration.
Would you recommend the opening also of Agricultural
schools for the specific training of those desirous of the same?

I am my dear Sir,
Yours, &c.,

London, July 20th, 1849. The Editor says:—
"We shall be thankful to any person interested in the great object proposed, for suggestions on the subject, between this and the 30th of September."

THE SEAT OF GOVERNMENT.—The vote of the Legislature, at its last session, which in effect declared the continuance of the Seat of Government at Montreal no longer desirable, having reopened the question as to the selection of the provincial capital, it was made one of the duties of a recent deputation from the Corporation of this city to London, to urge upon the Home Government a favorable consideration of the claims of Kingston to the coveted honor, in the event of a reference of the

which it was stated: -

vested in the Home Government.

years) large sums were expended, under his recommenda-tion, in acquiring land for military fortifications, in extending the fortifications, and in the purchasing of the ground whereon to erect the necessary Parliamentary and other public buildings-ail of which land is now available for

"That when Her Majesty's Government were at last induced to consent to entertain the question of a change in the seat of the Canadian Government, the exercise of the Royal Perogative was strictly limited to the choice of one of the two places only, by the address of Sir Charles Metcalf to the Legislative Assembly, dated Kingston, 6th October, 1843, wherein is stated, "that her Majesty's Ministers will be prepared to submit favorably to Her Majesty such addresses on the subject as may be presented by either or both Houses of the Legislature, in recommendation of either Kingston or Montreal, " * * * * * it being understood that the selection is now necessarily it being understood that the selection is now necessarily limited to one of those places." The undersigned begleave respectfully to state their belief that this limitation is still in force, and that if the disapproval of Montreal by the Canadian Legislature leads to an exercise of the Royal preparative, the choice will necessarily report to Kingston prerogative, the choice will necessarily revert to Kingston. That in addition to the extraordinary advantages

which Kingston possesses for an easy and speedy access to all parts of Canada, it will be brought within thirty hours distance of the sea-board at Boston or New York by the Rail-road now constructing from the opposite shore at Cape Vincent, to intersect the road leading to Albany. We would beg also to state to your Lordship, that while it is almost precisely in the centre of that portion of Canada capable of cultivation, it may also be said to be in the centre of the intelligence of the country, for of the 582 post offices in Canada there are 293 below

That the situation of Kingston is eminently salubrious, and that there is less mortality among its inhabitants than those of any other large Town in Canada we confidently assert, and we appeal to military statistics in confirmation of the assertion.—Abridged from the Chroni-

LAKE CHAMPLAIN AND ST. LAWRENCE CANAL.—A public meeting of the inhabitants of Montreal was held in the Bonsecours market, on the 28th August at 2 P. M, for the purpose of taking into consideration the Report of the Convention, held at Saratoga on the 21st inst., relative to the proposed Canal to join the waters of Lake Champlain, with those of the St. Lawrence.

on and that, as a preliminary, more information should be obtained, and surveys be made of the different routes of which public attention has been called.

At the adoption of such a course your Committee have the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention as it is calculated to remove all the public attention and the public attention has been called.

felt much satisfaction, as it is calculated to remove all misapprehension, and to ensure the location of the Canal, upon safe and approved data, in a manner to meet the concurrence of the government, who are to be consulted according to the act, and to serve the interest of the people of Canada, and tending to the prosperity and advancement

cordially accepted by the meeting.

A report had been prepared and was submitted on behalf of the American portion of the Convention by Chancellor Walworth, containing much valuable information and important views. As this document, however, had been prepared upon the information possessed by its far-mers solely, and did not consequently, expatiate much on the points involved as far as concerns Canada, your Committee asked and obtained leave to pepare and communicate a report of theirs, to be printed along with the report

of the Proceedings.

After the adoption of the report, it was resolved, the cost of surveys, and expense incidental to the locating of the said canal; such sum having been apportioned as the amount to be paid by Canada for the purpose above men-

On Wednesday the 22nd ult., the Propeller Oswego, of Oswego, ran against the lower gates of the lock at Port maitland, carrying both away. It is expected the damage would be repaired, and the lock ready for use, on Wednesday the 29th causing a week's delay.

CHOLERA. The cholera has not yet left Chippawathere was one death there on Sunday last, and two or three persons were suffering from the disease the follow-

At the Stone Bridge on the Welland Canal, there were nine deaths from cholera on Monday and Tuesday, and four other cases under treatment. One case, we understand, has occured at

Sodom. - Niagara Chronicle. There have been some cases of Cholera in

THE LOWER PROVINCES .- A gentleman from New Brunswick, named Lewis Payson, is at present lecturing in Montreal "on the capiblities of the Lower Provinces Agriculturally and Commercially." We wish hat he could be induced to make a tour of Canada West, and lecture the people into something like a correct knowledge of the capabilities of those provinces, to which we hope soon to be united, and benefits that would mu-

tually result from such a union.—British American. THE HARVEST, TORONTO TOWNSHIP .-Graceless and cold-hearted must be the farmer in this portion of the Province, who is not grateful to Almighty God for the abundant increase with which this year He has rewarded his toils. The wheat and peas have already been gathered in, both being excellent crops, and the oats and potatoes give promise of a like happy result. - Steets-

CONGREGATIONAL DISSENTERS.—A paper to be called the Christian Statesman is about to be issued under the patronage of the Congregational Union of Canada West—it is stated in the prospectus that "the Committee feel that they at once guarantee to the public the character and principles of the Christian Statesman, when they announce that the Rev. John Roaf has, with the concurrence of his Church, consented to become the Editor for at least the first year of its existence." for at least the first year of its existence."

LORD ELGIN AND THE CONSERVATIVES OF BYTOWN.—At a Public Meeting of the Conservatives of Bytown, it was resolved, not to interfere with any demonstration but that in the event of a public meeting being called, to adopt an address to the Governor General, the Conservatives do turn out and attend the same.

MINISTERIAL RESIGNATIONS .- We have lso spoken of the resignation of Mr. Price from official life. This is absolutely certain. His official resignation was sent in on Thursday last. Mr. Price is a gentleman was sent in on Thursday last. Mr. Price is a gentleman who is much respected among all classes here, as a sensible man, opposed to all the foolish acts of violence which have disgraced the ministry of late, and embittered the feelings of the good people of Montreal. He has been requested by a high functionary to remain, but he stated to him that he was sacrificing his professional income, for a very uncertain tenure of office, and that he could not afford to do so. He also, we believe, made some allusion to some of his colleagues availing themselves of the openings created by recent acts of Parliament, to retire on pernanent appointments. So he leaves the ministry.
We are also informed that there has been some of

sion as to the party to assume his office. Mr. Merrit wants it, so does Cameron. The programme talked of is Colonel Taché to be President of Council, Mr. Merritt, Crown Lands: Mr. Cameron, Public Works. Another is Mr. Caron, President of Council, and Speaker of the Upper House (thus saving a salary); Mr. Merritt, Crown Lands nd the others as they are.

We shall learn soon how it is to be. - Gazette.

The Upper Canada Schooners, L. S. Shickluna, of St. Catherine's and Pacific, of Toronto, consigned to Joseph Ward, Esq., arrived at Quebec, from Halifax on Tuesday the 28th. August.

PARLIAMENT BUILDINGS AND LIBRARIES. There is a rumor afloat that the Government intends during the next sesson of parliament, to bring in a Bill, by which to compel the people of Montreal to pay for the libraries and other property destroyed on the night of the 25th of April by a compulsory rate.—Montreal Courier.

THOROLD.—A much greater number of buildings and of a better class have been erected this than any preceding season. New factories are going into operation; old mills being rebuilt, and new ones projected. A foundry, machine and engine manufactory, is about being established, and sanguine expectations are entertained of the cotton factory soon recommencing operations. Thereold Advecate

PORT HOPE. - Notwithstanding the general cry of "hard times," and the depression that certainly has been felt during the past season, in trade and amongst the business community, by which of course all have been more or less affected, our town has still continued to improve, and the effects of the severe fires with which it was visited last winter have been nearly obliterated. matter to the Imperial authority. This proceeding was deemed correct, because, from the evident difficulty in arriving here at a satisfactory conclusion, it did not appear improbable that a final reference of the question any town in Canada.—Port Hope Advertiser.

would be made to her Majesty, and the decision be thus Our contemporaries have settled, doubtless The Deputation presented a petition to Lord Grey, in hich it was stated: — to their own satisfaction, the question of the removal of the Seat of Government; alledging, that at a Cabinet Council held on Saturday last, it was determined that it should re "That the Seat of Government having been placed at main in Montreal. We have good reason to believe that no such decision has been arrived at .- Pilot.

It is stated that the Hon. John Macdonald of Kingston intends to resign his seat in the House of Assembly, the ill health of a near relative rendering it necessary for him to reside next winter in a southern lati "That when Her Majesty's Government were at last

GROSSE ISLE.—We regret to learn that Cholera has appeared at Grosse Isle, the Quarantine Station. The Island, until within a short period, has enjoyed an immunity from the disease, and we have been informed that the passengers by the Circassia were the first to introduce it there. A note appended to the official report for the week ending the 18th inst., stated two deaths had occurred from Cholera, on board the Sir Charles Napier, from Dublin, while lying off the station, on the 19th and 20th. Twenty-six of her passengers had died of Cholera during the passage. The weekly report to the 25th announces one death from Cholera (a child aged four years), and six cases under treatment on the Island. An extra return, dated seven, P. M., on the 28th, mentions the following:—" Died from cholera on the 26th and 28th Aug. three men, six women, and one child; total, ten. Under treatment, sixteen cases. Typhus fever, seven deaths -Quebec Mercury.

TAVERNS IN THE DISTRICT OF MONTREAL. -The number of Licenses granted this season for the sale of intoxicating liquors in the District of Montreal, is less by one half than was granted last year.

FIRE IN THE WOODS AT WILLIAMSBURG. The country in these parts is all on fire. The destruction of property is imense. Twenty-five comfortable Farmers have been turned out of house and home this forenoon, in the Township of Winchester alone, and from all accounts they are no better off in other Townships; even our neighbours on the south side of the St. Lawrence are suf-fering equally with ourselves; no knowing where it may end, unless we get a change of weather while Really the farmers are loosing terribly by this misfortune.

- Correspondent of the Kingston Argus Aug. 28th.

LAW SOCIETY OF UPPER CANADA. TRINITY TERM, 13TH VICTORIA. In the present term of Trinity, the following Gentlemen were called to the degree of Barristers at Law: On Monday 30th July, William George Draper, Esquire, George A. Montgomery, " On Wednesday 10th August,

IN UNIVERSITY CLASS; Mr. John Boulton, B. A. IN SENIOR CLASS:

Mr. Charles Sidney Cosens,

THE MOST VALUABLE SPRING AND SUMMER MEDICINES IN THE WORLD.

DR. HALSEY'S FOREST WINE, AND GUM COATED FOREST PILLS.

An invaluable Compound Sarsaparilla preparation. Manufactured on the same principle as the Forest Wine, for which it is an important adjunct. They are coated with pure Gum Arabic, an important invention from which Dr. Hasley has received the only patent ever granted on Pills by the Government of the United States.

Dr. HALSEY'S Forest Wine and Gum-coated Forest Pills, unite in accomplishing the same great end, THE PURIFICATION OF THE BLOOD, THE RENOVATING AND RESTORATION OF THE STOMACH AND BOW.

THE BLOOD IS THE LIFE!!!

The life principle of man is the blood, no sooner are those organs of the stomach which make and nourish the blood, cleansed of morbid matter, and restored to healthy action by the use of the Forest Pills, and pure rich blood made, to flow in the veins by the use of the Forest Wine, than disease begins to vanish, and the strength and energy of body return. This is the principle on which is founded these great medecines, and by

Scrofula, Dropsy, Billions Dispases, Dispepsia, Indigestion Weakness, Want of Nervous Energy, Jaundice Coughs, Colds, General Debitity, Emaciation of the Body, Rhu-matism, Ague and Fever, Diarrhea, Cholera, Ulcere and many other diseases are radically cured. CHOLERA,

Which at this moment is spreading death and Terror over the eartth, it is still a great mystery, Asiatic Cholera is but a disease.

in its advanced stages, incontrolable and incurable. It is in the ntmosphere. The air everywhere contains Cholers infection.
All who breath partake of the poison, all are exposed to the same malignant infection, and ALL HAVE THE CHOLERA. That all experience, Cholera, sooner or later, may appear strange, but is nevertheless true. How few are there who have

not already experienced that unnatural heaviness, looseness, or bearing down of the bowels, a sense of sickness at the stomach, and other strange symptoms? This is cholera; but why, it may be asked, if all inhale the same poison, do some die so suddenly of the disease, while others experience but its slightest symptoms? Our answer is ready! With cholera as with other diseases. In proportion as the system is disordered and charged with motbid matter, does the infection take hold of us, Cheap for Cash, or approved Credit.

For particulars, apply to W. Townsand, corner of Bay and Richlandstreets.

IN returning thanks to her Friends for whether it be Asiatic Cholers, Influenza, or other epidemic whether it be Asiatic Cholers, Influenza, or other epidemic whether it be Asiatic Cholers, Influenza, or other epidemic disorders. In pure blood circulates in our veins, and the body

De. Halsey does not pretend that his Forest Wine and Pills men, whose daughters Mrs. Poetter has had the honour of will cure cholers in its advanced stages; no medicine will do it no medicine will act, it is then roo late. Our advice is, in such cases, send for a physician. If the constitution be strong he may keep life in the body until the disorder turns and the

patient recovers; but nearly all in advanced stages of disorder WHAT IS TO BE DONE THEN? When the first symptoms are felt, and before the disease takes a serious turn, the first thing to be done is to remove the orbid matter from the system, remove " the fuel to which the infection ignites," then purify the blood, strengthen and fortity the system. This, reader, is precisely the principle on which Dr. Halsey's Forest Pills and Wine act. Five or six of these mild and excellent pills taken at the commencement of the disorder, carries off all infectious matter, and the symptoms of Cholera disappear, while the great purifying and strengthening effects of the Forest Wine fortify the system against further attacks of Cholera or any other disease.
