So figured atheist revolutions. should formake it? His mind pictured the quiet homes and beautiful farms of the people inundated by the flood of waters and he determined to stay at his post or to Now, there is a sense in which every

person, every boy and girl occupies a position of far weightier responsibility than that of the little Hollander on that dark · and lonesome night; for by the good or bad influence which you do and shall exert, you may be the means of turning a tide of wretchedness and eternal ruin or a pure stream of gludness and goodness on the world. God has given you somewhere a post of duty to occupy, and you cannot get above or below your obligations to be faithful to it. You are responsible for leaving your work undone as well as having it badly done. You cannot excuse yourself enying "I am nobody-I don't exact any influence;" for there is nobody so mean or obscure that he has not some influence; and you have it whether you will or no, and you are responsible for the consequences of that influence what. ever it is. Take your stand before the wo ld then with a determination to devote your influence to virtue, to humanity, to God. Let the children begin life and grow up with these solid principles of netion, to fear and to honour God, to be true to your conscience, and to do all the good you can. Then will your path indeed be like that of the just which " shineth more more and more unto the perfect day."

CHILDREN .- I remember, observes Bish on Hull, a great man coming into my house at Walliam, and seeing all my children standing in the order of their age and stature said, "These are they that but never seen in fair weather .- John make rich men poor." But he straight Newton. 2 Cor. iv. 17. received this answer, " Nay, my lord, these are they that make a poor man rich; for there is not one of these when we would earth. We are as patients in an hospital; part with for all your wealth." It is easy regimen, medicine and cure are at present to observe that hone are so griping and hard fisted as the childless; whereas those | be discharged cured, and that will make who, for the maintenance of large families, are inured to frequent disbuesements, find such experience of Divine Providence in the faithful management of their affairs, as that they by our with more cheerfulness those they receive. Wherein their care anything in the world worth doing we must be aboved when God takes it off from must not stand shivering on the bank, and them to Himself; and if they be not want. This interesting and movel undertaking will commence at the General Post Office, in St. Marines le Grand and proceed beneath the streets and roads of the metropolis till the way to the terminus of the Great Western Railway, at Publing. ton. The entire distance will be 41 miles It will cross Smithfield, and proceed along Picet Valley to the Newsond, taking Coldboth field's prison in its way. For the to movel of this building the promoters have made on arrangement with the Maldlesex magistrates. The terms are that the terminaters of the radway, to return for the ground in Coldbob-fields, are to build a prison for the county of Maldlesex not less than six, and not more than nine miles from London; the building to contain accommodation for 1500 prisoners, with 50 acres of ground attached, so that those of the prisoners who have not learned in-loor trades may be mode to perform rural labour, in accordance with the industrial principle on which the prison is conducted. Three unles of the North Metropolitan Radway will run underneath roads, or unoccupied property, which will considerably lessen the expenses incident to the construction of the line. The entire estimated cost is £1,000,000. The Sobterranean Rate way will join the Great Northern, the London and North Western, and Great Western lines. The stations are to be at Victoria Street, Clerkenwell, King's Cross, Euston Square, Hump Leid Road, Osonburg Street, Baker Street, Edgeware Rad, and opposite the Great Western Hotel, with a branch to the Great Western station. Trains will start every five minutes. The time required to perform the journey will be a quarter of an hour, and the faces for the whole distance will be 2d for the third class, 4d for the second class and 64 for the first class carriages. The North Metropolitan Railway will therefore be a great accommodation to the people of London, and will doubtless have an immense traffic. At a special meeting of proprietors, on Monday, the solicitor read the head of a lift for extending the authorized line to the Great Western Railway
