

AIR

Air traffic between Mexico and Canada is mainly vacation-oriented and is not well adapted for cargo transport. Nonetheless, air transportation may be appropriate for products with a high value-to-weight ratio, such as electronics components, or perishables, such as flowers. Some producers of specialty meat products ship by air directly to Mexico City, where they reportedly receive rapid customs clearance. At present, Montreal, Toronto and Vancouver are points of origin for direct commercial services to Mexico.
